Catalog of Copyright Entries, Third Series Library of Congress. Copyright Office, 1948      Beyond Party Mark  
Voss-Hubbard, 2003-05-22 Captivating disgruntled voters third parties have often complicated the American political scene In the years before the Civil War third party politics took the form of the Know Nothings who mistrusted established parties and gave voice to anti government sentiment Originating about 1850 as a nativist fraternal order the Know Nothing movement soon spread throughout the industrial North In Beyond Party Mark Voss Hubbard draws on local sources in three different states where the movement was especially strong to uncover its social roots and establish its relationship to actual public policy issues Focusing on the 1852 ten hour movement in Essex County Massachusetts the pro temperance and anti Catholic agitation in and around Dauphin County Pennsylvania and the movement to restrict immigrants voting rights and overthrow corrupt parties and politicians in New London County Connecticut he shows that these places shared many of the social problems that occurred throughout the North the consolidation of capitalist agriculture and industry the arrival of Irish and German Catholic immigrants and the changing fortunes of many established political leaders Voss Hubbard applies the insights of social history and social movement theory to politics in arguing that we need to understand Know Nothing rhetoric and activism as part of a wider tradition of American suspicion of politics as usual even though of course this antipartyism served agendas that included those of self interested figures seeking to accumulate power      Florence Kelley and the Nation's Work Kathryn Kish Sklar, 1995-01-01 One of America's foremost historians of women tells the story of Florence Kelley a leading reformer in the Progressive Era The book is also a political history of the United States during a period of transforming change when women worked to end the abuses of unregulated industrial capitalism This first of a two volume series covers the first 40 years of Florence Kelley's life 53 illustrations      **On Hallowed Ground** John P. Diggins, 2000-01-01 Contests the validity of Marxist and poststructuralist theory in a review of the life and legacy of Abraham Lincoln      **Routledge Handbook of Latin American Politics** Peter Kingstone, Deborah J. Yashar, 2013-03-05 Latin America has been one of the critical areas in the study of comparative politics The region's experiments with installing and deepening democracy and promoting alternative modes of economic development have generated intriguing and enduring empirical puzzles In turn Latin America's challenges continue to spawn original and vital work on central questions in comparative politics about the origins of democracy about the relationship between state and society about the nature of citizenship about the balance between state and market The richness and diversity of the study of Latin American politics makes it hard to stay abreast of the developments in the many sub literatures of the field The Routledge Handbook of Latin American Politics offers an intellectually rigorous overview of the state of the field and a thoughtful guide to the direction of future scholarship Kingstone and Yashar bring together the leading figures in the study of Latin America to present extensive empirical coverage new original research and a cutting edge examination of the central areas of inquiry in the region

With entries from leading international scholars from around the world this eight volume encyclopedia offers the widest possible coverage of key areas both regionally and globally The International Encyclopedia of Political Science provides a definitive comprehensive picture of all aspects of political life recognizing the theoretical and cultural pluralism of our approaches and including findings from the far corners of the world The eight volumes cover every field of politics from political theory and methodology to political sociology comparative politics public policies and international relations Entries are arranged in alphabetical order and a list of entries by subject area appears in the front of each volume for ease of use The encyclopedia contains a detailed index as well as extensive bibliographical references Filling the need for an exhaustive overview of the empirical findings and reflections on politics this reference resource is suited for undergraduate or graduate students who wish to be informed effectively and quickly on their field of study for scholars seeking information on relevant research findings in their area of specialization or in related fields and for lay readers who may lack a formal background in political science but have an interest in the field nonetheless The International Encyclopedia of Political Science provides an essential authoritative guide to the state of political science at the start of the 21st century and for decades to come making it an invaluable resource for a global readership including researchers students citizens and policy makers The encyclopedia was developed in partnership with the International Political Science Association Key Themes Case and Area Studies Comparative Politics Theory and Methods Democracy and Democratization Economics Epistemological Foundations Equality and Inequality Gender and Race Ethnicity International Relations Local Government Peace War and Conflict Resolution People and Organizations Political Economy Political Parties Political Sociology Public Policy and Administration Qualitative Methods Quantitative Methods Religion     **Encyclopedia of the American Legislative System** ,1994     **American Sociological Review** ,1936 Includes sections Book reviews and Periodical literature     **A Comparative Introduction to Political Science** Alan G. Smith,2016-04-08 When are legislators inclined to cast votes in cooperation with their parties and when do they go their own way When and why do nations contend with each other and when are they more likely to cooperate Thematically arranged around the interplay of contention and cooperation A Comparative Introduction to Political Science encourages students to explore causal factors and consequences related to political phenomena to become knowledgeable and resourceful citizens of their nations and the world Alan Smith covers how patterns of contention and cooperation and the resulting government policies may be affected by such factors as the surrounding political framework the distribution of influence and political motivation including values as well as material interests To expose students to the politics of specific nations each chapter concludes with two country case studies that illuminate the theme of the chapter Students emerge with a sense of what is going on in the world today Pedagogically the book employs careful sequencing of

topics and concepts for clarity and to introduce politics in a natural logical synchronized way At times Smith goes beyond sharp night and day terminological distinctions to add accessible ordinary language based terminology that better captures the real world spectrum between the extremes A Comparative Introduction to Political Science Contention and Cooperation provides a comprehensive teaching and learning package including these ancillaries Test Bank Available for adopters to download the Test Bank provides multiple choice true false and essay questions for each chapter Testing Software This customizable test bank is available as a Word file or in Respondus 4.0 a powerful tool for creating and managing exams that can be printed out or published directly to the most popular learning management systems Exams can be created offline or moved from one LMS to another Respondus LE is available for free and can be used to automate the process of creating printed tests Respondus 3.5 available for purchase or via a school site license prepares tests to be uploaded to an LMS Click here <http://www.respondus.com/products/testbank/search.php> to submit your request Companion Website The open access Companion Website is designed to engage students with the material and reinforce what they've learned in the classroom For each chapter flash cards and self quizzes help students master the content and apply that knowledge to real life situations Students can access the Companion Website from their computers tablets or mobile devices eBook The full color eBook allows students to access this textbook anytime anywhere The eBook includes the entire print edition rendered in vibrant color and features direct links to the Companion Website PowerPoint Slides For every chapter art slides of all figures and tables are available for adopters to download

*Economists and War* Fabrizio Bientinesi, Rosario Patalano, 2016-11-03 War and economic power have been interwoven in the thought of scholars since the beginnings of economic science and views on the role of war in the economy have shifted dramatically as the world order has changed The centenary of World War I has offered the opportunity for increased reflection on this topic particularly as the war itself stimulated new directions for both research and the development of theory *Economists and War* brings together expert contributors who are united in their commitment to exploring this classic subject from innovative and heterodox points of view The chapters presented in the book delve into a wide range of perspectives from Japan in the Second World War and Italy in the First the debate on State intervention among German speaking authors to the debate on the economic bases of perpetual peace and from Keynes who wrote on the irrationality of war to Sismondi who saw war as an opportunity for economic development and not only for nation states This volume is essential reading for scholars of the history of economic thought international political economy and intellectual history It is also of great interest to those studying military and naval history

**Congressional Record** United States. Congress, 1996

*Popper's Legacy* Raphael Sassower, 2014-12-05 The work of Karl Popper has had extraordinary influence across the fields of scientific and social thought Widely regarded as one of the greatest philosophers

of science of the twentieth century he was also a highly influential social and political philosopher a proponent and defender of the open society Popper's Legacy examines Popper in the round analysing in particular his moral and psychological insights Once Popper's scientific legacy is couched in political and moral terms it becomes apparent that his concern for individual autonomy does not come at the expense of institutional guidelines and social conventions Instead these guidelines turn out to be essential sanctions for individual freedom Popper envisions the conduct of the scientific community as paralleling the conduct of any democratically established community Critical rationality guides the words and actions of all participants and leadership can be replaced without violence In presenting a critical overview Popper's Legacy reveals the debt many intellectual movements such as Marxism feminism and postmodernism still owe to Popper

**Fabian Essays in Socialist Thought** Ben Pimlott, 1984 *Jacksonian Democracy: Myth Or Reality?* James L. Bugg, 1962 The strength of a little girl's love enables her to overcome many obstacles and free a boy from the Snow Queen's spell *Thinking Beyond Neoliberalism* Neal Harris, Onur Acaroğlu, 2021-12-11 This book brings together leading academics and activists to address the possibilities for qualitative social change beyond neoliberalism providing introductory essays on alternative societies transition and resistance Bringing together discussions on universal basic income actually existing communism parecon circular economies workers co-operatives fully automated luxury communism trade unionism and party politics the volume provides one of the first scholarly interventions to systematically evaluate possibilities for transition and resistance across theoretical political and disciplinary traditions

**A Triumph of Failed Ideas** Steffen Lehndorff, 2012 The current crisis in Europe is being labelled in mainstream media and politics as a public debt crisis The present book draws a markedly different picture What is happening now is rooted in a variety of different ways in the destabilisation of national models of capitalism due to the predominance of neoliberalism since the demise of the post war golden age Ten country analyses provide insights into national ways of coping or failing to cope with the ongoing crisis They reveal the extent to which the respective socio economic development models are unsustainable either for the country in question or for other countries The bottom line of the book is twofold First there will be no European reform agenda at all unless each country does its own homework Second and equally urgent is a new European reform agenda without which alternative approaches in individual countries will inevitably be suffocated This message delivered by the country chapters is underscored by more general chapters on the prospects of trade union policy in Europe and on current austerity policies and how they interact with the new approaches to economic governance at the EU level These insights are aimed at providing a better understanding across borders at a time when European rhetoric is being used as a smokescreen for national egoism

*Shaping Immigration News* Rodney Benson, 2013-08-19 This book offers a comprehensive portrait of French and American journalists in action as they grapple with how to report and comment on one of the most important issues of our era Drawing on interviews with leading journalists and analyses of an extensive sample of newspaper and television coverage since the early 1970s Rodney Benson

shows how the immigration debate has become increasingly focused on the dramatic emotion laden frames of humanitarianism and public order In both countries less commercialized media tend to offer the most in depth multi perspective and critical news Benson challenges classic liberalism s assumptions about state intervention s chilling effects on the press suggests costs as well as benefits to the current vogue in personalized narrative news and calls attention to journalistic practices that can help empower civil society This book offers new theories and methods for sociologists and media scholars and fresh insights for journalists policy makers and concerned citizens
