

The background of the slide is a dark, futuristic scene. On the left, a piece of medical equipment with a circular display showing a red heart icon is visible. In the center, a glowing, translucent blue rectangular screen displays a 3D anatomical model of a human heart. The heart is pinkish-red and is overlaid with a white grid and a white ECG (heart rate) line. To the right of the screen, there are some blurred, vertical light elements. The overall lighting is dim with blue and red highlights.

**The Future of Cardiology** John Goodman,Conrad Vernon,2001-08-01 As a follow up to their widely read book CAPTURING THE CARDIOLOGY MARKET John O Goodman and Conrad Vernon have compiled the most comprehensive volume to date on the subject of positioning for success in the field of cardiology On the pages of this 21 chapter book Goodman and Vernon outline fundamental steps that cardiologists cardiovascular surgeons and hospital administrators can take to succeed in

today's highly competitive rapidly changing cardiology environment. Additionally, based on first hand experience with Washington's health care policy makers, the authors offer insights regarding anticipated changes in our nation's health care delivery system. As a result of their extensive experience, authors Goodman and Vernon possess a unique perspective regarding the delivery of cardiovascular care in America. This unique perspective is presented throughout *THE FUTURE OF CARDIOLOGY: THE MASTER STRATEGIC PLAN*. Readers of this enlightening book not only can enhance their skills and position their cardiology group or program for long term success but they will be able to bring an enhanced quality of life to those suffering from heart disease.

*Conflicts of Interest and the Future of Medicine* Marc A. Rodwin, 2013-10-03. In this book, Marc Rodwin examines the development of conflicts of interest in the health care systems of the US, France, and Japan. He shows that national differences in the organization of medical practice and the interplay of organized medicine, the market, and the state give rise to variations in the type and prevalence of such conflicts and then analyzes the strategies that each nation employs to cope with them. Drawing on the experiences of these three nations, *Conflicts of Interest and the Future of Medicine* demonstrates that we can mitigate these problems with carefully planned reform and regulation.
