Economic Organization in Chinese Society Lawrence W. Crissman, 1978 *Economic Organization in Chinese Society*.
Ed. by W.E. Willmott W. E. Willmott, 1972 **Overseas Chinese Christian Entrepreneurs in Modern China** Joy
Kooi-Chin Tong, 2013-10-01 Inspired by Max Weber's thesis on the Protestant ethic *Overseas Chinese Christian
Entrepreneurs in Modern China* sets out to understand the role and influence of Christianity on Overseas Chinese
businesspeople working in contemporary China Through its in depth interviews and participant observations involving 60
Overseas Chinese entrepreneurs from Hong Kong Taiwan Southeast Asia and the United States the text discusses how
Christianity has come to fulfill an increasingly visible and dynamic function in the country most notably as a new source of
business morality **Chinese Business** Chee-Kiong Tong, 2014-05-06 The nature institutional foundations and issues
surrounding the apparent success of Chinese business networks is examined in this book Major concepts such as guanxi
xinyong and gangqing exploring the nature of trust relationships and sentiments in Chinese business networks are re
examined A significant amount of literature has been devoted to the study of Chinese business and it largely falls into two
broad schools the culturalist approach arguing for an essentialist formulation to explain success and the market approach
suggesting that there is nothing inherently unique about Chinese business This book critiques both these approaches and
argues based on primary data collected in various countries and with case studies of a large number of Chinese businesses
that another approach the institutional embedded approach provides a better explanation for the success and failure of
Chinese business and Chinese business networks *Knowledge Production in Mao-Era China* Rui Kunze, Marc Andre
Matten, 2021-10-15 This book traces and analyzes the transformation of the public discourse of science and technology in
Mao era China Based on extensive primary sources such as science dissemination materials and technical handbooks as well
as mass media products of the Great Leap Forward and the Cultural Revolution periods this book delineates the emergence
of a pragmatic approach to knowledge in society To achieve the goal of fast modernization with limited financial human and
material resources the party state accommodated Western and local modern and traditional knowledges in the fields of
agricultural mechanization steel production and Chinese veterinary medicine The case studies demonstrate that scientific
knowledge production in the Mao era included various social groups and was entangled with political and cultural issues This
reveals and explains the continuity of scientific thinking across the historical divides of 1949 and 1978 which has hitherto
been underestimated *Perspectives on Modern China* Kenneth Lieberthal, 1991 The conveners the editors of this book of
the September 1989 Four Anniversaries China Conference in Annapolis asked the contributors to look back from that point in
time to consider four major events in modern Chinese history in the perspective of the rapid changes that were shaping the
Chinese society economy polity and sense of place in the world in the 1980s a time when China was making rapid strides
toward becoming more integrated with the outside world With contributions by distinguished scholars in the field the four

anniversaries considered are the High Qing the May Fourth Movement forty years of communism in China and ten years of the Deng era *The Individualization of Chinese Society* Yunxiang Yan, 2020-08-19 Chinese society has seen phenomenal change in the last 30 years Two of the most profound changes have been the rise of the individual in both public and private spheres and the consequent individualization of Chinese society itself Yet despite China's recent dramatic entrance into global politics and economics neither of these significant shifts has been fully analysed China may indeed present an alternative model of social transformation in the age of globalisation so its path to development may have particular implications for the developing world The Individualization of Chinese Society reveals how individual agency has been on the rise since the 1970s and how this has impacted on everyday life and Chinese society more broadly The book presents a wide range of detailed case studies on the impact of economic policy patterns of kinship changes in marriage relations and the socio economic position of women the development of youth culture the politics of consumerism and shifting power relations in everyday life Science and Civilisation in China, Part 9, Textile Technology: Spinning and Reeling Joseph Needham, Dieter Kuhn, 1988-06-09 This study the first of two parts gives a comprehensive account of Chinese textiles and textile technology and deals with the evolution of bast fibre spinning and silk reeling in the history of China These operations are the basic techniques in the production of yarn and thread pre requisite to weaving and any study of Chinese textile technology must start with the raw material obtained from fibre plants such as hemp ramie jute cotton etc and silk reeled off from cocoons of the domestic silkworm The time span covered runs from the neolithic to the nineteenth century Archaeological and pictorial evidence the bulk of it hitherto unpublished in the West is brought together with Chinese textual sources which are extensively translated and interpreted to illustrate Chinese achievements in this field Professor Kuhn's study reveals the way in which Chinese textile technological inventiveness has influenced textile production in other regions of the world and in medieval Europe It explains how textile technology reached its high point between the tenth and thirteenth centuries and attempts to indicate the reasons for its subsequent relative decline The development of the textile industry in Europe was a key factor in the rise of capitalism In the case of China after Sung times textile technology and the organisation of textile labour may help indicate why such a development did not take place in China **Merchants, Mandarins, and Modern Enterprise in Late Ch'ing China** Wellington K. K. Chan, 2020-03-17 An in depth study of the relationships among merchants the state and commerce and industry in Late Ching China including capital finance investments corporate law and government policy *The Four Little Dragons* Ezra F. Vogel, 1991 Vogel brings masterly insight to the underlying question of why Japan and the little dragons Taiwan South Korea Hong Kong and Singapore have been so extraordinarily successful in industrializing while other developing countries have not The Chinese Communist Party In Power, 1949-1976 Jacques Guillermaz, 2019-07-16 This book traces the history of the Chinese Communist Party's behavior toward itself and the way it has created and developed the regime on the state of affairs at home and abroad and on

a compelling ideology dominated by the giant like personality of Mao Tse tung
