Memory in Early Modern Europe, 1500-1800 Judith Pollmann, 2017-08-04 For early modern Europeans the past was a measure of most things good and bad For that reason it was also hotly contested manipulated and far too important to be left to historians alone Memory in Early Modern Europe offers a lively and accessible introduction to the many ways in which Europeans engaged with the past and practised memory in the three centuries between 1500 and 1800 From childhood memories and local customs to war traumas and peacekeeping it analyses how Europeans tried to control mobilize and reconfigure memories of the past Challenging the long standing view that memory cultures transformed around 1800 it argues for the continued relevance of early modern memory practices in modern societies **Looking East in Winter**

Bernauer, 2012-12-06 The title of our collection is owed to Hannah Arendt herself Writing to Karl Jaspers on August 6 1955 she spoke of how she had only just begun to really love the world and expressed her desire to testify to that love in the title of what came to be published as The Human Condition Out of gratitude I want to call my book about political theories Amor Mundi t In retrospect it was fitting that amor mundi love of the world never became the title of only one of Arendt s studies for it is the theme which permeates all of her thought The purpose of this volume s a ticles is to pay a critical tribute to this

theme by exploring its meaning the cultural and intellectual sources from which it derives as well as its resources for contemporary thought and action We are privileged to include as part of the collection two previously unpublished lectures by Arendt as well as a rarely noticed essay which she wrote in 1964 Taken together they engrave the central features of her vision of amor mundi Arendt presented Labor Work Action on November 10 1964 at a conference Christianity and Economic Man Moral Decisions in an Affluent Society which 2 was held at the Divinity School of the University of Chicago From Babel to AI Dawn Lewis Sutherland,2025-03-21 From Babel to AI Idolatry Transhumanism and the Crisis of Imago Dei confronts the profound questions of human identity and purpose in an age dominated by technological innovation Drawing from biblical narratives like the Tower of Babel this thought provoking work explores how artificial intelligence transhumanism and other modern advancements echo ancient struggles with idolatry and hubris At its core this book calls readers to rediscover the doctrine of the imago Dei the belief that humanity is created in the image of God as the foundation for addressing the ethical and theological challenges of our time Through compelling analysis and case studies it unpacks the dangers of dehumanizing technologies and offers a robust theological framework for engaging them while safeguarding human dignity and relationality Whether readers are a scholar church leader or thoughtful believer wrestling with the implications of AI and transhumanism From Babel to AI will inspire all to think deeply act faithfully and reclaim humanity's divine purpose in a rapidly changing world

Writing the Body Politic Mark Featherstone,Thomas Kemple,2019-08-08 This book brings together key essays from the career of social theorist John O'Neill including his uncollected later writings focusing on embodiment to explore the different ways in which the body trope informs visions of familial economic personal and communal life Beginning with an exploration of O'Neill's work on the construction of the biobody and the ways in which corporeality is sutured into social systems through regimes of power and familial socialisation the book then moves to concentrate on O'Neill's career long studies of the productive body and the ways in which the working body is caught in and resists disciplinary systems that seek to rationalise natural functions and control social relations The third section considers O'Neill's concern with the ancient early modern and psychoanalytic sources of the post modern libidinal body and a final section on the civic body focuses specifically on the ways in which principles of reciprocity and generosity exceed the capitalist individualist body of neo liberal political theory The volume also includes an interview with O'Neill addressing many of the key themes of his work a biographical note with an autobiographical postscript a select bibliography of O'Neill's many publications and an extensive introduction by the editors A challenging and innovative collection Writing the Body Politic A John O'Neill Reader will appeal to critical social theorists and sociologists with interests in the work of one of sociology's great critical readers of classical and contemporary texts
