Literature in Transition, 1940-1980: Volume 5 Eve Patten, 2020-03-12 This volume explores the history of Irish writing between the Second World War or the Emergency in 1939 and the re emergence of violence in Northern Ireland in the 1970s It situates modern Irish writing within the contexts of cultural transition and transnational connection often challenging pre existing perceptions of Irish literature in this period as stagnant and mundane While taking into account the grip of Irish censorship and cultural nationalism during the mid twentieth century these essays identify an Irish literary culture stimulated by international political horizons and fully responsive to changes in publishing readership and education The book combines valuable cultural surveys with focussed discussions of key literary moments and of individual authors such as Se n O Faol in Samuel Beckett Edna O'Brien and John McGahern Engineering Systems Reliability, Safety, and Maintenance B.S.
