Assessment and Management of Environmental Risks: Cost-Efficient Methods and Applications Igor Linkov,José Palma-Oliveira,2001-10-31 The

management of environmental contamination requires decision makers to weigh existing risks against the potential effects of implementing environmental policies considering both the benefits and disruptions that may result from different courses of action. The present book represents a major advance in the development and application of cost efficient methods of risk assessment especially under circumstances of budget constraints and in developing countries. The book explores the potential of risk assessment to act as a unified and unifying technique for addressing a wide range of environmental problems. A wide range of issues are discussed ranging from specific and local studies through global decision and management frameworks. The approaches developed range from specific methods through widely applied public policies. The book shows that the use of risk assessment can provide the scientific basis for environmentally sound cost effective policies strategies and solutions to our environmental challenges.

Handbook of Environmental Risk Assessment and Management Peter P.

Calow, 2009-07-08 At the heart of environmental protection is risk assessment. The likelihood of pollution from accidents, the likelihood of problems from normal and abnormal operation of industrial processes, the likely impacts associated with new synthetic chemicals and so on. Currently risk assessment has been very much in the news, the risks from BSE and E coli and the public perception of risks from nuclear waste etc. This new publication explains how scientific methodologies are used to assess risk from human activities and the resultant effects on people and the environment. Understanding such risks supplies crucial information to frame legislation, manage major habitats, businesses and industries and create development programmes. Unique in combining the science of risk assessment with the development of management strategies. Covers science and social science, politics, economics, psychology aspects. Very timely. Risk assessment lies at the heart of decision making in various topical environmental questions: BSE, Brent Spar, nuclear waste.
