the face of this earth This wide ranging collection of essays by Camus scholars from around the world demonstrates to what extent topography is omnipresent in Camus s life and works Configurations and contemplations of landscape figure prominently in his fictional works on both a literal and figurative level from the earliest writings of his youth to his final unfinished novel *Le Premier Homme* Furthermore as a core component of the way in which Camus perceived conceived and expressed the human condition topography constitutes an over arching and particularly profound dimension of his personal public and philosophical thought Australian Journal of French Studies ,2000 Albert Camus in the 21st Century ,2008-01-01 In the first decade of a new century this collection of bilingual essays examines Camus s continuing popularity for a new generation of readers In crucial respects the world Camus knew has changed beyond all recognition decolonization the fall of the Iron Curtain a new era of globalization and the rise of new forms of terrorism have all provoked a reconsideration of Camus s writings If the Absurd once struck a particular chord Meursault is as likely now to be seen as a colonial figure who expresses the alienation of the settler from the land of his birth Yet this increasing orthodoxy must also take account of the reasons why a new community of Algerian readers have embraced Camus Equally once isolated because of his anti Communist stance Camus has been taken up by disaffected members of the Left convinced that new forms of totalitarianism are abroad in the world This volume which ranges from interpretations of Camus s literary works his journalism and his political writings will be of interest to all those seeking to re evaluate Camus s work in the light of ethical and political issues that are of continuing relevance today *Écrivains français engagés : la génération littéraire de 1930* Pierre A.
