attempts to show      **Negotiating Identities in Contemporary Africa** Toyin Falola, Emmanuel M. Mbah, 2023-08-29

Negotiating Identities in Contemporary Africa Gender Religion and Ethno cultural Identities explores the changing dynamics of identities in Africa with a focus on gender ethno cultural and religious identity Toyin Falola and Emmanuel M Mbah argue that because identity defines who we are as individuals or groups studies on African identities must focus on understanding the changing dynamics in the socio economic and political spheres in the continent These chapters cover subjects such as women s career identity gender roles and knowledge childlessness ethnocentrism and democracy cultural identity through theater Black identity in the diaspora and diasporic consciousness Using existing scholarship the chapters in this edited volume challenge our understanding of what identity entails and provide new discussions on the hitherto politicized historiography of some identities in Africa      **Language and Identity in a Multilingual, Migrating World** ,2023-02-20

Multilingualisms vary Given such variation how can those from essentially mono chromatic monolingual backgrounds begin to appreciate the colorful multilingual realities of the majority world This question led to the symposium Language and Identity in a Multilingual Migrating World May 10 15 2018 in Penang Malaysia This resulting four part collection of papers J Stephen Quakenbush      **Health and Cultural Values** Vitalis Pemunta Ngambouk, 2011-01-18 This book provides a nuanced analysis of the transformations that the ritual cutting of Female Circumcision FC recently underwent within the changing medical and institutional context of the HIV AIDS pandemic among Ejagham tribes in Southwest Cameroon Based on local level ethnography it captures the multivocal perspectives and agency of participants thereby putting to question the uncritical feminist stance that Third World Women lack agency and are chattel As the highest rite of patriarchy the quintessential icon of gendered personhood and femininity FC remains salient even when it is no longer the criterion for membership into the Moninkim secret society especially within the new medical and institutional context of the HIV AIDS pandemic because it is intertwined with the whole cultural political economy of the Ejaghams The commercialization of this feminine institution charged with feminine personhood through its spectacular performances enacting matrimonial relations within and beyond the Ejagham locale is evidence of its continuous centrality in the life world of participants By focusing on health alone anti HIV AIDS and anti FC interventions by both the state and civil society actors miss the point FC is increasingly becoming a human social gender rights and development issue calling for a multi pronged development approach The threat of the HIV AIDS pandemic led to ferocious intergenerational debates over moral values about female inordinate sexuality and to the double appropriation of the concept of human security Conservatives maintain that FC tempers women s sexuality and is therefore a useful mechanism to keep women in matrimonial service a moral check on inordinate sexuality and a native antidote against the scourge of the pandemic Anti FC advocates point to the bloodletting entailed by the ritual procedures as fuelling the spread of the pandemic through the spread of diseases with HIV AIDS inclusive among participants A third group of cultural insiders opt for the cautious appropriation of modernity while

simultaneously maintaining tradition medicalisation of the ritual procedures By reducing the complexity and nuances of the ritual cutting to health alone anti FC activism has instead produced a backlash marked by simultaneous contestation and practice Paradoxically the anti FC campaigns have resulted in the privatization of FC on increasingly younger girls However the recent waiving of the ritual cutting as a precondition for membership into the Moninkim cult because of the ageing of the initial initiates the health risk of the HIV AIDS pandemic and anti FC advocacy campaigns by local NGOs shows that change is underway Simultaneously inter tribal marriages with members of non circumcising tribes and romantic love relationships beyond the purview of the traditional patriarchal orbit have led younger lovers increasingly to seek mutually satisfying love relationships for which FC a virtuous cut becomes an obstacle Library of Congress Subject Headings Library of

*Voice of the Leopard* Ivor L. Miller, 2010-01-06 In *Voice of the Leopard* Ivor L. Miller shows how African migrants and their political fraternities played a formative role in the history of Cuba During the eighteenth and nineteenth centuries no large kingdoms controlled Nigeria and Cameroon's multilingual Cross River basin Instead each settlement had its own lodge of the initiation society called kp or leopard which was the highest indigenous authority kp lodges ruled local communities while also managing regional and long distance trade Cross River Africans enslaved and forcibly brought to colonial Cuba reorganized their kp clubs covertly in Havana and Matanzas into a mutual aid society called Abaku which became foundational to Cuba's urban life and music Miller's extensive fieldwork in Cuba and West Africa documents ritual languages and practices that survived the Middle Passage and evolved into a unifying charter for transplanted slaves and their successors To gain deeper understanding of the material Miller underwent kp initiation rites in Nigeria after ten years collaboration with Abaku initiates in Cuba and the United States He argues that Cuban music art and even politics rely on complexities of these African inspired codes of conduct and leadership *Voice of the Leopard* is an unprecedented tracing of an African title society to its Caribbean incarnation which has deeply influenced Cuba's creative energy and popular consciousness
