## **Future Of Art:**

The Future of Art in a Postdigital Age Mel Alexenberg, 2011-04-27 In *The Future of Art in a Postdigital Age* artist and educator Mel Alexenberg offers a vision of a postdigital future that reveals a paradigm shift from the Hellenistic to the Hebraic roots of Western culture. He ventures beyond the digital to explore postdigital perspectives rising from creative encounters among art, science, technology, and human consciousness. The interrelationships between these perspectives demonstrate the confluence between postdigital art and the dynamic Jewish structure of consciousness. Alexenberg's pioneering artwork, a fusion of spiritual and technological realms, exemplifies the theoretical thesis of this investigation into interactive and collaborative forms that imaginatively envisages the vast potential of art in a postdigital future. **Art of the Future** Pamela Grant-Ryan, 1987
