Economic Survey of Europe in ... ,1984      *Economic survey of Europe in 1983* Naciones Unidas,1984      **Economic Survey of Europe in 1985-1986** United Nations: Economic Commission for Europe,1986      *Economic Survey of Europe in 1983* ,1984      *Economic Survey of Europe in 1983/Sales No E.84.II.E.1* United Nations Economic Commission for Europe,1984-09-01      The Future of the Soviet Economic Planning System (Routledge Revivals) David A. Dyker,2013-09-27

On its publication in 1985 this book offered a fresh analysis of the problems faced by the Soviet economy by focussing on the key issues in the economic planning system David Dyker considers the available options for reform during the 1980s and the most likely developments Discussing the origins of the Soviet economic planning system and the theories which founded it previous attempts to reform the organisational structure and the particular problem of agriculture Dyker presents a picture of an increasingly bleak future for the Soviet economy This is a comprehensive title written by a renowned expert on the Soviet economy which will be of particular value to students and academics researching the political and economic development and history of the Soviet Union      *The European Economy 1914-2000* Derek Aldcroft,2002-01-10 As in earlier editions of this work Professor Aldcroft presents a succinct and lucid account of the development and problems of the European economy throughout the twentieth century The text divides into several clearly defined sub periods the aftermath of the First World War and reconstruction in the 1920s the depression and recovery of the 1930s the impact of the Second World War and the new division of Europe the postwar boom of the 1950s and 1960s the growth slowdown of the 1970s and the pervasive problems of inflation and unemployment      *Restructuring the Soviet Economy* David A. Dyker,2002-01-31

Restructuring the Soviet Economy examines the Soviet leadership s most urgent question how to revitalize the soviet economy David Dyker argues that the current impasse can only be understood in the context of the failure of 60 years of central planning He analyses both the problems besetting the centrally planned system and those that have paralysed perestroika and assesses whether the most ambitious attempt ever to reform the Soviet economy will succeed      **Economic Survey of Europe, 1983** International Publications Service,1987-01-01      The European Economy Since 1914 Derek Howard Aldcroft,Steven Morewood,2013 The European Economy Since 1914 provides an invaluable guide to the major economic changes in both Western and Eastern Europe during the twentieth century      *The European Energy Challenge* George Walter Hoffman,Leslie Dienes,1985 By examining all of Europe in a single study an eminent geographer and expert on European development makes in this volume a unique contribution to the understanding of the changing energy relations of the European countries east and west The book examines the problem of establishing a reliable energy supply base in western Europe through structural changes and alternate and substitute energy sources The volume also evaluates western European security problems arising from present and future reliance on Soviet energy and relates this to North Sea supplies of gas and oil indigenous and import supplies and nuclear power generation      **UNDOC, Current Index** ,1986

The Bulgarian Economy John R. Lampe, 2024-12-02 First published in 1986 The Bulgarian Economy now with a new preface by the author traces the rapid growth of the Bulgarian economy throughout the twentieth century It also notes the obstacles Bulgaria has faced in bringing about industrial development in a small relatively poor country where in the early twentieth century agriculture predominated It explores the difficulties which have arisen

because of the unusual domination of a relatively isolated capital city Sofia over the rest of the country It examines the effects of Bulgaria s being on the losing side in three wars An abrupt change in economic strategy and management came with the Communist accession to power in 1944 and with the simultaneous reorientation from close ties with Germany to close ties with the Soviet Union The book shows however that significant state control had appeared well before this transition and that there is much in common between the pre and post war periods It goes on to emphasise economic growth and structural change in the post war period and the unusually large role of foreign trade The reforms which have taken place since 1960 are accorded a separate final chapter      **International Political Economy and Socialism** Marie Lavigne, 1991-03-14 This book first published in 1991 is a revised and updated version of Professor Marie Lavigne s best seller *Economie Internationale des Pays Socialistes*
