Economics Management And Optimization In Sports:

Economics, Management and Optimization in Sports Sergiy Butenko,Jaime Gil-Lafuente,Panos M.

Pardalos,2013-06-29 Ever since the first Olympic Games in Ancient Greece sports have become an integral part of human civilization The last decade has been commemorated by the centennial celebration of the modern Olympic movement With great anticipation the Olympics return to Athens Greece and we are once again reminded that we live in one of the most exciting periods in the history of sports Reflecting back on my years of service as the International Olympic Committee president I cannot overlook the remarkable changes that have taken place in the world of sports during these two decades The technological development and consequent globalization of the world economy opened up a window of new opportunities for the sports industry As a result management economics and other sciences have become a significant part of modern sports It is my pleasure to introduce this volume comprising an interesting collection of papers dealing with various aspects of management economics and optimization applied to sports May this book serve as a valuable source of information to researchers and practitioners as well as to casual readers looking for a deeper insight into the magnificent world of sports Optimal Strategies in Sports Economics and Management Sergiy Butenko,Jaime Gil-Lafuente,Panos M.

Pardalos,2010-08-25 During the last century we have witnessed the birth and evolution of sport as an economic activity which has created jobs on the one hand but also problems of management on the other This process has not been immune from the particular characteristics associated with sport typically united here more than in other activities technique physical effort entertainment and passion And all this within a framework of ever increasing consumption of financial resources It is not surprising therefore that commonly used economic models based on mechanistic approaches do not provide a viable solution to increasingly complex and increasingly frequent problems Any attempt to apply such an approach in this technical economic and financial context can only result in failure The high degree of subjectivity inherent in sporting activity requires new tools in which remodeled conceptual theoretical and technical elements should play an important role Complexity uncertainty and subjectivity are therefore basic to understand and deal with the phenomenon of sport The necessity of resorting to these elements was identified over a quarter of a century ago by a small group of professors and researchers at the University of Barcelona Together we started the first postgraduate courses and organized seminars to alert sports centre managers as well as to make private and public organizations aware of the increasing importance of a proper specific management for sports organizations **Social Networks and the Economics of Sports** Panos M.
