The Management Process William M. Fox, 2009-11-01 Originally Published in 1963 by R D Irwin The *Management Process* presents new and traditional subject matter in a different context because it is felt that greater emphasis should be given to the interaction of the management functions All managers plan organize and control the work of others but not in a simple sequential pattern Managing is a continuous operation or process involving the interaction of these functions Managers must plan for organizing activity organize for it and control it and they must perform these same

functions for control It is felt that practicing managers do in effect think in these terms Consequently an analysis of traditional and other materials in this context should not only be more realistic but also more meaningful to the student or practitioner Reference to the chapter headings in the Table of Contents will illustrate the way in which this interaction approach provides a basic framework for the organization of this book As a text this book is intended for a first course in management or a more advanced course depending upon the characteristics of the curriculum in which it is used No specific course preparation however need be regarded as prerequisite to its use
