Book two is a wealth of spiritual insights now at your fingertips      **Decorative Furnisher**, 1928      **The Happy Brain** Dean Burnett, 2018-05-01 Funny, wise, and absolutely fascinating. Adam Kay, author of *This Is Going to Hurt*. Do you want to be happy? If so, read on. This book has all the answers. In *The Happy Brain*, neuroscientist Dean Burnett delves deep into the inner workings of our minds to explore some fundamental questions about happiness. What does it actually mean to be happy? Where does it come from? And what really is the point of it? Forget searching for the secret of happiness through lifestyle fads or cod philosophy. Burnett reveals the often surprising truth behind what makes us tick. From whether happiness really begins at home (spoiler alert: yes, sort of) to what love, sex, friendship, wealth, laughter, and success actually do to our brains, this book offers a uniquely entertaining insight into what it means to be human. Not really Sorry. But it does have some very interesting questions and at least the occasional answer      **Adios, Happy Homeland** Ana Menéndez, 2011-08-02 From the award-winning author of *In Cuba*, I was a German Shepherd short stories with a magical and modern take on the idea of migration and flight. *Adios, Happy Homeland* is a collection of interlinked tales that challenge our preconceptions of storytelling. It examines the life of the Cuban writer, deconstructing and reassembling the myths that define her culture. It blends illusion with reality and explores themes of art, family, language, superstition, and the overwhelming need to escape from the island, from memory, from stereotype, and ultimately from the self. We're taken into a sick man's fever dream as he waits for a train beneath a strange night sky, into a community of parachute makers facing the end in a windy town that no longer exists, and onto a Cuban beach where the body of a boy last seen on a boat bound for America turns out to be a giant jellyfish. With *Adios, Happy Homeland*, Menéndez puts a contemporary twist on the troubled history of Cuba and offers a wry and poignant perspective on the conundrum of cultural displacement      *Happiness Times Two* Bayne Wetmore, 2022-04-15 The universe is over 13 billion years old.
