## **Furthering Humanity A Theology Of Culture:**

Furthering Humanity Timothy Gorringer, 2004 How should we reflect theologically about culture Tim Gorringer presents a threefold and interrelated reflection organised around culture power and mission First Gorringer interrogates culture through contemporary cultural studies but also through the contribution of the great eighteenth century theologian J G Herder He concludes by considering the question of cultural imperialism Secondly Gorringer asks where power is located in culture and how the church relates to that arguing that the central theses of liberation theology are far from dead The third part turns to questions of mission asking whether this is morally feasible in a culturally pluralist world and considering the implications of Samuel Huntington s notorious thesis of the clash of civilizations Gorringer argues that mission is in fact a vital part of a respectful multicultural society

A Cultural Theology of Salvation Clive Marsh, 2018-11-01 There aren t many serious works of systematic theology which engage with Breaking Bad The Big Bang Theory Crazy Heart theories of capital and positive psychology as well as the Isenheim Altarpiece and Handel s Messiah This lively contemporary study of salvation does precisely that Christian doctrine cannot simply repeat what has gone before even as it recognises the value and richness of the traditions Christianity carries with it Clive Marsh acknowledges this in exploring how doctrine interweaves with life experience and cultural consumption A Cultural Theology of Salvation considers how salvation is to be understood and articulated now when the theme of redemption appears outside of Christianity in the arts and popular culture Marsh also assesses whether contemporary

interest in happiness has anything to do with salvation The first part of the book sets the enquiry in the context of how theology operates as a discipline and the cultural climate in which theology has to be done The second part offers a number of case studies in art music TV film positive psychology and economic life exploring how the concerns of a doctrine of salvation are addressed directly and indirectly in Western culture The third part distils the results of the case studies in formulating a contemporary exposition of salvation and concludes by showing what this means in practice Theological Interpretation of Culture in Post-Communist Context Ivana Noble, 2016-12-05 Twenty years after the fall of Communism in Central and East Europe is an occasion to reevaluate the cultural and theological contribution from that region to the secularization post secularization debate Czech theologian Ivana Noble develops a Trinitarian theology through a close dialogue with literature music and film which formed not only alternatives to totalitarian ideologies but also followed the loss and reappearance of belief in God Noble explains that by listening to the artists the churches and theologians can deal with questions about the nature of the world memory and ultimate fulfilment in a more nuanced way Then as partakers in the search undertaken by their secular and post secular contemporaries theologians can penetrate a new depth of meaning sending out shoots from the stump of Christian symbolism Drawing on the rich cultures of Central and East Europe and both Western and Eastern theological traditions this book presents a theological reading of contemporary culture which is important not just for post Communist countries but for all who are engaged in the debate on the boundaries between theology politics and arts **Everyday Theology (Cultural Exegesis)** Kevin J. Vanhoozer, Charles A. Anderson, Michael J. Sleasman, 2007-03-01 Everyday theology is the reflective and practical task of living each day as faithful disciples of Jesus Christ In other words theology is not just for Sundays and it's not just for professional theologians Everyday Theology teaches all Christians how to get the theological lay of the land It enables them to become more conscious of the culture they inhabit every day so that they can understand how it affects them and how they can affect it If theology is the ministry of the Word to the world everyday theologians need to know something about that world and Everyday Theology shows them how to understand their culture make an impact on it Engaging and full of fresh young voices this book is the first in the new Cultural Exegesis series *Religion and Ecology in the Public Sphere* Celia Deane-Drummond, Heinrich Bedford-Strohm, 2011-04-28 A collection of essays from top scholars in the field of Religion and Ecology that stimulates the debate about the religious contribution to ecological debate **The Eucharist as a Countercultural Liturgy** Yik-Pui Au, 2017-04-14 Since its institution the Eucharist has been celebrated in all churches regardless of denominational differences Yet its importance should not be just confined to the Christian communities it can have transformational power in the cultural milieu In this book Yik Pui Au argues that the Eucharist can be a countercultural liturgy that upholds the identity and values of Christianity by countering cultural currents that are contrary to the Christian faith Au takes an interdisciplinary approach comprised of church history ritual theory and theology of culture to examine systematically the countercultural

functions of the Eucharist interpreted by three modern theologians Henri de Lubac John Zizioulas and Miroslav Volf representing the Catholic Orthodox and Protestant traditions respectively The comparative evaluation of this cross tradition analysis supports Au s argument that even though culture is complex and changing the countercultural function of the Eucharist remains valid Despite its complexity culture can be transformed by the Eucharist and it can also challenge and renew our understanding of the Eucharist She suggests that due to its richness the countercultural function of the Eucharist cannot be exhausted by one tradition It is the task of theologians to help the church continually venture to explore and vivify this function ecumenically

**An Epistemology of Religion and Gender** Ulrike E. Auga, 2020-03-26 This book puts forward a new epistemological framework for a theory of religion and gender s role in the public sphere It provides a sophisticated understanding of gender and its relation to religion as a primarily performative category of knowledge production rooting that understanding in case studies from around the world Gender and religion are examined alongside biopolitics and the influence of capitalism neoliberalism and empire The book analyses the interdependence of religion gender and new nationalisms in the Palestinian territories South Africa and the USA scrutinising the biopolitical interferences of nation states and dominant political and religious institutions It then moves on to uncover counter discourses and spaces of activism and agency in contexts such as East Germany and the Occupy Wall Street movement Using gender queer and trans theory in tandem with postcolonial and post secular perspectives readers are shown a more nuanced understanding of critical contemporary questions related to religion gender and sexuality This is a bold new take on religion gender and public life As such it will be of keen interest to scholars of Religious Studies and Gender Studies as well as those working on religion s interaction with Politics Sociology and Social Activism

**Between a Rock and a Hard Place** Elaine Graham, 2013-07-31 Public theology is an increasingly important area of theological discourse with strong global networks of institutions and academics involved in it Elaine Graham is one of the UK s leading theologians and an established SCM author In this book Elaine Graham argues that Western society is entering an unprecedented political and cultural era in which many of the assumptions of classic sociological theory and of mainstream public theology are being overturned Whilst many of the features of the trajectory of religious decline typical of Western modernity are still apparent there are compelling and vibrant signs of religious revival not least in public life and politics local national and global This requires a revision of the classic secularization thesis as well as much Western liberal political theory which set out separate or at least demarcated terms of engagement between religion and the public domain Elaine Graham examines claims that Western societies are moving from secular to post secular conditions and traces the contours of the post secular the revival of faith based engagement in public sphere alongside the continuing perhaps intensifying questioning of the legitimacy of religion in public life She argues that public theology must rethink its theological and strategic priorities in order to be convincing in this new post secular world and makes the case for the renewed prospects for public theology as a form of Christian

apologetics drawing from Biblical classical and contemporary sources      **Black Theology** Anthony Reddie,2012 An accessible introduction to Black Theology helping readers understand the inherited legacy of race ethnicity difference and racism as well as the diversity and vibrancy of this movement      **God's Image and Global Cultures** Kenneth Nehrbass,2016-08-26 Globalization has raised numerous questions about theology and culture for Christians How should we respond to outsourcing and immigration How does anti Western sentiment affect the proclamation of the gospel What is the role of the church in society This book argues that Christians will be most fulfilled and most effective if they embrace their cultural activity rather than feel ambivalent about it The central question of this book is how does bearing God s image relate to cultural activity Nehrbass explains that spheres of culture such as political technological and social structures are systems that God has instilled in humans as his image bearers so that they can glorify and enjoy him forever Therefore a theology of culture involves recognizing that the kingdom of God encompasses heaven and Earth rather than pitting heaven against Earth The text surveys anthropological explanations for humanity s dependence on culture and shows that each explanation provides only partial explanatory scope The most satisfying explanation is that a major functional aspect of bearing God s image is engaging in culture since the Trinity has been eternally engaged in cultural functions like ruling communicating and creating Each chapter contains a summary and questions about what it means to be a world changer in the twenty first century      **Theological Reflection: Methods** Elaine Graham,2013-01-25 This is the first in a two part project aimed at postgraduates and academics interested in the expanding volume of work and research surrounding theological reflection Brought together in Volume one is a comprehensive collection of models of theological reflection By bringing this diverse collection together in one place the editors create a unique reference work that allows a clear and visible contrast and comparison as each model is treated formally and in a standard format Throughout each chapter the distinguishing features of the model are examined the geneology and origins are discussed worked examples of the model applied to contemporary theology are provided and critical commentary future trends and exercises and questions are provided      **SCM Core Text: Black Theology** Anthony G. Reddie,2013-01-26 An accessible introduction to Black Theology helping readers understand the inherited legacy of race ethnicity difference and racism as well as the diversity and vibrancy of this movement      **A Theology of Gratitude** Mona Siddiqui,Nathanael Vette,2022-12-22 How from a theological standpoint should we make sense of gratitude This rich interdisciplinary volume is the first concerted to explore theologies of gratitude from both Christian and Muslim perspectives While the available literature has tended to rhapsodize gratitude to God and others as both a virtue and an obligation this book by contrast offers something new by detailing ways in which gratitude is complicated by inequality even to the point of becoming a vice Gratitude now emerges as something more than a virtue and other than merely transactional It can be a burden bringing about indebtedness and an imbalance of power but it may also be a resonant source of reconciliation and belonging Topics discussed cover the personal and political dimensions of gratitude

John C. McDowell, 2017-09-07 In a new and updated version of this best selling book John McDowell explores the many spiritual themes that weave throughout the Star Wars films From the Force to the dark side the issues discussed in the films have a moral and spiritual complexity that if paid attention to can help us better understand our place in the world and our relation to others and to God George Lucas the creator of Star Wars did not intend for his films to be mere entertainment McDowell argues Rather he hoped his films would be used as a vehicle for moral education This new version has been thoroughly revised to include discussion of The Force Awakens and other new developments in the Star Wars universe

**God in Sound and Silence** Danielle Anne Lynch, 2018-06-22 Music by its indeterminate levels of meaning poses a necessary challenge to a theology bound up in words Its distinctive nature as temporal and embodied allows a unique point of access to theological understanding Yet music does not exist in a cultural vacuum conveying universal truths but is a part of the complex nature of human lives This understanding of music as theology stems from a conviction that music is a theological means of knowing knowing something indeterminate yet meaningful This is an exploration of the means by which music might say something otherwise unsayable and in doing so allow for an encounter with the mystery of God
