Historical Evidence and Argument David Henige, 2006-01-20 Historians know about the past because they examine the evidence But what exactly is evidence how do historians know what it means and how can we trust them to get it right Historian David Henige tackles such questions of historical reliability head on in his skeptical unsparing and acerbically witty *Historical Evidence and Argument* Systematic doubt is his watchword and he practices what he preaches through a variety of insightful assessments of historical controversies for example over the dating of artifacts and the textual analysis of translated documents Skepticism Henige contends forces us to recognize the limits of our knowledge but is also a positive force that stimulates new scholarship to counter it War Elephants John M. Topographic Memory and Victorian Travellers in the Dolomite Mountains William Bainbridge, 2025-10-01 Guided by the romantic compass of Turner Byron and Ruskin Victorian travellers to the Dolomites sketched in the mountainous backdrop of Venice a cultural Petit Tour of global significance As they zigzagged across a debatable land between Italy and Austria Victorians discovered a unique geography characterized by untrodden peaks and unfrequented valleys The discovery of this landscape blended aesthetic scientific and cultural values utterly different from those engendered by the bombastic conquests of the Western Alps achieved during the Golden Age of Mountaineering Filtered through memories of the Venetian Grand Tour the Victorian encounter with the Dolomites is revealed through a series of distinct cultural practices that paradigmatically define a Silver Age of Mountaineering This book shows how these practices are more ethnographic than imperialistic more feminine than masculine more artistic than sportive rather than racing to summits the Silver Age is about rambling rather than conquering peaks it is about sketching them in an intimate interaction with the Dolomite landscape
