Ecstatic Naturalism Robert S. Corrington, 1994-04-22 Semiotic theory which has restricted its focus largely to human forms of signification is transformed by Robert S Corrington into a semiotics of nature itself Corrington situates the divide between nature naturing and nature natured within the contest of classical American pragmatism and postmodern psychoanalysis At the heart of this new metaphysics is an insistence that all signs participate in larger orders of meaning that are natural and religious Meanings embodied in nature point beyond nature to the mystery inherent in positioned codes and signs

Ecstatic Naturalism Robert S. Corrington, 1994 Semiotic theory which has restricted its focus largely to human forms of signification is transformed by Robert S Corrington into a semiotics of nature itself Corrington situates the divide between nature naturing and nature natured within the contest of classical American pragmatism and postmodern psychoanalysis At the heart of this new metaphysics is an insistence that all signs participate in larger orders of meaning that are natural and religious Meanings embodied in nature point beyond nature to the mystery inherent in positioned codes and signs

A Semiotic Theory of Theology and Philosophy Robert S. Corrington, 2000-11-09 The concern of this work is with developing an alternative to standard categories in theology and philosophy especially in terms of how they deal with nature Avoiding the polemics of much contemporary reflection on nature it shows how we are connected to nature through the unconscious and its unique way of reading and processing signs Spinoza's key distinction between *natura naturans* and *natura naturata* serves as the governing framework for the treatise Suggestions are made for a post Christian way of understanding religion Robert S Corrington's work represents the first sustained attempt to bring together the fields of semiotics depth psychology pragmatism and a post Monotheistic theology of nature Its focus is on how signification functions in human and non human orders of infinite nature Our connection with the infinite is described in detail especially as it relates to the use of sign systems

Nature's Primal Self Nam T. Nguyen, 2011-01-01 The underlying theme of this book is the analysis of Corrington's ecstatic naturalism as a breakthrough movement that combines the fields of semiotics theology depth psychology and philosophy in a new metaphysics of nature Ecstatic naturalism provides a viable alternative to Peirce's semiotic conception of the self and to Jaspers' existential elucidation of Existenz

Nature's Religion Robert S. Corrington, 1997 Corrington argues that signs and our various transference fields can and do connect us with fully natural religious powers that are not of our own making thereby opening up a path past the Western monotheisms to a capacious religion of nature With a foreword by Robert C Neville *Nature's Religion* is essential reading for philosophers of religion scholars of the psychology of religion and theologians

Whitehead's Philosophy Janusz A. Polanski, Donald W. Sherburne, 2012-02-01 This volume explores the range of Alfred North Whitehead's philosophy and his relevance to contemporary philosophical traditions While philosophers and theologians with only a passing acquaintance with Whitehead might think that his philosophy is unconnected to our Western philosophical tradition the contributors prove that nothing

could be further from the truth The most respected scholars in the field George Allan Lisa Bellantoni John B Cobb Jr Frederick Ferr David L Hall William S Hamrick Robert Cummings Neville Janusz A Polanowski Patrick Shade and Donald W Sherburne illustrate points of connection between Whitehead s ideas to the following Descartes the so called Father of Modern Philosophy classical American thought several contemporary American thinkers including Richard Rorty and Alasdair MacIntyre aspects of European philosophy and current reflections upon the environment and technology

Corrington,2015-12-09 This book is a study in a new form of religious naturalism called Deep Pantheism which has roots in American Transcendentalism but also in phenomenology and Asian thought It argues that the great divide within nature is that between nature naturing and nature natured the former term defined as Nature creating itself out of itself alone while the latter term defined as The innumerable orders of the World Explorations are made of the connections among the
