Fur Trade Of America:

Fur, Fortune, and Empire: The Epic History of the Fur Trade in America Eric Jay Dolin, 2011-07-05 A Seattle Times selection for one of Best Non Fiction Books of 2010 Winner of the New England Historical Association's 2010 James P. Hanlan Award Winner of the Outdoor Writers Association of America 2011 Excellence in Craft Award Book Division First Place A compelling and well annotated tale of greed slaughter and geopolitics Los Angeles Times As Henry Hudson sailed up the broad river that would one day bear his name he grew concerned that his Dutch patrons would be disappointed in his failure to find the fabled route to the Orient What became immediately apparent however from the Indians clad in deer skins and good furs was that Hudson had discovered something just as tantalizing The news of Hudson's 1609 voyage to America ignited a fierce competition to lay claim to this uncharted continent teeming with untapped natural resources The result was the creation of an American fur trade which fostered economic rivalries and fueled wars among the European powers and later between the United States and Great Britain as North America became a battleground for colonization and imperial aspirations In *Fur Fortune and Empire* best selling author Eric Jay Dolin chronicles the rise and fall of the fur trade of old when the rallying cry was get the furs while they last Beavers sea otters and buffalos were slaughtered used for their precious pelts that were tailored into extravagant hats coats and sleigh blankets To read *Fur Fortune and Empire* then is to understand how North America was explored exploited and settled while its native Indians were alternately enriched and exploited by the trade As Dolin demonstrates fur both an economic elixir and an agent of destruction became inextricably linked to many key events in American history including the French and Indian War the American Revolution and the War of 1812 as well as to the relentless pull of Manifest Destiny and the opening of the West This work provides an international cast beyond the scope of any Hollywood epic including Thomas Morton the rabble rouser who infuriated the Pilgrims by trading guns with the Indians British explorer Captain James Cook whose discovery in the Pacific Northwest helped launch America's China trade Thomas Jefferson who dreamed of expanding the fur trade beyond the Mississippi America's first multimillionaire John Jacob Astor who built a fortune on a foundation of fur and intrepid mountain men such as Kit Carson and Jedediah Smith who sliced their way through an awe inspiring and unforgiving landscape leaving behind a mythic legacy still resonates today Concluding with the virtual extinction of the buffalo in the late 1800s *Fur Fortune and Empire* is an epic history that brings to vivid life three hundred years of the American experience conclusively demonstrating that the fur trade played a seminal role in creating the nation we are today **The Fur Trade of the American West** David J.

Wishart, 1992-01-01 In stressing the exploitation and destruction of the physical and human environment rather than the usual frontier romanticism David Wishart has provided for students of the trans Mississippi fur trade a valuable service *Journal of the Early Republic* A standard reference work that should be required reading for all students of the American west *Pacific Historical Review* The whole fur trade system is traced out from the Green River rendezvous or the Fort Union

post to the trading houses of St Louis and the auctions in New York and Europe Such factors as capital formation shifting commercial institutions the role of advanced market information and the nature kinds costs and speed of transportation are all worked into the story as is the relationship of the whole fur trade to national and international business cycles This is an impressive achievement for a book so brief It opens out onto new methodological vistas and paradigms in western history William H Goetzmann New Mexico Historical Review David J Wishart is a professor of geography at the University of Nebraska Lincoln He is the winner of the John Brinckerhoff Jackson Prize for distinguished books in American geography sponsored by the Association of American Geographers for *An Unspeakable Sadness The Dispossession of the Nebraska Indians* also available from the University of Nebraska Press [The Fur Trade of America and Some of the Men who Made and Maintain it](#) Albert Lord Belden,1917 [The Fur Trade of America](#) Agnes C. The Fur Trade of America and Some of the Men Who Made and Maintain It Albert Lord Belden,2016-08-16 Excerpt from The Fur Trade of America and Some of the Men Who Made and Maintain It Together With Furs and Fur Bearers of Other Continents and Countries and Island of the Sea It is interesting to learn that the fur industry in America is definitely linked to the fur trade of antiquity and withal extremely gratifying to note the wonderful progress attained in every detail of the business the output of the skilled furrier of to day is essentially un like a fur of the first centuries in every particular except the initial stage the raw skin The inspired historian of first things events follow ing the renewal of the earth in anticipation of the advent of man assures us that very near the beginning fur formed an essential effective and important part of the apparel of the human race and this record has remained uncontradicted by the critical or the curious during the six thousand years more or less this little planet has been running its ordered course around the sun It may seem to be an insignificant matter to engage the pen of an inspired writer but it should be noted that it first measurably charged the mind of the Creator hands as well as mind by whom all things from least to greatest were created for the possession and peace of the one creature made in His own image About the Publisher Forgotten Books publishes

The Fur Trade of America (Classic Reprint) Agnes C. Laut, 2017-12-05 Excerpt from *The Fur Trade of America* For the past few years there has been a campaign waged in the United States which almost charges any one wearing a piece of fur with murder When that question is asked me I feel like answering by asking another set of questions Is child birth cruel Is any type of birth for animals or humans painless Should we abolish all birth and strive for the Nirvana of Nothingness because all birth is attended with even greater pain than death Should we cease to fight for right and award honor to the heroes of war because the triumph of right must necessarily entail death to those who fight for wrong About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Carlos, Frank D. Lewis,2011-06-06 *Commerce by a Frozen Sea* is a cross cultural study of a century of contact between North American native peoples and Europeans During the eighteenth century the natives of the Hudson Bay lowlands and their European trading partners were brought together by an increasingly popular trade in furs destined for the hat and fur markets of Europe Native Americans were the sole trappers of furs which they traded to English and French merchants The trade gave Native Americans access to new European technologies that were integrated into Indian lifeways What emerges from this detailed exploration is a story of two equal partners involved in a mutually beneficial trade Drawing on more than seventy years of trade records from the archives of the Hudson s Bay Company economic historians Ann M Carlos and Frank D Lewis critique and confront many of the myths commonly held about the nature and impact of commercial trade Extensively documented are the ways in which natives transformed the trading environment and determined the range of goods offered to them Natives were effective bargainers who demanded practical items such as firearms kettles and blankets as well as luxuries like cloth jewelry and tobacco goods similar to those purchased by Europeans Surprisingly little alcohol was traded Indeed *Commerce by a Frozen Sea* shows that natives were industrious

people who achieved a standard of living above that of most workers in Europe Although they later fell behind the eighteenth century was for Native Americans a golden age
