**Egypt and the Politics of Change in the Arab Middle East** Robert Bowker, 2010-01-01 The situation unfolding in Egypt and elsewhere in the Arab Middle East has important implications for the future of the Arab political order. For the first time a secular but inclusive political alternative to Islamism has emerged. It has captured the political imagination of the emerging Arab middle class. It will shape the regional security environment. Its consequences are unpredictable but the greatest risk to the region is the marginalization and alienation of a movement that has raised and galvanized its political horizons. Robert Bowker In his book *Egypt and the Politics of Change in the Arab Middle East* Professor Robert Bowker argues that if regimes fail to address effectively the demands for empowerment of its educated youth they face the prospect of a tsunami like current of instability and regression. Ambassador Bowker's new book achieves the challenging objective of making a contribution to scholarship on Egypt and the Arab world while being accessible to a general audience. He addresses the key drivers of change such as globalization and Islamicization and the entrenched attitudes, behavior and institutions they confront. Drawing upon an impressive array of empirical information, case studies and first hand observations, he both illustrates and assesses the contending forces and the likely outcomes of their confrontations. Robert Springborg, Naval Postgraduate School, Monterey, US. This book is certain to be a valued and respected addition to the literature on the eve of a potentially transformational moment in Egyptian history and thus possibly for the Arab world as well. Jerrold D. Green, Pacific Council on International Policy, Los Angeles, US. In this illuminating and informed book, Robert Bowker tackles the prospects for change in the contemporary Arab world. He persuasively argues that while long term demographic, educational and social transformations pose formidable challenges for the future, the important issues of political reform, Islamism and regional security are contestable. The message that this book so engagingly conveys is that change is both inevitable and not necessarily to be feared. It is a refreshingly constructive and timely reminder for all who would see the new Middle East as destined to be volatile and precarious. James Piscatori, Durham University, UK. Dr Bowker's study provides the best encapsulation and explanation of changes in the Arab world's social and economic landscape in an

age of faster and deeper interdependence Measured and sober in its analysis and challenging in its conclusions it should be read by all those who want to have a better understanding of the Middle East in general and Egypt in particular Amin Saikal The Australian National University Egypt and the Politics of Change in the Arab Middle East is a forward looking analysis of the relationship between economic and political reform in Egypt and of the evolving nature of Arab society and political culture both in Egypt and elsewhere Writing from the perspective of a recently retired ambassador with extensive Arab regional experience Robert Bowker discusses the potential impact of systemic resistance to pressures for greater transparency accountability and political reform amid ongoing demographic educational and generational changes His analysis encompasses the military and security services the influence of the shadow state and the impact of social surveillance coercion and corruption Looking ahead he discusses emerging business models returning Arab expatriates the gradual empowerment of women and the impact of Islam He considers the political sustainability of economic reform including the challenges facing marginalized groups His analysis concludes by reviewing the regional security and political context of reform the importance of political leadership over the coming decade and the role of external parties Compelling insightful and thought provoking the book provid The Demographic Revolution in Modern Egypt Warren C.

Robinson, Fatma H. El-Zanaty, 2006-01-01 The Demographic Revolution in Modern Egypt tells the dramatic story of Egypt's transition in the last two decades from staggeringly high to low fertility and mortality rates Scholars Warren C Robinson and Fatma H El Zanaty especially delve into the reasons for the decline in fertility including the relative success of Egypt's recent public initiatives in family planning Robinson and El Zanaty compellingly show the importance of continued demographic stability in Egypt for that nation the Middle East and indeed the world The authors point to Egypt's optimistic progress as a model for other countries facing out of control birthrates wreaking havoc with economic and social development
