Happy Convent:

Friendship's Shadows Penelope Anderson, 2012-08-06 Penelope Anderson's original study changes our understanding both of the masculine Renaissance friendship tradition and of the private forms of women's friendship of the eighteenth century and after. It uncovers the latent threat of betrayal lurking within politicized classical and humanist friendship, showing its surprising resilience as a model for political obligation undone and remade. Incorporating authors from Cicero to Abraham Cowley and Margaret Cavendish to Mary Astell, the book focuses on two extraordinary women writers: the royalist Katherine Philips and the republican Lucy Hutchinson. And it explores the ways in which they appropriate the friendship tradition in order to address problems of conflicting allegiances in the English Civil Wars and Restoration. As Penelope Anderson suggests, their writings on friendship provide a new account of women's relation to public life organized through textual exchange rather than bodily reproduction. *Littell's Living Age*, 1850 **Littell's Living Age** Eliakim Littell, Robert S. Siegfried, Lisa T. Sarasohn, 2016-04-22 Only recently have scholars begun to note Margaret Cavendish's references to God, spirits, and the rational soul, and little has been published in this regard. This volume addresses that scarcity by taking up the theological threads woven into Cavendish's ideas about nature, matter, magic, governance, and social relations, with special attention given to Cavendish's literary and philosophical works. Reflecting the lively state of Cavendish studies, *God and Nature in the Thought of Margaret Cavendish* allows for disagreements among the contributing authors whose readings of Cavendish sometimes vary in significant ways, and it encourages further exploration of the theological elements evident in her literary and philosophical works. Despite the diversity of thought developed here, several significant points of convergence establish a foundation for future work on Cavendish's vision of nature, philosophy, and God. The chapters collected here enhance our understanding of the intriguing and sometimes brilliant contributions Cavendish made to debates about God's place in the scientific cosmos. **The Congregation of Saint Joseph of Carondelet** Mary Lucida Savage, 1923 *The Knights Hospitaller in the Levant, c.1070-1309* J.
