McVeigh,2006-01-01 Using Japanese higher education as a case study author Brian J McVeigh explores the varieties of exchange dramatics among the Education Ministry universities faculty and students With one eye on large scale processes and the other on everyday practices he elucidates trafficking between micro and macro levels and key concepts of value exchange and role performance by studying how political economy configures dramatization and deception at the everyday level Relying on extensive ethnographic participant observation and the notion of the gift McVeigh challenges the commonly accepted idea of social contract for understanding state society relations Written to be read as both a political and philosophical commentary and anthropological investigation this work has theoretical implications for comparative studies of political systems particularly regarding the relation between self deception and the ideological manufacture of legitimacy **The Pains of Mass Imprisonment** Benjamin Fleury-Steiner,Jamie Longazel,2013-10-01 This concise and engaging book presents a critical perspective on the correctional system and the process of incarceration in the United States Fleury Steiner and Longazel emphasize the magnitude of mass imprisonment in the United States especially of people of color not by objective statistics and trends but by the voices and lived experiences of individuals who live their harsh conditions on a daily basis This is an ideal book for courses in corrections social problems criminology and prisoner re entry **African American Perspectives on Political Science** Wilbur Rich,2007-01-15 Race matters in both national and international politics Starting from this perspective African

American Perspectives on Political Science presents original essays from leading African American political scientists. Collectively they evaluate the discipline, its subfields, the quality of race-related research, and omissions in the literature. They argue that because Americans do not fully understand the many faceted issues of race in politics in their own country, they find it difficult to comprehend ethnic and racial disputes in other countries as well. In addition, partly because there are so few African Americans in the field, political science faces a danger of unconscious insularity in methodology and outlook. Contributors argue that the discipline needs multiple perspectives to prevent it from developing blind spots. Taken as a whole, these essays argue with great urgency that African American political scientists have a unique opportunity and a special responsibility to rethink the canon, the norms, and the directions of the discipline. [AIDS in America](#) Susan S. Hunter, 2006-03-21 Global AIDS expert Susan Hunter confronts the truth about HIV/AIDS in the United States and exposes government failures in handling the epidemic. **When a Heart Turns Rock Solid** Timothy Black, 2010-08-24 A WASHINGTON POST BEST BOOK OF THE YEAR Based on an unprecedented eighteen year study, the center of this riveting book are three engaging streetwise brothers who provide powerful testimony to the exigencies of life lived on the social and economic margins. With profound lessons regarding the intersection of social forces and individual choices, Black succeeds in putting a human face on some of the most important public policy issues of our time. [Locked Out](#) Jeff Manza, Christopher Uggen, 2008-04-17 Mr. Manza and Mr. Uggen wade into one of the most contested empirical debates in political science: How many, if any, recent American elections would have gone differently if all former felons had been allowed to vote? The Chronicle of Higher Education Jeff Manza and Christopher Uggen, who understand the vastness of the jailers' reach, follow the story out of the cell and into the voting booth. [Locked Out](#) examines how the disenfranchisement of felons shapes American democracy, hardly a hypothetical matter in an age of split electorates and hanging chads. Exacting and fair, their work should persuade even those who come to the subject skeptically that an injustice is at hand. The New York Review of Books 5.4 million Americans, 1 in every 40 voting age adults, are denied the right to participate in democratic elections because of a past or current felony conviction. In several American states, 1 in 4 black men cannot vote due to a felony conviction. In a country that prides itself on universal suffrage, how did the United States come to deny a voice to such a large percentage of its citizenry? What are the consequences of large-scale disenfranchisement for election outcomes, for the reintegration of former offenders back into their communities, and for public policy more generally? [Locked Out](#) exposes one of the most important yet little-known threats to the health of American democracy today. It reveals the centrality of racial factors in the origins of these laws and their impact on politics today. Marshalling the first real empirical evidence on the issue to make a case for reform, the authors' path-breaking analysis will inform all future policy and political debates on the laws governing the political rights of criminals. [The Twilight of Equality?](#) Lisa Duggan, 2012-04-03 By now we've all heard about the shocking redistribution of wealth that's occurred during the last thirty years, and particularly during the last decade. But economic

changes like this don't occur in a vacuum they're always linked to politics The Twilight of Equality searches out these links through an analysis of the politics of the 1990s the decade when neoliberalism free market economics became gospel After a brilliant historical examination of how racial and gender inequities were woven into the very theoretical underpinnings of the neoliberal model of the state Duggan shows how these inequities play out today In a series of political case studies Duggan reveals how neoliberal goals have been pursued demonstrating that progressive arguments that separate identity politics and economic policy cultural politics and affairs of state can only fail Ultimately The Twilight of Equality not only reveals how the highly successful rhetorical maneuvers of neoliberalism have functioned but more importantly it shows a way to revitalize and unify progressive politics in the U S today Annual of German and European Law Russell A.
