health the Foundation had a vision of creating a book building on the Index of Social Health to show what is needed to advance this field and deepen its impact To that end the Foundation provided financial assistance for the book s development by funding Miringoff s Fordham Institute for Innovation in Social Policy to convene a twenty five member team the Working Group on Social Indicators including nationally known pollster Daniel Yankelovich and Director of Research and Vice President of CNN Judy Milestone Each member of the Working Group was motivated to improve social reporting in the United States They came from the media universities and government representing fields as diverse as law medicine sociology and economics The vision of the Ford Foundation with the assistance of this working group has now become a reality in *The Social Health of the Nation* a nine chapter book written by Marc and Marque Luisa Miringoff This book does show the other side of the Official Portrait of How America is Doing providing comprehensive coverage of improving shifting and worsening social performance It fills in the blanks after all the economic indicators are posted The book contains surprises the same kind that have been made the yearly release of the Social Index of Health a subject of media attention for twelve years an index whose 1998 figures will be released exclusively in this book While some of the indicators will shock other will give reason for hope as we see evidence of improved performance in unlikely places For those whose livelihoods and well being depend on the social health of the United States this book provides the information necessary to find creative solutions for improved performance For students in a wide range of courses this book will become required reading
