The Economic Effects of Soviet Dissolution Michael J. Bradshaw,1993 Ekistic Index ,1970 *Economic Consequences of Soviet Disintegration* John Williamson,1993 Proceedings of a conference in Vienna in April 1992 cohosted by the Institute and the Austrian National Bank in association with the Russian League of Industrialists and Entrepreneurs

Potential Economic Effects of Granting Most-favored-nation Treatment to the Soviet Union George D. Holliday,1985 **New Times** ,1962 **Monthly Index of Russian Accessions** ,1960 The Economic Effects of Soviet Dissolution Michael J. Bradshaw (géographe).),1993 Was Stalin Really Necessary? Alec Nove,2014-07-11 First published in 1964 Was Stalin Really Necessary is a thought provoking work which deals with many aspects of the Soviet political economy planning problems and statistics Professor Nove starts with an attempt to evaluate the rationality of Stalinism and discusses the possible political consequences of the search for greater economic efficiency which is followed by a controversial discussion of Kremlinology The author goes on to analyse the situation of the peasants as reflected in literary journals then looks at industrial and agricultural problems There are elaborate statistical surveys of occupational patterns and the purchasing power of wages followed by an examination of the irrational statistical reflection of irrational economic decisions Professor Nove s essay on social welfare was unlike some of his other work used in the Soviet press as evidence against over enthusiastic cold warriors among whom the author was not always popular Finally the author seeks to generalise about the evolution of world communism

The Soviet Economic System Alec Nove,1980 **Soviet and Post-Soviet Economic Structure and Performance** Paul R. Gregory,Robert C. Stuart,1994 This text has been updated to focus on the radical changes which the former Soviet Union has recently experienced its reorganization and its transition from a planned to market economy examining the history of the Soviet Union more succinctly than in previous editions **The Soviet Economy** Alec Nove,1961 Soviet Economic Development and American Business Saul G Bron,2012-05-01 **The Destruction of the Soviet Economic System** Michael Ellman,Vladimir Kontorovich,1998 Weaves together the analyses of a number of top Soviet officials and economic and other policy advisors to provide a chronological account of the collapse of the Soviet economic and social system Among the topics covered are economic performance in the 1980s the standard of living the reliability of Soviet statistics Gosplan s economic projections for the year 2000 the arms race as a drain on the civilian economy the roles of ideology and the party in the functioning of the economic system the struggle over a transition program the influence of foreign advisers and the collapse of the supply system the CMEA and the foreign trade system Annotation copyrighted by Book News Inc Portland OR **Faulty Foundations** Holland Hunter,Janusz M. Szyrmer,2014-07-14 Could the USSR have been prepared for World War II more humanely and efficiently In this first integrated evaluation of Stalin s economic goals and actions Holland Hunter and Janusz Szyrmer reconstruct and test Soviet results annually and by sector Addressing historians political scientists and economists the authors build a new internally

consistent twelve sector annual record of output and capital growth assembling and reconciling Western reconstructions of Soviet data to assess Soviet policy and test how alternative policies might have worked They point out lessons from the 1930s that can be applied today The authors analyze the basic steps marking the prewar Soviet drive agricultural collectivization head long investment in heavy industry autarkic foreign trade and rearmament They conclude that the economy's growth potential was misused that collectivization was a mistake and that with a slower drive to build heavy industry living standards could have been higher throughout the 1930s while the ability to withstand invasion would have been stronger A related implication for the 1990s is that correct prices small scale production and individual initiative are key requirements for an effective Soviet economy Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Soviet Economy Alec Nove, Soviet Economic Collapse Gideon Fairchild, AI, 2025-02-27 Soviet Economic Collapse examines the economic factors leading to the USSR's unexpected downfall It argues that the Soviet Union's centrally planned economy while initially successful in industrializing and achieving military parity ultimately failed due to its structural inability to adapt incentivize innovation and efficiently allocate resources One critical insight is that the chronic misallocation of resources led to widespread shortages and surpluses Another is the crippling effect of excessive military spending which diverted resources from civilian production and technological advancement The book explores the Soviet economic system's historical context tracing its roots from the Russian Revolution through periods of rapid industrialization and Cold War competition It then meticulously examines the inherent inefficiencies of central planning the burden of military spending and the failure of Gorbachev's perestroika reforms Ultimately the book assesses the long term consequences of the Soviet collapse on former Soviet republics and the global balance of power It offers a balanced perspective by acknowledging the achievements alongside the fatal flaws making complex economic concepts accessible to a broad audience interested in economic history and the challenges of authoritarian regimes
