The Harmony Of The Gospels St. Augustine of Hippo,2012 This is the extended and annotated edition including an extensive biographical annotation about the author and his life Book I The treatise opens with a short statement on the subject of the authority of the Evangelists their number their order and the different plans of their narratives Augustine then prepares for the discussion of the questions relating to their harmony by joining issue in this book with those who raise a difficulty in the circumstance that Christ has left no writing of His own or who falsely allege that certain books were composed by Him on the arts of magic He also meets the objections of those who in opposition to the evangelical teaching assert that the disciples of Christ at once ascribe more to their Master than He really was when they affirmed that He was God and inculcated what they had not been instructed in by Him when they interdicted the worship of the gods Against these antagonists he vindicates the teaching of the Apostles by appealing to the utterances of the Prophets and by showing that the God of Israel was to be the sole object of worship who also although He was the only Deity to whom acceptance was denied in former times by the Romans and that for the very reason that He prohibited them from worshipping other gods along with Himself has now in the end made the Empire of Rome subject to His Name and among all nations has broken their idols in pieces through the preaching of the Gospel as He had promised by His prophets that the event should be Book II In this book Augustine undertakes an orderly examination of the Gospel according to Matthew on to

the narrative of the Supper and institutes a comparison between it and the other Gospels by Mark Luke and John with the view of demonstrating a complete harmony between the four Evangelists throughout all these sections Book III This book contains a demonstration of the harmony of the Evangelists from the accounts of the Supper on to the end of the Gospel the narratives given by the several writers being collated and the whole arranged in one orderly connection Book IV This book embraces a discussion of those passages which are peculiar to Mark Luke or John *A Harmony of the Four Gospels: in which the Natural Order of Each is Preserved* James Macknight,1809
