Art and Resistance in Germany Deborah Ascher Barnstone, Elizabeth Otto, 2018-11-01 In light of the recent rise of right wing populism in numerous political contexts and in the face of resurgent nationalism racism misogyny homophobia and demagoguery this book investigates how historical and contemporary cultural producers have sought to resist confront confound mock or call out situations of political oppression in Germany a country which has seen a dramatic range of political extremes during the past century While the current turn to nationalist populism is global it is perhaps most disturbing in Germany given its history with its stormy first democracy in the interwar Weimar Republic its infamous National Socialist Nazi period of the 1930s and 1940s and its split Cold War existence with Marxist Leninist Totalitarianism in the German Democratic Republic and the Federal Republic of Germany's barely hidden ties to the Nazi past Equally important Germans have long considered art and culture critical to constructions of national identity which meant that they were frequently implicated in political action This book therefore examines a range of work by artists from the early twentieth century to the present work created in an array of contexts and media that demonstrates a wide range of

possible resistance **Women in the Metropolis** Katharina von Ankum, 2023-09-01 Bringing together the work of scholars in many disciplines *Women in the Metropolis* provides a comprehensive introduction to women's experience of modernism and urbanization in Weimar Germany. It shows women as active participants in artistic, social and political movements and documents the wide range of their responses to the multifaceted urban culture of Berlin in the 1920s and 1930s. Examining a variety of media ranging from scientific writings to literature and the visual arts, the authors trace gendered discourses as they developed to make sense of and regulate emerging new images of femininity. Besides treating classic films such as *Metropolis* and *Berlin: Symphony of a Great City*, the articles discuss other forms of mass culture including the fashion industry and the revue performances of Josephine Baker. Their emphasis on women's critical involvement in the construction of their own modernity illustrates the significance of the Weimar cultural experience and its relevance to contemporary gender, German film and cultural studies.

Bringing together the work of scholars in many disciplines *Women in the Metropolis* provides a comprehensive introduction to women's experience of modernism and urbanization in Weimar Germany. It shows women as active participants in artistic society.

Sport and the European Avant-Garde (1900-1945), 2022-02-07 What has been the significance of sport for the European avant-garde in the first half of the 20th century? From an international and interdisciplinary perspective, we show the extent to which avant-garde art and culture was shaped by the dynamic encounter with modern sports. Our focus lies on avant-garde artists, groups, movements and institutions across Europe, including Cubism, Futurism, Vorticism, Purism, Expressionism, Dada, the Bauhaus, Constructivism in Central and Eastern Europe, thereby unfolding the diversity of avant-garde responses to modern sports. The book in front of you includes fascinating readings in the fields of aesthetics, visual cultures, cultural history and politics and highlights why specific kinds of sport such as cycling, boxing and football became important for avant-garde movements and artists.

The Dada Cyborg Matthew Biro, 2009 In an era when technology, biology, culture are becoming ever more closely connected, *The Dada Cyborg* explains how the cyborg, as we know it today, developed between 1918-1933 as German artists gave visual form to their utopian hopes, fantasies in a fearful response to World War I.

Grotesque Visions Thomas O. Haakenson, 2021-05-06 *Grotesque Visions* focuses on the radical avant-garde interventions of Salomo Friedlender aka Mynona Til Brugman and Hannah Hoch as they challenged the questionable practices and evidentiary claims of late 19th and early 20th century science. Demonstrating the often excessive measures that pathologists, anthropologists, sexologists and medical professionals went to present their research in a seemingly unambiguous way, this volume shows how Friedlender, Mynona Brugman, Hoch and other Berlin-based artists used the artistic grotesque to criticize, satirize and subvert a variety of forms of supposed scientific objectivity. The volume concludes by examining the exhibition *Grotesk 130 Jahre Kunst der Frechheit*, *Comic Grotesque*, *Wit and Mockery in German Arts 1870-1940*. In contrast to the ahistorical and amorphous concept informing the exhibition, Thomas O. Haakenson reveals a unique deployment of the artistic grotesque that targeted specific established and emerging scientific discourses at the turn

of the last fin de siècle **Women Artists in the 20th and 21st Century** Ilka Becker, 2001 Taschen's inventive layout is effective in presenting the provocative works, words and biographies of the nearly 100 women artists gathered here. Grosenick, a freelance art historian in Germany, has selected women artists working in Germany, the US, South Africa, Japan, Poland, France, Scandinavia, and Spain among other countries. The entry for each artist is six pages, with much of the space devoted to good quality color photos of her work. c. Book News Inc.

DADA, Surrealism, and the Cinematic Effect R. Bruce Elder, 2015-10-15 This book deals with the early intellectual reception of the cinema and the manner in which art theorists, philosophers, cultural theorists, and especially artists of the first decades of the twentieth century responded to its advent. While the idea persists that early writers on film were troubled by the cinema's lowly form, this work proposes that there was another, largely unrecognized strain in the reception of it. Far from anxious about film's provenance in popular entertainment, some writers and artists proclaimed that the cinema was the most important art for the moderns, as it exemplified the vibrancy of contemporary life. This view of the cinema was especially common among those whose commitments were to advanced artistic practices. Their notions about how to recast the art media or the forms forged from those media's materials and the urgency of doing so formed the principal part of the conceptual core of the artistic programs advanced by the vanguard art movements of the first half of the twentieth century. This book, a companion to the author's previous *Harmony and Dissent*, examines the Dada and Surrealist movements as responses to the advent of the cinema.

Women in Dada Naomi Sawelson-Gorse, 2001 This book is the first to make the case that women's changing role in European and American society was critical to Dada.

German Post-Expressionism : The Art of the Great Disorder 1918-1924 , German Post-Expressionism is the first study to reconstruct historically the evolution of *Die neue Sachlichkeit*, the slogan coined as a designation for the Post-Expressionist figural art that developed throughout Germany following the failed revolution of 1919. Rather than starting with the moment this Post-Expressionist movement was christened with a slogan, 1923, Crockett investigates the sources and precepts of Post-Expressionism, beginning with the anti-Expressionist stance of Dada in 1918 and the loss of faith in Expressionism on the part of some of its chief supporters during 1919-20.

Art and visual culture: Medieval to modern The Open University, This 10-hour free course explored the fundamental issues raised by the study of western art and visual culture over the last millennium.
