Hans Broek 10 Years:

Vanished History Tomas Sniegon, 2014-05-01 Bohemia and Moravia today part of the Czech Republic was the first territory with a majority of non German speakers occupied by Hitler s Third Reich on the eve of the World War II Tens of thousands of Jewish inhabitants in the so called Protectorate of Bohemia and Moravia soon felt the tragic consequences of Nazi racial politics Not all Czechs however remained passive bystanders during the genocide After the destruction of Czechoslovakia in 1938 39 Slovakia became a formally independent but fully subordinate satellite of Germany Despite the fact it was not occupied until 1944 Slovakia paid Germany to deport its own Jewish citizens to extermination camps About 270 000 out of the 360 000 Czech and Slovak casualties of World War II were victims of the Holocaust Despite these statistics the Holocaust vanished almost entirely from post war Czechoslovak and later Czech and Slovak historical cultures The communist dictatorship carried the main responsibility for this disappearance yet the situation has not changed much since the fall of the communist regime The main questions of this study are how and why the Holocaust was excluded from the Czech and Slovak history

American World Literature: An Introduction Paul Giles,2019-02-04 A scholarly review of American world literature from early times to the postmodernist era American World Literature An Introduction explores how the subject of American Literature has evolved from a national into a global phenomenon As the author Paul Giles a noted expert on the topic explains today American Literature is understood as engaging with the wider world rather than merely with local or national circumstances The book offers an examination of these changing conceptions of representation in both a critical and an historical context The author examines how the perception of American culture has changed significantly over time and how this has been an object of widespread social and political debate From examples of early American literature to postmodernism the book charts ways in which the academic subject areas of American Literature and World Literature have converged and diverged over the past generations Written for students of American literature at both undergraduate and postgraduate levels and in all areas of historical specialization American World Literature offers an authoritative guide to global phenomena of American World literature and how this subject has undergone crucial changes in perception over the past thirty years

The South Slav Conflict Raju G.C Thomas,H. Richard Frim,2021-12-12 First Published in 1996 In identifying the causes of such a national and international failure in conflict management The South Slav Conflict becomes a valuable case study in comparative politics and international relations Edited by Raju G C Thomas and H Richard Frim and is unique among these by virtue of its thoroughly interdisciplinary approach to the causes and consequences of the war The book s great strength begins with its forthright assertion that no serious attempt to explain the current cycle of genocide and revenge among Serbs Croats and Bosnians can avoid the inherent complexity of the factors that transform ed Yugoslavia from one of the most pluralist of European communist states into a theater of human misery

Transnational Politics in the Post 9 11 Novel suggests that literature after September 11 2001 reflects the shift from bilateral
nation state politics to the multilateralism of transnational politics While much of the criticism regarding novels of 9 11 tends
to approach these works through theories of personal and collective trauma this book argues for the evolution of a post 9 11
novel that pursues a transversal approach to global conflicts that are unlikely to be resolved without diverse peoples willing
to set aside sectarian interests These novels embrace not only American writers such as Don DeLillo Dave Eggers Ken Kalfus
Thomas Pynchon and Amy Waldman but also the countervailing perspectives of global novelists such as J M Coetzee Orhan
Pamuk Mohsin Hamid and Laila Halaby These are not novels about terrorism nor do they seek comfort in the respectful
cloak of national mourning Rather they are instances of the novel in terror which recognizes that everything having been
changed after 9 11 only the formally inventive presentation will suffice to acknowledge the event s unrepresentability and its
shock to the political order **Securing Europe's Future** Stephen J. Flanagan, Fen Osler Hampson, 2021-01-26 This book

the stability of the Atlantic Alliance at the end of the Cold War It provides a comprehensive review of the major political
social and economic issues that shaped the course of European security It offers a thorough assessment of such critical
questions as European views of the US Strategic Defense Initiative the contribution of new technologies and tactics to NATO

s conventional defence capabilities and domestic factors that influenced security policy It also provides original analysis of a number of issues such as economic dimensions of security the quest for a European defence identity and protection of Western interests outside the NATO area It provides a review of the nuclear question and of the German security debate in the aftermath of the initial US INF missile deployments
