**Exploring Social Sustainability and Economic Practices** MDPI, 2020-04-21 Given the three pillars of sustainability besides the environment the interplay of social and economic dimensions provides valuable insight into how society is molded and the key components that should be considered. In terms of social sustainability processes and framework objectives promote the wellbeing that is integral to the balance of people planet and profit. Economic practices consider the system of production resource allocation and distribution of goods and services with respect to demand and supply between economic agents. As a result an economic system is a variant of the social system in which it exists. At present the forefront of social sustainability research partially encompasses the impact of economic practices on people and society with notable emphasis centered on the urban environment. Specific interdisciplinary analyses within the scope of sustainability social development competitiveness and motivational management as well as decision making within the urban landscape are considered. This book contains nine thoroughly refereed contributions that interconnect detailed research into the two pillars reviewed.

Retail Depositor and Retail Investor Protection under EU Law Constantinos Tokatlides, 2017-02-10 Retail Depositor and Retail Investor Protection under EU Law offers an original perspective on EU financial law in the area of retail investor protection examining the status of protection awarded by EU law to retail depositors and retail investors in the event of financial institution failure. The analysis of relevant EU law is on the basis of effectiveness and has been elaborated in two levels of comparison. The first comparative approach examines relevant EU law both externally and internally externally vis vis relevant international initiatives and developments in the area of financial law as the latter affect the features and evolution of EU law and internally by examining relevant instruments of EU law with regard to each other as to their normative structure and content. The second comparative approach also examines the status of retail depositors in relation to that of retail investors under EU law in the event of financial institution failure and the relevant legal consequences thereof.
