Development Assistance and Economic Development in the Caribbean Region Caribbean, 2002 **Reclaiming Development** Kari Levitt, 2005 For over 20 years the developing world has been adjusting to the agendas of the International Monetary Fund and the World Bank In the 1990s Structural Adjustment Programmes were repackaged and marketed as the coming of the golden age of globalisation promising benefits to countries that adopt neo liberal policies Whether by convention or apparent absence of viable alternatives Caribbean governments have been quick to implement policies of deregulation liberalisation and privatisation In this they have been supported by their intellectuals who have been equally quick in embracing globalisation and too ready to concede the end of national sovereignty Kari Levitt argues that it is time to reclaim the right to development and the right of nations to engage in the international economy on their own terms She advocates an international rule based order which permits space for member countries to follow divergent paths to development according to their own philosophies institutions cultures and societal priorities This book represents a historic sweep of Caribbean thought and personalities over the past 30 years drawn against the background of the changes in the international political economy Whether in her collaboration with Lloyd Best on the Plantation Economy Model her analyses

of Debt and Adjustment or her insistence on the right of sovereign nations to pursue their own development path Kari Levitt remains consistent in her conviction that development whether of individuals or nations must be rooted in time and place and cannot be imposed by external prescription **Problems of Economic Development in the Caribbean** David
