Jan, Mehmet Asutay, 2019 This book aims to explore and analyse Islamic Moral Economy IME as an alternative economic and social system to capitalism and socialism It proposes a new model of Islamic development integrating global development within an Islamic framework of spiritual development It is argued that the failure of Muslim countries to provide basic necessities and an environment free of oppression and injustice can be overcome with this authentic Islamic development framework In addition this book can be an important study to identify the theological political social and economic

boundaries for changing the society to produce IME oriented developmentalism **Economic Development and Islamic**

Sadeq, 1987 Islamic Economic Development, Policy & Public Finance & Sustainable Development Monzer Kahf, 2015-05-30 This is the fourth in a series of four books on Notes on Islamic Economics It deals with three important subjects 1 the Money and development theory in Islamic economics 2 Islamic public finance and 3 sustainable development in the Muslim countries In part one we discuss the Islamic development theory money as a central issue in development and inflation This part consists of chapters one to seven Chapter one deals with the Islamic theory of economic development chapter two deals with the role of government in economic development chapter three deals with money in Islamic economics chapter four discusses inflation chapter five discusses economic policy and its tools Islamic economics and chapters six and seven deal with issues of privatization in Islamic perspectives Part two consists of five chapters eight through twelve and deals with public finance and part three deals with sustainable development for the Muslim countries in chapters thirteen through sixteen The conclusion of this book looks for the future of Islamic economics The theme of my argument in all of them is that the Islamic system looks at economic development is a process determined by the institutional set up of a society which is changeable only by changing the value cultural system of the society The religion of Islam attempts to implant values conducive to development and prepares human beings to undertake necessary changes which bring about economic progressiveness Besides there are

many similarities between Islamic and conventional economics when it comes to the general objectives and approaches while a number of details differ considerably

Towards a Maqāṣid al-Sharī‘ah Index of Socio-Economic Development Salman Syed Ali, 2019-09-05 Islamic economics which is a discipline for studying economic behaviour from an Islamic perspective advocates comprehensive human development defined by advancement and progress in multiple dimensions beyond GDP income or standard of living Not only should socio economic progress be in all dimensions but it should also have a higher purpose A society is considered economically and socially developed if adequate protections are provided for faith life intellect progeny and wealth This concept of balanced progress itself is an important idea recognized by the sociologists However the same has so far not been measured or used in policy making by economists Similarly lack of adequate protections in a society along these dimensions indicates poverty which is another way of measuring slack in development The chapters in this edited volume deal with conceptualization of socio economic development on these lines and show how to measure socio economic development in a comprehensive way The book will be of interest to academics in the fields of economics economic development and Islamic economics It will also be of interest to policy makers engaged in economic development social progress and poverty alleviation

Studies in Islamic Economics Ahmed Akgunduz, 2009-06-26 This book contains two major subjects Firstly some academic papers about Islamic Banking The main characteristic of Islamic banking in comparison to traditional banking is that it is more concerned with the profitability and length of the proposed investment rather than collateral Projects with high profitability and low collateral that might otherwise be rejected can be funded through Islamic banking This leads to a banking behavior that is similar to development banks and microfinance institutions that have been very successful in many Third World countries Academic research shows that Islamic banking is not a negligible or merely temporary phenomenon Contributors Dr M Umer Chapra Dr Ahmet Akgündüz Arjen van Klink Drs Bastiaan A Verhoef and Ismail Zsoy Secondly some research articles about religion and development Islam summarizes the root cause of the great social upheavals that have been suffered particularly in this century in two phrases One is So long as I am full what is it to me if others die of hunger And the other is You struggle and labor so that I can live in ease and comfort Islam demonstrates that if hunger and poverty are to be eradicated it will be through applying the Qur’anic injunction of almsgiving social assistance and mutual help vujub u zakat Being steadfast in performing prayers giving zakat and the prohibition against earning without working e g usury and interest hurmet i Rib God has permitted trade and forbidden usury Contributors Dr Ahmet Akgündüz Dr Arif Ersoy Dr Ha met Ba ar and Dr Bunyamin Duran
