**The Renaissance Architecture of Central and Northern Spain** Austin Whittlesey, 1920 **The Spanish Civil War** Anindya Raychaudhuri, 2013-02-15 This book features cutting edge interdisciplinary research on the legacy of the Spanish Civil War by established and new scholars from across the world Reconstructing Spain Dacia Viejó-Rose, 2011 This book explores the role of cultural heritage in post conflict reconstruction whether as a motor for the prolongation of violence or as a resource for building reconciliation The research was driven by two main goals to understand the post conflict reconstruction process and to identify how this process evolves in the medium term and the impact it has on society The Spanish Civil War 1936-39 and its subsequent phases of reconstruction provides the primary material for this exploration In pursuit of the first goal the book centers on the material practices and rhetorical strategies developed around cultural heritage in post civil war Spain and the victorious Franco regime's reconstruction The analysis captures a discursively complex set of practices that made up the reconstruction and in which a variety of Spanish heritage sites were claimed rebuilt or restored and represented as signs of historical narratives political legitimacy and group identity The reconstruction of the town of Gernika is a particularly emblematic instance of destruction and a significant symbol within the Basque regions of Spain as well as internationally By examining Gernika it is possible to identify some of the trends common to the reconstruction as a whole along with those aspects that pertain to its singular symbolic resonance In order to achieve the second goal the book examines the processes of selection value change and exclusionary dynamics of reconstruction Exploring the possible impact of post civil war reconstruction in the medium term is conducted in two time frames the period

of political transition that followed General Franco's death in 1975 and the 2004-2008 period when Rodríguez Zapatero's government undertook initiatives to recover the historic memory of the war and dictatorship. Finally, the observations made of the Spanish reconstruction are analyzed in terms of how they might reveal general trends in post-conflict reconstruction processes in relation to cultural heritage. These insights are pertinent to the situations in Cambodia, Bosnia and Herzegovina, Afghanistan and Iraq.
