Future Of Low Birth Rate Populations:

The Future of Low-birthrate Populations Lincoln H. Day, 1995 Lincoln Day assesses the demographic situation the likely policy alternatives the significance of future changes in fertility and mortality rates and analyses the likely losses and gains attendant upon an ageing dwindling people China's Low Birth Rate and the Development of Population Guo Zhigang, Wang Feng, Cai Yong, 2017-12-12 As the most populous country in the world China's demographic challenges have always been too many people for ecological system resources and the environment However by the early 1990s fertility rate in China had dropped below the replacement level and China's low fertility has now attracted the world's attention This book is among the first studies to raise and examine questions on low fertility in China believing that China has entered a new era featured by low birth rate and ageing population Utilizing advanced research methods and models on low fertility to analyze China's census data this book explores the issues from various perspectives Methodologies employed in past population studies policy making concerning fertility rate underreporting of births and fertility rate estimates fertility level of the migrant population current population pattern long term population trends population dynamics and many other thought provoking problems are covered Finally the book revisits China's population issues in the context of globalization The 21st century has seen the new challenge of persistent population decrease and ageing worldwide which along with economic globalization demands a new understanding of the changes in population pattern and their consequences Researchers and students in China's demographic and social studies will be attracted by the insightful analysis and rich materials provided in the book Population policy makers will also benefit from it **The Future of Low Birth-Rate Populations** Lincoln H. Day, 2017-06-28 First Published in 2004 Routledge is an imprint of Taylor and Francis an informa company **Municipal Power and Population Decline in Japan** Fumie Kumagai, 2020-08-20 This book provides an insightful sociological study of the declining Japanese population using statistical analysis to establish the significance of municipal power using demographic data on national regional prefectural and municipal levels Penned by one of Japan's eminent sociologists it provides a quantitative characterization of population decline in Japan with a focus on regional variation and identifies the principal explanatory factors through GPI statistical software tools such as G census and EvaCva within a historical perspective Furthermore it offers a qualitative assessment of what constitutes municipal power as this relates to regional local revitalization as a means of addressing municipal population decline Using Goki Shichido as a theoretical framework this book pays special attention to municipal variations within the same prefecture presenting a completely unique approach In combining these two dimensions of analyses the book successfully reveals the impact of municipal power and socio cultural identity of social capital in the region from both quantitative and qualitative perspectives at the municipal level Demography issues in Japan have been receiving increasing attention among researchers given the growing number of declining populations in developed countries in tandem with rapid aging and low fertility trends Providing an original and

unique contribution to regional population analysis in the fields of regional demography historical demography and regional population policy this book shows that the revitalization of the community is vital if Japan is to increase its population so as to renew a community *raison d'être* The book is of interest to scholars of Asian studies more broadly and to sociologists demographers and policymakers interested in population studies specifically Providing an informative and vivid overview of the demographic situation of Japan the author offers excellent suggestions for effective regional policy in confronting a shrinking society This book presents a unique analysis of the regional variations on small municipal levels with demographic variables social indicators and historical identities An original contribution to regional population analysis in the fields of regional population policy regional demography and historical demography Toshihiko Hara Professor Emeritus Sapporo City University
