Gender and Peacebuilding Maureen P. Flaherty, Thomas G. Matyók, Sean Byrne, Hamdesa Tusso, 2015-10-16 The twenty first century has brought with it a shift from the notion of human security being located in secure national borders to the need to secure the safety freedom and dignity of all Despite efforts to equalize women's status in the world evidenced by changes in many international projects requiring a gender focus women and men experience most of the world in very different ways according to gender Further the reality is that humans who do not all fall neatly into one of these categories male or female often find their lives further challenged In the 1980s Peace and Conflict Studies first began to acknowledge and study the different experiences males and females have during war and peace Since then there have been books about women and war women working at grassroots levels to build peace women and transitional justice women and peace education and women's views of human security All of these works have contributed to the discourse of our changing world This book brings together some of those themes and voices and adds more with the final product being more than the sum of its parts We add to the conversation a book that considers foundational fundamental issues that span from the interpersonal to the global Many of the chapters describe empirical research completed with

author and community shared here for the first time Part One is a collection of case studies documenting challenges and responses to peacebuilding by women from various parts of the world Part Two focuses on Peace and Conflict Studies PACS as a discipline examining not only what is but also what should be taught This section critiques today s efforts at teaching Peace and Conflict Studies and provides suggestions of how this important work might be shared in more open and equitable ways Part Three enters territory found even less in the PACS literature In this section our authors confront patriarchy engage in a discussion about the contribution queer theory makes to PACS and tussle with the notion of inclusivity with considerations of both gender and disability It then ends with a discussion about the contribution feminist methodologies make to PACS

No Turning Back Estelle Freedman, 2007-12-18 Repeatedly declared dead by the media the women s movement has never been as vibrant as it is today Indeed as Stanford professor and award winning author Estelle B Freedman argues in her compelling new book feminism has reached a critical momentum from which there is no turning back A truly global movement as vital and dynamic in the developing world as it is in the West feminism has helped women achieve authority in politics sports and business and has mobilized public concern for once taboo issues like rape domestic violence and breast cancer And yet much work remains before women attain real equality In this fascinating book Freedman examines the historical forces that have fueled the feminist movement over the past two hundred years and explores how women today are looking to feminism for new approaches to issues of work family sexuality and creativity Freedman begins with an incisive analysis of what feminism means and why it took root in western Europe and the United States at the end of the eighteenth century The rationalist humanistic philosophy of the Enlightenment which ignited the American Revolution also sparked feminist politics inspiring such pioneers as Mary Wollstonecraft and Susan B Anthony Race has always been as important as gender in defining feminism and Freedman traces the intricate ties between women s rights and abolitionism in the United States in the years before the Civil War and the long tradition of radical women of color stretching back to the impassioned rhetoric of Sojourner Truth As industrialism and democratic politics spread after World War II feminist politics gained momentum and sophistication throughout the world Their impact began to be felt in every aspect of society from the workplace to the chambers of government to relations between the sexes Because of feminism Freedman points out the line between the personal and the political has blurred or disappeared and issues once considered merely private abortion sexual violence homosexuality reproductive health beauty and body image have entered the public arena as subjects of fierce ongoing debate Freedman combines a scholar s meticulous research with a social critic s keen eye Sweeping in scope searching in its analysis global in its perspective **No Turning Back** will stand as a defining text in one of the most important social movements of all time

As Goes Bethlehem Jill A. Schennum,2023-08-15 The steel industry played a central role in building post World War II economic success in the US and in defining the parameters of the post World War II social contract As these long term processes both preceded and contributed to the Great Recession a new capitalism one in which banks and the credit system took precedence over industrial production changed the lives of many American workers including steelworkers As Goes Bethlehem raises important questions about why workers and their unions were not able to successfully contest this attack on industrial labor instead settling for best navigating a long downward trajectory Through the experiences and reflections of steelworkers Jill A Schennum demonstrates the significance of work and particularly of industrial work in giving meaning to people s lives identities and sense of worth She uses workers narratives and voices to show the importance of work space time and social relations rejecting dominant interpretations of blue collar workers as alienated from their work but well paid and co opted by a middle class standard of living Schennum covers thirty five years of investment and disinvestment managerial initiatives transfer decisions layoffs and downsizings external transfers the eventual bankruptcy of the Bethlehem Steel Corporation and movement into retirement unemployment and new postindustrial jobs The very solidarities rights of citizenship and rule of law forged in the mill and built on by the union were constructed in part through exclusions based on race ethnicity gender and region These lines of fracture were mobilized to undermine working class strength in the postindustrial period Through the experiences of African American Puerto Rican coal country and women workers in the steel mills this book explores these issues of fracture and solidarity

The Women's Movement against Sexual Harassment Carrie N.

Baker,2007-12-03 *The Women's Movement Against Sexual Harassment* examines how a diverse grassroots social movement created public policy on sexual harassment in the 1970s and 1980s. The collaboration of women from varying racial, economic, and geographic backgrounds strengthened the movement by representing the perspectives and activism of a broad range of women. Based on interviews and voluminous original research, this book is the first to show how the movement against sexual harassment fundamentally changed American life in ways that continue to advance women's opportunities today. What's Missing? Rena Pederson,2004-02-03 In *What's Next: Inspiration for Women Seeking Faith and Joy in Their Lives*, Rena Pederson helped thousands of women discover their own next step by looking to the lives of successful women, famous and not so famous, who redefined themselves in midlife. Now in *What's Missing*, she engages another group of women in a conversation on the nature of faith from various traditions to help you rediscover its importance in your own life. From First Lady Laura Bush to singer Patti LaBelle and journalist Diane Sawyer, the women interviewed have a spiritual foundation that has given them the strength to overcome obstacles and achieve success in their lives. These women, along with others from around the nation, reveal how faith in its many forms helped them withstand life's pitfalls and emerge happier, healthier, and stronger. *What's Missing* will help you examine what's missing from your life and how faith can give you direction. Inside, you'll find inspiring wisdom on how to pray, the importance of listening to others and to God, how doubting and questioning can strengthen your faith, how to turn your faith into action, and how faith can help reassure you in the midst of life's uncertainties. Whether you are turning to faith for the first time or renewing beliefs, this book will be a wonderful companion. Includes insights from First Lady Laura Bush, Diane Sawyer, Karen Armstrong, Patti LaBelle, Judy Collins, Peggy Noonan, Zina Garrison, Naomi Harris, Rosenblatt, Rabbi Janet Marder, Linda Alvarado, Anne Graham Lotz, Beth Moore, Hind Jarrah, Sister Joan Chittister, Rep. Nancy Pelosi, and many others. The Alchemy of Illness Kat Duff,1993 Illness is a universal experience. There is no privilege that can make us immune to its touch. We are taught to assume health, illnesses being just temporary breakdowns in the well-oiled machinery of the body. But illness has its own geography, its own laws and commandments. At a time when the attention of the whole nation is focused on health care, Kat Duff inquires into the nature and function of illness itself. Duff, a counselor in private practice in Taos, New Mexico, wrote this book out of her experience with chronic fatigue syndrome, but what she has to say is applicable to every illness and every one of us. For those who are sick, this book offers solace and recognition. For those who care for them, either physically or emotionally, it offers inspiration and compassion. Finally, this fresh perspective on healing reveals how every illness is a crucible that tries our mettle, tests our limits, and provides us with an unparalleled opportunity to integrate its lessons into our lives. **Good Guys, Wiseguys and Putting Up Buildings** Samuel C.
