The Future for Women in Development, 1990 **Women in Development** United States. Congress. Senate. Committee on Foreign Relations, 1984 The Future of Women's Rights Joanna Kerr, Ellen Sprenger, Alison Symington, 2004-09 The Future of Women's Rights identifies the emergence of various trends threatening the advance of gender equality women's human rights and sustainable human development These phenomena include the impacts of globalization and neoliberal economics developments in biotechnology the neo conservative backlash against women's rights monopolistic ownership patterns over information technologies the rise of identity politics marginalizing women's issues and the increase in violent conflict and war The contributors to this volume are united in seeing a pressing need for women's movements to evaluate their methods with a view to making their future political work more effective They identify current issues and trends in the world thinking through how these may impact women and the work of women's movements *Their Future* Michael Gubser, 2025-05-27 A compelling examination of how economic development projects ignore local history and the effects of this shortsightedness Foreign aid planners rarely consider the history of the societies in which they work an oversight noted in the development literature but rarely examined Aid programs costing billions of dollars operate largely in a historical vacuum divorced from the knowledge of what succeeded or failed in the past Michael Gubser chronicles the varieties of ahistoricism in international development theory and practice since 1945 He traces the history of development ideas analyzing key theoretical and policy statements to highlight the marginalization of history in favor of technical solutions to economic and social problems and he examines aid programs in several developing countries to show how Western models of social and economic development have been applied and misapplied **Future of Labour - Future of Women?** Gerhard Engelbrech, Maria Jungkunst, 2000 Future Directions in Social Development James Midgley, Manohar Pawar, 2016-11-25 This book invites readers to think about future directions in social development The book succinctly presents the historical context and progress of social development By reflecting on the Millennium and Sustainable Development Goals it discusses the increasing global relevance of several critical themes and issues such as human rights and good governance participation peace gender environment religion and spirituality aging social protection and partnership It appreciates the importance of goals and targets but calls to look beyond them to visualise future directions in social development The book argues that values driven social development needs to focus on knowledge creation dissemination and training draw on multidisciplinary knowledge and professionals promote conscientious consumption create less unequal societies and engage in innovation that brings happiness to everyone **Elise Boulding: A Pioneer in Peace Research, Peacemaking, Feminism, Future Studies and the Family** J.
