Economics Of Transport In The Republic Of Kazakhstan:

Economics of Transport in the Republic of Kazakhstan Karim Massimov, 2002 Almaty-Issyk-Kul Alternative Road Economic Impact Assessment Asian Development Bank, 2020-12-01 Almaty a vibrant metropolis in Kazakhstan is only 80 kilometers away from lake Issyk Kul in the Kyrgyz Republic renowned for its mountains and moderate summers However the two destinations are separated by two magnificent mountain ranges To bypass these mountains the existing road stretches over 460 kilometers leading to long travel times This economic impact assessment analyzes what impact a more direct road between the two destinations would have for tourism and economic development in both Kazakhstan and the Kyrgyz Republic The publication provides economically viable solutions that within a supportive policy environment would lead to strong economic development within the region **Kazakhstan's Dynamic Economy** Marat Terterov, 2006 The Republic of Kazakhstan continued to assert itself as a dynamic transitional economy and attractive emerging market during 2005 With economic growth of 9.4% in 2004 the country's economic expansion continued as a result of increased oil and gas production spurred by rising global demands for energy While Kazakhstan is attractive to international energy companies the energy sector is not the only source of investor interest with over 1.5 billion of investment projects currently underway President Nazarbayev's re-election in December 2005 while not indicative of a fully fledged democracy continues to create a strong semblance of political stability in Kazakhstan which is vital for attracting investment and facilitating growth

POLITICAL AND ECONOMIC RELATIONS BETWEEN IRAN AND CENTRAL ASIAN STATES , 1991-2010 Dr. Rashmi Tiwari, 2024-09-25 During the post cold war era a power vacuum has been created in Central Asia The great powers like United States Russia China and European Union want to exert their own influence in the region to meet their geo strategic interests The other countries like Iran Turkey Pakistan India and Saudi Arabia also want to strengthen their historical cultural linguistic economic and political relations with the Central Asian States The oil and natural gas rich Central Asian States are a great source of attraction for the developed world in general and United States and Russia in particular Iran sharing a long border with Turkmenistan sea route with Kazakhstan and linguistic ties with Tajikistan has a comparative advantage in bringing the Central Asian States in its own fold The Central Asian Republics emerged as independent sovereign countries in December 1991 as a result of Soviet Union disintegration Central Asia has inappropriately been called Inmost Asia or Innermost Asia but in fact Central Asia is not Inmost Asia or Innermost Asia it is just Central Asia It lies at the heart of Eurasian continent completely land locked and geographically surrounded by Iran and Afghanistan in the south Russia in the north China in the east and the Eastern Europe in the west The Caucasus stands on the other side of the Caspian Sea which is situated in the western part of Central Asia comprising the three countries of Azerbaijan Armenia and Georgia Central Asian Republics CARs have had geographical historical social and cultural linkages with Iran In fact these republics were part of imperial Iranian state Due to its geostrategic location of Central Asia and its

adjoining region in pre industrial times Iran was a land bridge between inner South and East Asia on the one hand and Europe on the other hand In the wake of the industrial revolution Iran was drawn into the European imperialists power game in Central Asia 1 Iran is the eighteenth largest country in the world with an area of 1 648 000 km square Its borders are with Azerbaijan to the North West the Caspian Sea to the North Turkmenistan to the North East Pakistan to the East Turkey and Iraq to the West and finally the waters of the Persian Gulf and the Gulf of Oman to the South 1 See A H H Abidi Iran and Central Asian States World Focus March April 1993 p 45

Turkic Council Countries: Infrastructure, Trade, Logistics and Transportation Mahir Humbatov, Kazim Sari, 2017-11-17 The Cooperation Council of Turkic Speaking States the Turkic Council TC was established in 2009 as an intergovernmental organization to promote multilateral cooperation among Turkic Speaking States The four founding member states of the TC are Azerbaijan Kazakhstan Kyrgyzstan and Turkey In addition Uzbekistan and Turkmenistan are two possible future members of the council This study aims to investigate the infrastructural investment trade logistics and transportation potential of the mentioned countries as well as elaborate these activities among the TC s current and possible future members For this purpose firstly present situation of the trade among the Council s current and possible future members has been examined At this point it is made clear that the trade volume among these six states is not as much as expected but it is open to healing Later the opportunities and the last developments that may increase the trade volume

among the TC's current and possible future members in line with advancement of their infrastructural potential are explored. In reality the geographic location of these states is very good. Namely they are on the old trade route known as the Silk Road channels; however this road was not active for a long time. Recently this ancient trade route between East and West was aimed to be revived by China. Besides India is keen to develop another approach of the Silk Road under the International North-South Transportation Corridor INSTC initiative. In fact these are great opportunities for the TC's current and possible future members. That is there is a very large volume of trade between China and Europe and currently almost all of this trade is done through sea transport. Hence if even a small part of this trade is transported by the Chinese Initiative of the Silk Road its contribution to the current and potential future members of the TC and their integration into each other will be great. However at this point there are some tasks that current and potential members of the TC must complete to mobilize the Silk Roads. In fact opening of Baku-Tbilisi-Kars-BTK rail link recently was an important step to make it active but this is not fully enough. In this work it is also aimed to set out these tasks from the perspective of each current and potential member. Finally with the help of this review the limitations and problems of each state's infrastructural investment trade transport and logistics system have been put forward for improvement studies. Diversifying Kazakhstan's Exports Institutions, Policies, Infrastructures OECD, 2024-06-25 Kazakhstan's trade performance has displayed remarkable resilience to recent economic shocks including Russia's full scale invasion of Ukraine and the ensuing international sanctions. However connectivity remains one of the greatest challenges facing the country its trade integration is limited by low density of settlement and economic activity infrastructure bottlenecks weaknesses in trade facilitation and long distances to major markets its economy still depends on a limited number of export commodities and a narrow range of trading partners. This report summarises the analytical guidance and capacity building on export diversification in Kazakhstan provided by the OECD in 2022 and 2023. The report complements recent OECD work on trade connectivity in Central Asia by focusing on practical aspects of export diversification identified in collaboration with the government of Kazakhstan i how to develop export promotion policies for SMEs ii how to design a one stop shop for exporting SMEs and iii how to improve cross border co operation in Kazakhstan's Caspian Sea ports. *Green Finance and Investment Promoting Clean Urban Public Transportation in Kazakhstan, Kyrgyzstan and Moldova Summary Report of Project Implementation 2016-2019* OECD, 2019-10-15 This report presents the objectives methodology procedures and main findings of the OECD project Strengthening public finance capacity for green investments in the EECCA countries. and Asian Economic Development Mark J. Scher, Naoyuki Yoshino, 2015-06-11 Postal savings systems in Asian developing countries play a significant role in social and economic development. In many of these countries and others around the world, postal savings and giro remittances are the only means of providing financial services to all segments of the population, particularly women, rural communities, and the urban poor. Postal savings in many countries also hold the largest share of individual and household savings among competing institutions. This book examines the postal financial systems of some twenty countries visited by the author and also includes case studies by expert authors from different developing nations. Among the topics covered are savings product development, investing mobilized funds, receiving overseas remittances, and utilizing financial technology.

The Central Asian Economies Since Independence Richard Pomfret, 2020-12-08 The 9 11 attacks, the U.S. invasion of Afghanistan, and the oil boom of recent years have greatly increased the strategic importance of resource-rich Central Asia, making an understanding of its economic and therefore political prospects more important than ever. In *The Central Asian Economies Since Independence*, Richard Pomfret provides a concise and up-to-date analysis of the huge changes undergone by the economies of Kazakhstan, the Kyrgyz Republic, Tajikistan, Turkmenistan, and Uzbekistan since the collapse of the Soviet Union in 1991. The book assesses the economic prospects of each country and the likelihood that economic conditions will spur major political changes. With independent chapters on each country and chapters analyzing their comparative economic performance, the book highlights similarities and differences. Facing common problems caused by the breakdown of Soviet economic relations and the hyperinflation of the early 1990s, these countries have taken widely divergent paths in the transition from Soviet central planning to more market-based economies. The book ends in 2005 with the bloodless Kyrgyz revolution and the violence in Uzbekistan, which signaled the end of the region's political continuity. Throughout the book, Pomfret emphasizes the economic forces that foster political instability: Kazakhstan's resource boom and Turkmenistan's lack of reform, Tajikistan's abject poverty.
