**Bodies on the Front Lines** Brenda Werth, Katherine Zien, 2024-04-24 Performances as feminist queer and trans activism from theater and flash mobs to street protests and online manifestos      **Sexual Ethics** Robert Michels, 1914      Writing Terror on the Bodies of Women Sarah England, 2018-08-15 Writing Terror on the Bodies of Women Media Coverage of Violence against Women in Guatemala analyzes the scope and dynamics of violence against women in Guatemala and how it is represented in the print media Using nearly two thousand Guatemalan newspaper reports covering murders and assaults on women this book contextualizes violence against women within the history of violence in Guatemala gender ideologies and patriarchal social structures and the contemporary demands of the women s movement for social and legislative change It shows that while some newspapers cover violence against women with investigative reports and editorials that use feminist analysis and language these are overshadowed by the large number of individual reports that reproduce narratives of terror and conceal the gendered nature of violence against women by suggesting that delinquents gangs unknown men and inexplicably violent husbands are the main culprits while simultaneously upholding dichotomous gendered narratives of good and bad wives and daughters      Resistant Bodies in the Cultural Productions of Transnational Hispanic Caribbean Women Irune del Rio Gabiola, 2016-12-27 Resistant Bodies in the Cultural Productions of Transnational Hispanic Caribbean Women Reimagining Queer Identity examines the art created by several Caribbean women who use literature film graphic novels music testimonios photographs etc to convey social justice democracy and new ways of re imaging marginal identities In using Chela Sandoval s theories on methodologies of the oppressed Irune del Rio Gabiola argues how the tactics Sandoval offers can be productively applied to the cultural productions analyzed The author explores how the protagonists of all the cultural productions this book focuses on developing tactics to create new possibilities and alternatives for self fashioning Particularly del Rio Gabiola reconsiders concepts such as shame failure unbecoming hermeneutics of love or flexible bodies as methodologies of the oppressed that propose decolonizing emancipatory techniques in a transnational arena

**High-Risk Feminism in Colombia** Julia Margaret Zulver, 2022-05-13 High Risk Feminism in Colombia documents the experiences of grassroots women s organizations that united to demand gender justice during and in the aftermath of Colombia s armed conflict In doing so it illustrates a little studied phenomenon women whose experiences with violence catalyze them to mobilize and resist as feminists even in the face of grave danger Despite a well established tradition of studying women in war we tend to focus on their roles as mothers or carers as peacemakers or sometimes as revolutionaries This book explains the gendered underpinnings of why women engage in feminist mobilization even when this takes place in a domain of losses that exposes them to high levels of risk It follows four women s organizations who break with traditional gender norms and defy armed groups social and territorial control exposing them to retributive punishment It provides rich evidence to document how women are able to surmount the barriers to mobilization when they frame their actions in terms

of resistance rather than fear      **East Asia, Latin America, and the Decolonization of Transpacific Studies** Chiara Olivieri, Jordi Serrano-Muñoz, 2022-01-03 In this collective work researchers from different disciplines reflect upon the challenges and opportunities of decolonizing transpacific studies through the lens of a few paradigmatic case studies that deal with connections between East Asia and Latin America The present book offers a productive problematization of the idea of the transpacific as a concept and a space that is not restricted to a single definition We defend that the transpacific can instead promote an understanding of agents and experiences that share many common traits that have been generally overlooked by a hegemonic interpretation of knowledge and the relationship between regions By fostering an environment that not only accepts a plurality of views but that actively looks to accommodate analogous tangential and even contradicting approaches to the study of our ideas we seek a double objective First we hope to highlight precisely the richness within the idea of the transpacific avoiding sticking to any particular conception to it while at the same time acknowledging and owning each of our points of enunciation Our second objective is part of a constant struggle in the quest towards social and epistemic justice By adopting this stance of plurality we can fight against structures of knowledge production and reproduction that willingly or unintentionally instill specific interpretations in ways that inculcate exclusivity The goal of this book is opening up and expanding the debate regarding transpacific connections examining the limits and promises of including these experiences within the conceptual paradigm of the Global South and showcasing different ways of approaching decolonial research to the study of the relationship between East Asia and Latin America      Selected Poems Pablo Neruda, 1990 Neruda s Spanish text is presented with in face translations in this comprehensive collection of his works

**Severo Sarduy and the Neo-baroque Image of Thought in the Visual Arts** Rolando Perez, 2012 Severo Sarduy never enjoyed the same level of notoriety as did other Latin American writers On the other hand he never lacked for excellent critical interpretations of his work from critics like Roberto Gonz lez Echevarr a Ren c Prieto Gustavo Guerrero and other reputable scholars Missing however from what is otherwise an impressive body of critical commentary is a study of the importance of painting and architecture first to his theory and second to his creative work In order to fill this lacuna in Sarduy studies Rolando P rez's book undertakes a critical approach to Sarduy's essays *Barroco Escrito sobre un cuerpo Barroco y neobarroco* and *La simulaci n* from the stand point of art history In short no book on Sarduy until now has traced the multifaceted art historical background that informed the work of this challenging and exciting writer It will be a book that many a critic of Sarduy and the Latin American baroque will consult in years to come

death this book reassesses the Argentinian poet Alejandra Pizarnik 1936-72 in the light of recent publications of her complete poetry and prose diaries and previously unavailable archive material The essays in this volume explore Pizarnik's work from new angles they examine her production as a literary critic revealing her intense identificatory strategies as a reader and the impact of such activities upon her own creative process They also weigh up the influence of her ambiguous attitudes towards sexuality on her poetic personae as well as the ways in which her concern with sex inspires her experimentation with humorous prose New approaches are taken to key texts and themes in the case of the much studied work *La condesa sangrienta* through a detailed philosophical reading involving comparisons with Kafka and in the case of the theme of the split subject through the lens of translation By broadening the scope of Pizarnik studies this book will act as a catalyst for further research into the work of this compelling poet

**Queering the Chilean Way** Carl Fischer, 2016-11-11 This book examines and critiques the fact that Chile's claims to economic exceptionalism have been embodied often quite aggressively in a heterosexual and primarily male ideal Despite the many shifts Chilean economics and politics have undergone over the past fifty years the country's view of itself as a model in contrast to other Latin American countries has remained constant By deploying an artistic literary and cinematic archive of queer figures from this period this book draws parallels among the exceptionalisms of Chile's economic discourse the subjects deemed most and least apt to embody it and the maneuvers of its cultural production between local and global ideas of gender and politics to delineate its place in the world *Queering the Chilean Way* thus sheds light on the sexual economic and aesthetic dimensions of exceptionalism at its heart a discourse of exclusion that often comprises a major element of nationalism in Chile and throughout the Americas

**Consuming Citizens** Iván Eusebio Aguirre Darancou, 2025-05-01 Explores twentieth century

Mexican counterculture through the lens of pleasure body autonomy and music and film undergrounds Consuming Citizens offers a fresh conception of twentieth century Mexican cultural production by critically tracing the underside of mestizo modernity Examining a diverse corpus that includes poetry song avant garde film and more from the 1920s to 80s the volume uses queer feminist and psychedelic theories to understand counterculture and especially different acts of consumption as a way of creating culture and alternative social structures Practices of consuming media sex and drugs become means of generating community among subjects who have been marginalized by the nominally inclusive mestizo nation Consuming Citizens thus rethinks nationalism citizenship and society in relation to and as creations of countercultural bodies

**Hispanic Literature Criticism: Guimarães Rosa-Viramontes** Susan Salas,1999 Gypsies in Madrid Paloma Gay y Blasco,2020-05-26 Throughout the twentieth century Spanish people have deployed conflicting sexual moralities in their struggle for political supremacy within the state The Spanish Gypsies or Gitanos who live at the very bottom of the Spanish socio economic scale have appropriated this concern with gender morality and in the process have reinvented themselves as the only honourable Spaniards Although the Gitano gender ideology has a distinctively Spanish flavour it revolves around a conceptualization of the female body that is radically different from that of other Spaniards The subtle exploration of these acts of cultural invention is one of the original features of this important new ethnography Another even more striking aspect of the work is the author's vision of the impermanent nature of the Gitano social order and the absence of any representation of community or society Unlike their non Gypsy neighbours Gitanos do not use concepts of tradition territory or social harmony as bases for their singularity Instead they focus on the evaluation of personal moral performances in the present In a cultural universe where all activities are markers of shared identity and where personhood is always sexed men and women continually enact the superiority of Gypsies over non Gypsies Through dress manner and the management of emotions or at wedding rituals where the virginity of young brides is put to the test the body works as the site of these processes
