*Post-Koiné: Studies of Non-Anthropocentric (Poetic) Languages* Anita Jarzyna, 2025-09-25 In this book you will come across an authorial formula of extrahuman community and communication The formula includes languages polemical with the narrow model of community that often excludes certain human and non human beings Alternative languages are sensitive to the codes of violence directed against animals so as to inclusively create a new interspecies non antagonistic collectivity What especially seeks such alternative languages is poetry It not only represents the true character of existing relationships with animals or determines their shape but also can interfere in them suspend the control of logocentric order and as a result reduce the ambiguous human guardianship over animals that in turn

requires the verification and questioning of the guardianship's position in language. This publication treats Polish poetry as a statement equal with if not precursory for the discursive calls for the abolition of anthropocentric dominance. The book proves that critical reflection on the language that consolidates the community redefines our attitude toward animals. **AI + The New Human Frontier** Erica Orange, 2024-08-08. This book examines some of the roles time travel plays on screen in science fiction and fantasy. Plot synopses and credits are listed for films and TV series from England, Canada, the UK, and Japan, as well as for TV and films from elsewhere in the world. Tropes and plot elements are highlighted. The author discusses philosophical questions about time travel, such as the logic of timelines, causality, what's to keep time travelers from jumping back and correcting every mistake, and morality: if you correct a mistake, are you still guilty of it. *Wild Hunting* Ava Thompson, AI, 2025-01-02. *Wild Hunting* offers a comprehensive exploration of humanity's complex relationship with hunting, weaving together historical practices, modern conservation efforts, and the delicate balance
