Hughes, 2017-10-03 Is Japan on a path towards assuming a greater military role internationally or has the recent military normalisation ground to a halt since the premiership of Junichiro Koizumi In this book Christopher W Hughes assesses developments in defence expenditure civilmilitary relations domestic and international militaryindustrial complexes Japans procurement of regional and global power projection capabilities the expansion of USJapan cooperation and attitudes towards nuclear weapons constitutional revision and the use of military force In all of these areas dynamic and long term changes outweigh Japans short term political logjam over security policy Hughes argues that many post war constraints on Japans military role are still eroding and that Tokyo is moving towards a more assertive military role and strengthened USJapan cooperation Japans remilitarisation will boost its international security role and the dominance of the USJapan alliance in regional and global security affairs but will need to be carefully managed if it is not to become a source of destabilising tensions

Japan's International Agenda Yoichi Funabashi, 1995-07 What is Japan's political role in the world Over the past decade Japan has been increasingly pressured to assume more financial and political burdens globally Its foreign policy has thus evolved in a piecemeal manner around the question of managing foreign pressures To date policy has been largely developed by bureaucrats who are traditionally responsible for public policy in Japan The lack of a clear set of foreign policy objectives however has made it impossible for the bureaucracy to play its previous role as the arbiter of public interests Today there is increased recognition that in a more pluralistic society nongovernmental public policy specialists are needed to provide a more integrated and longer term vision of foreign policy goals This book represents the first private and non governmental indigenous effort to stimulate public debate of Japanese foreign policy Japan's International Agenda makes a distinctive contribution to the foreign policy debate Its contributors are younger Japanese non governmental foreign affairs specialists each with considerable international experience and committed to the belief that significant policy reforms are essential As a statement of Japan's ability to contribute substantially to international policy debates on such broad questions of security and trade and development Japan's International Agenda will enable scholars and experts in North America Europe the Asia Pacific region and elsewhere to engage in substantive dialogue on critical public policy issues with their Japanese counterparts This book represents the first private indigenous effort to stimulate public debate of Japanese foreign policy Its contributors are young Japanese foreign affairs specialists each with considerable international experience and a commitment to the belief that significant policy reforms are essential
