Future Of Child Protection How To Break:

The Future of Child Protection Jane Waldfogel, 2001 **Reforming Child Protection** Bob Lonne, Nigel Parton, Jane Thomson, Maria Harries, 2008-07-10 Child protection is one of the most high profile and challenging areas of social work as well as one where children's lives and family life are seen to be at stake. As child protection work is, this book argues that there is a pressing need for change in the understanding and consequent organization of child protection in many English speaking nations. Grounded in the recent and contemporary literature research and scholarly inquiry, this book capitalises on the experiences and voices of children, young people, families and workers who are the most significant stakeholders in child protection. It will be an essential read for those who work, research, teach or study in the area.

Beyond the Risk Paradigm in Child Protection Marie Connolly, 2017-09-16 For decades child protection systems have striven to provide responsive services to vulnerable children and families in the face of the constant change and instability caused by the bureaucratization of child protection. This book lends a strident voice to the argument for a shift beyond the current risk paradigm towards genuine cultural change.

Research Methods in Child Welfare Amy J. L. Baker, Benjamin J. Charvat, 2008 In this text two highly experienced researchers offer the best techniques for conducting sound research in child welfare. Covering not only the methodological challenges but also the real life constraints of research in child welfare settings, Amy J. L. Baker and Benjamin S. Charvat present a volume that can be used both for general research methods and as a practical guide for conducting research in the field. Baker and Charvat devote an entire chapter to ethical issues involved in researching children and their families and the limits of confidentiality within this population. Each chapter begins with a scenario that presents a question or problem to work through, enabling readers to apply the methods to a specific setting. Special sections explore the value of continuous quality improvement activities which enable the collection and analysis of data outside of the strictures of publishable research and the implementation of program evaluations which can be helpful in obtaining further research and programmatic funding.

Breaking Generational Curses When Child Protective Services Takes Your Children Dr. Rachael Robertson, 2020-05 The Department of Protective Services is just heartbreaking. And children return home even if it's from child to adulthood and on their own terms. It happens and there are challenging factors to face but we'll help migrate into restoration. The ultimate guide to restoring relationships something the department doesn't seem to stay around to witness and viable explanations to children. Whether families are separated because of parental alienation, facing allegations with Family Protective Services and/or incarcerated parents, damage is significant. Not only do all parties face trauma, alienation and loss but also a range of economic and social trials that result.

Breaking the Adolescent Parent Cycle Jack C. Westman, 2009-06-16 This book addresses the dilemma created by the discrepancy between our efforts to prevent adolescent pregnancy and our support of adolescent parenthood which the author argues is America's greatest unrecognized public health crisis. It is the most preventable cause of crime and welfare dependency and because we hold no expectations for parents who conceive and give birth to children, rates of child neglect and abuse in the United States far exceed those of other developed nations. Westman explores the circumstances and values that make motherhood seem to be girls' best option and that induce males to conceive without the ability to support their children. It proposes a feasible legal procedure as the basis for ensuring that adolescents' babies have competent parents with the resources and environments they need.
