A. Cook, Michael Cook, 1970 First Published in 2004 Routledge is an imprint of Taylor Francis an informa company **A Political Economy Of The Middle East** Alan Richards, John Waterbury, 1990-05-17 Economic Development in the Middle East Rodney Wilson, 2013 By examining economic development in the Middle East in the aftermath of the Arab Spring this textbook introduces undergraduate and postgraduate students to the most pressing and topical economic issues in the contemporary Middle East With comprehensive coverage of the entire region the author examines the economic prospects for the Gulf and charts the growth of economic power in the region Organised thematically a full range of topics are discussed including the role of banks and capital markets in the region s development the impact of demographic changes such as the dramatic decline in birth rates and the implications for future employment the development of economic advances in oil and gas production the effects of the region s economic development on international and inter regional trade Through discussing the region s problems of the past as well as the present and future challenges this book provides students with a compact and manageable review of the state of economic development in the Middle East *Challenges Of Economic Development In The Middle East And North Africa Region* Julia C Devlin, 2010-01-20 This book surveys major economic issues in the development of countries in the Middle East and North Africa MENA region since World War II It presents a framework of analysis highlighting underlying continuities in the region s approach to issues of growth management of oil and natural resources post conflict environments progress in trade liberalization and regional integration the use of industrial policy labor market adjustment and unemployment educational attainment and poverty incidence At the same time this book focuses on emerging differences across countries in the region in the prevailing approach to addressing such challenges most notably between the economies of the Gulf Cooperation Council and other MENA countries This book

also incorporates a discussion of tools and methods used by development practitioners and briefly examines issues of aid effectiveness The approach used is intended to appeal to a wide audience including students of economic development political scientists and development practitioners **The Economic Development of the Middle East** Alfred Bonne,1945

Economic and Political Change in the Middle East (RLE Economy of Middle East) Elias H. Tuma,2014-10-30 In the early 1960s the Middle East suffered from political instability inefficiency of government widespread poverty and inequality low productivity and a mounting population pressure on the region s resources With the exception of some of the oil exporting countries the entire region still suffers from these same burdens There have been many studies in the economic development and industrialization of the region in recent years This study is different motivated by scepticism and a sense of intellectual frustration and apprehension because of the apparent inadequacy of socioeconomic and political development in the Middle East First published in 1987 *Economic Development in the Middle East* ,1995 *Final Report* United Nations Economic Survey Mission for the Middle East,1949 **Economic Development and Population Growth in the Middle East** Charles A. Cooper,Sidney Stuart Alexander,1971 Monograph comprising nine essays on economic development and population problems in the Middle East includes information on Egypt Lebanon Jordan Iraq Syrian Arab Republic Saudi Arabia Kuwait and the Gulf States in respect of economic growth the balance of payments trade prices economic policies population growth fertility patterns modernization etc Bibliographys graphs map references and statistical tables

Introduction to the Modern Economic History of the Middle East Zvi Yehuda Hershlag,1980 *Economic Development in the Middle East and North Africa* Mohamed Sami Ben Ali,2016-01-26 Using cases on individual countries Economic Development in the Middle East and North Africa offers diverse theoretical and empirical evidence on a variety of issues facing policymakers investors and other stakeholders in the region **The Economic Development of the Middle East;** Alfred 1899-1959 Bonne,2021-09-09 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public To ensure a quality reading experience this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy to read typeface We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant *An Economic History of the Middle East and North Africa* Charles Issawi,2013-10-16 The economic history of the Middle East and North Africa is quite extraordinary This is an axiomatic statement but the very nature of the economic changes that have stemmed directly from the effects of oil resources in these areas has tended to obscure longterm patterns of economic change and the fundamental transformation of Middle Eastern and North African

economies and societies over the past two hundred years In this study Professor Issawi examines and explains the development of these economies since 1800 focusing particularly on the challenge posed by the use and subsequent decline of Western economic and political domination and the Middle Eastern response to it The book begins with an analysis of the effects of foreign intervention in the area the expansion of trade the development of transport networks the influx of foreign capital and resulting integration into international commercial and financial networks It goes on to examine the local response to these external forces migration within to and from the region population growth urbanization and changes in living standards shifts in agricultural production and land tenure and the development of an industrial sector Professor Issawi discusses the crucial effects of the growth of oil and oil related industries in a separate chapter and finally assesses the likely gains and losses in this long period for both the countries in the area and the Western powers He has drawn on long experience and an immense amount of material in surveying the period and provides a clear and penetrating survey of an extraordinarily complex area

Economic Development in the Middle East Rodney Wilson, 2002-03-11 Despite its oil resources the Middle East is falling behind other regions of the developing world notably the countries of East and South East Asia Rodney Wilson examines the economic prospects for the region considering the consequences of rapid population growth including the implications for education and employment low savings levels the absence of significant inflows of private capital and foreign investment fragmentation of the banking system the basic economic infrastructure and the problems caused by excessive military expenditure falling oil prices budget deficits The author examines alternative economic directions for the region arguing that both the methods and goals of development have to be reassessed in a region where Islam prevails

The Economic Development of the United Arab Emirates (RLE Economy of Middle East) Ragaei el Mallakh, 2014-10-30 Since the early 1970s the oil producing countries of the Gulf have become a focus of intense interest worldwide Most of this interest has centred on the oil giants Saudi Arabia Iran even Iraq and Kuwait Yet the United Arab Emirates is also among the largest producers on a par with Kuwait Nigeria and Libya with reserves greater than the USA Given its high economic growth rate the UAE is an excellent laboratory in which to test and evaluate policies and programmes to effect rapid economic development The international stature of the UAE far exceeds what its physical size population and breadth of resources would seem to indicate As a member of OPEC the UAE has played a vital role within that body's price moderates With one of the world's highest per capita incomes and with ambitious development efforts underway the UAE not surprisingly has become a major market for capital and consumer goods involving substantial foreign services banking business and industry Based on more than a decade of study on site research and interviews with key figures this book which mixes the practical with the academic approach will prove of great value to Middle Eastern and development specialists students and to the international business and financial communities First published in 1981

Economic Development in Saudi Arabia Ahmed Al Rajhi, Abdullah Al Salamah, Monica Malik, Rodney Wilson, 2012-10-12

The changing political situation in the Middle East poses challenges for the economies of the region and some see none more vulnerable to collapse than Saudi Arabia's. Yet as this study demonstrates the fundamentals of the Kingdom's economy are relatively robust as over three quarters of GDP is accounted for by the non oil sector and impressive modern industries have been established notably in petrochemicals. The financial system functions well and despite substantial government debts there is low inflation and currency stability. The private sector increasingly drives the economy although job creation has been insufficient to prevent rising youth unemployment. The development challenges Saudi Arabia faces are similar to those of other middle income countries and three decades of diversification have made the economy less unique than it was in the oil boom years of the 1970s.

The Determinants of Arab Economic Development Yusuf Sayigh, 2014-10-30. This book explores in depth the factors determining economic development in the Arab region. The particular factors relevant to the Arab world are also set within the context of the broad political economy of underdevelopment. The factors are identified as comprising three main groups: economic, political, administrative and socio-cultural. Petroleum and regional Arab economic development are examined separately. The force and operation of each determinant is further assessed in the context of the individual countries from which the author is able to arrive at some important conclusions concerning the interaction of these determinants and their impact upon development. First published in 1978.

Final Report Nations Unies. Economic Survey Mission for the Middle East, Nations Unies. Commission de conciliation pour la Palestine, 1949.
