Paul Shaw,2015-05-15 R Paul Shaw has travelled widely in the Arab world obtaining data and gathering impressions first hand from national and local planners In this book he identifies population and manpower problems that are likely to become more serious and more difficult to solve if they are neglected at this early stage of Arab development He focuses on five broad areas which are directly or indirectly related to mobilizing human resources and his book will be of special interest to all those who are concerned with such issues as population migration employment inequality the emancipation of women construction and agriculture Dr Shaw proposes policy directives which are sensitive to the problems as they are seen by the Arab governments themselves and sets out practical guidelines which can be used by Arab planners and policy makers An important feature of the book with respect to current literature on Arab development is that it moves away from a preoccupation with growth related investments to a concentration on development related population manpower and employment issues By bringing together such comprehensive empirical and bibliographic information it will also be invaluable as a reference source for some twenty Arab countries First published in 1983 *Resources in Women's Educational Equity* ,1980 Literature cited in AGRICOLA Dissertations abstracts international ERIC ABI INFORM MEDLARS NTIS Psychological abstracts and Sociological abstracts Selection focuses on education legal aspects career aspects sex differences lifestyle and health Common format bibliographical information descriptors and abstracts and ERIC subject terms used throughout Contains order information Subject author indexes **Women And Work In Africa** Edna G. Feminism's Forgotten Fight Kirsten Swinth,2018-11-05 A spirited defense of feminism arguing that the lack of support for working mothers is less a failure of second wave feminism than a rejection by reactionaries of the sweeping changes they campaigned for When people discuss feminism they often lament its failure to deliver on the promise that women can have it all But as Kirsten Swinth argues in this provocative book it is not feminism that has betrayed women but a society that balked at making the far reaching changes for which activists fought *Feminism s Forgotten Fight* resurrects the comprehensive vision of feminism s second wave at a time when its principles are under renewed attack Through compelling stories of local and national activism and crucial legislative and judicial battles Swinth s history spotlights concerns not commonly associated with the movement of the 1960s and 1970s We see liberals and radicals white women and women of color rethinking gender roles and redistributing housework They brought men into the fold and together demanded bold policy changes to ensure job protection for pregnant women and federal support for child care Many of the creative proposals they devised to reshape the workplace and rework government policy such as guaranteed incomes for mothers and flex time now seem prescient Swinth definitively dispels the notion that second wave feminists pushed women into the workplace without offering solutions to issues they faced at home *Feminism s Forgotten Fight* examines activists campaigns for work and family in depth and helps us see how feminism s opponents not feminists themselves blocked the movement s aspirations Her insights offer key lessons for women s ongoing struggle to achieve equality at home and work
