## Eine Frau Roman:

*The Inability to Love* Agnes C. Mueller, 2015 *The Inability to Love* borrows its title from Alexander and Margarete Mitscherlich's 1967 landmark book *The Inability to Mourn* which discussed German society's lack of psychological reckoning with the Holocaust. Challenging that notion, Agnes Mueller turns to recently published works by prominent contemporary German non-Jewish writers to examine whether there has been a thorough engagement with German history and memory. She focuses on literature that invokes Jews, Israel, and the Holocaust. Mueller's aim is to shed light on pressing questions concerning German memories of the past and on German images of Jews in Germany at a moment that is ideologically and historically fraught.

In Three Volumes* Carnegie Library of Pittsburgh, 1907 *'Immortal Austria'?*, 2007-01-01 *Immortal Austria* was the title of a theatrical pageant devised by Austrian refugees in wartime London, the name summarizing their collective memory of their homeland as a country of mountain scenery, historical grandeur, and musical refinement. The reality of the country they had left and the one to which some of them returned was very different. This volume contains various studies of the representations of their homeland in the cultural production of Austrian exiles, including those projected by migrants working in the British film industry, those portrayed in the historical novel, and in the literary works of such notable authors as Stefan Zweig, Elias Canetti, and Robert Neumann. It opens with a survey of the make-up of the Austrian exile community and concludes with a study of attitudes to returning exiles as reflected in the post-war literary journals. The volume thus offers students and teachers a vital cultural link between the pre-1934 Austria of the First Republic and the post-1945 Austria of the Second.

**The Bonds of Labor** Carol Poore, 2000 *The Bonds of Labor* is a book that augments both historical studies of class relations and the labor movement as well as literary studies of German themes and images by exploring the cultural history of responses to social inequities. This literary exploration of the industrial world will be important reading for scholars and students of German cultural and social history, German literature, and labor studies.
