**Between the Avant-garde and the Everyday** Timothy Brown, Lorena Anton, 2011-07-01 The wave of anti authoritarian political activity associated with the term 1968 can by no means be confined under the rubric of protest understood narrowly in terms of street marches and other reactions to state initiatives Indeed the actions generated in response to 1968 frequently involved attempts to elaborate resistance within the realm of culture generally and in the arts in particular This blurring of the boundary between art and politics was a characteristic development of the political activism of the postwar period This volume brings together a group of essays concerned with the multifaceted link between culture and politics highlighting lesser known case studies and opening new perspectives on the development of anti authoritarian politics in Europe from the 1950s to the fall of Communism and beyond

**Permission to Laugh** Gregory H. Williams,2012-06-12

Permission to Laugh explores the work of three generations of German artists who beginning in the 1960s turned to jokes and wit in an effort to confront complex questions regarding German politics and history Gregory H Williams highlights six of them Martin Kippenberger Isa Genzken Rosemarie Trockel Albert Oehlen Georg Herold and Werner B ttner who came of age in the mid 1970s in the art scenes of West Berlin Cologne and Hamburg Williams argues that each employed a distinctive brand of humor that responded to the period of political apathy that followed a decade of intense political ferment in West Germany Situating these artists between the politically motivated art of 1960s West Germany and the trends that followed German unification in 1990 Williams describes how they no longer heeded calls for a brighter future turning to jokes anecdotes and linguistic play in their work instead of overt political messages He reveals that behind these practices is a profound loss of faith in the belief that art has the force to promulgate political change and humor enabled artists to register this changed perspective while still supporting isolated instances of critical social commentary Providing a much needed examination of the development of postmodernism in Germany Permission to Laugh will appeal to scholars curators and critics invested in modern and contemporary German art as well as fans of these internationally renowned artists

**Framed Visions** Gerd Gemunden,2025-10-01

Framed Visions analyzes the pivotal role American mass media and popular culture have played in shaping the political social and psychological identity of postwar Germans and Austrians Through detailed readings of films novels plays and poems of a variety of contemporary artists including Rainer Werner Fassbinder Wim Wenders Elfriede Jelinek Herbert Achternbusch Monika Treut Peter Handke and Rolf Dieter Brinkmann Gerd Gemunden reveals the paradoxical stance of this generation toward American politics and Hollywood aesthetics On the one hand they are pulled toward a culture that has shaped childhood images tastes and desires on the other they reject American politics and the colonizing effect of its mass culture In contrast to most scholarship about the reception of U S culture abroad this study underscores the imaginary relation of contemporary German and Austrian artists to America Topics such as Americanization and cultural imperialism are therefore treated not as a foreign principle imposed from the outside but as ways that German and Austrian artists have tried to come to terms with their own problematic culture and history Gem\_nden's study elucidates how the culture of the United States has been mapped in contradictory ways onto questions of national and cultural identity in Germany and Austria over the last thirty years Gerd Gemunden is Assistant Professor of German and Comparative

*Leaving the 20th Century* Christopher Gray, 2014-09-09 The first Situationist text to be published in the UK in 1974 Leaving the 20th Century was Chris Gray and the English situationists attempt to capture and distil the vibrant anti art anti capitalist energy of the original International Situationist texts 1957 74 With its loose translations and irreverent commentary Gray and co attempted to capture the terrorism wit and general megalomania of the original publications whilst faithfully reprinting the photographs of girls soldiers bombings comic strip frames maps of cities and diagrams of labyrinths cathedrals and gardens From the art anti art beginnings to the role of the Situationists in the worker student insurrection of May 68 Leaving the 20th Century remains the definitive English pro situ text      *The Authority of Everyday Objects* Paul Betts, 2007-12-07 Paul Betts first came to my attention through his pioneering article on the post 1945 Bauhaus myth as a joint German American venture This book is a landmark study of cultural continuities and ruptures institutional realignments and individual careers that introduces a breath of fresh air into a field of research long staled by received ideas It demonstrates the rewards of approaching the years from 1933 to 1945 as a revealing window onto the subsequent history of West Germany Wolfgang Schivelbusch *The Authority of Everyday Objects* is a small gem of the new cultural history This is a work of striking originality and insight that fits the development of industrial design in postwar Germany into the country s broader social cultural and political history constructing an analytical narrative that carries from the Third Reich into the Cold War It illuminates not merely cultural transformation but the wider social history of twentieth century Germany Stanley G Payne author of *A History of Fascism 1914 1945* *The Authority of Everyday Objects* is a refreshing innovative and convincing approach to post World War II Western consumer society Design as a weapon in Cold War competition and as a vehicle for German redemption by revitalizing Bauhaus traditions is thoroughly researched and wonderfully presented in Paul Betts book This well illustrated work convinces the reader that design was a part of gluecklich Leben lucky life and schoen wohnen beautiful living and a factor in the politicization of material culture Ivan T Berend author of *Decades of Crisis Central and Eastern Europe before World War II* and *History Derailed Central and Eastern Europe in the Long Nineteenth Century*      **Utopia and Dissent in West Germany** Mia Lee, 2019-01-22 Just as Chancellor Konrad Adenauer was seeking re election on a campaign of no experiments art avant garde groups in West Germany were reviving the utopian impulse to unite art and society *Utopia and Dissent in West Germany* examines these groups and their legacy Postwar artists built

international as well as intergenerational networks such as Fluxus which was active in Düsseldorf, Wiesbaden and Cologne and the Situationist International based in Paris. These groups were committed to undoing the compartmentalization of everyday life and the isolation of the artist in society. And as artists recast politics to address culture and everyday life, they helped forge a path for the West German extraparliamentary left. *Utopia and Dissent in West Germany* traces these connections and presents a chronological map of the networks that fed into the extraparliamentary left as well as a geographical map of increasing radicalism as the locus of action shifted to West Berlin. These two maps show that in West Germany, artists and their interventions in the structures of everyday life were a key starting point for challenging the postwar order.

***Give Me the Now*** Rudolf Zwirner, Nicola Kuhn, 2021-01-26 Rudolf Zwirner, the man who invented the art market as coined in *Der Spiegel*, reflects on more than sixty years in the art business in his authoritative autobiography. Americans now see Germany as a natural breeding ground for mighty gallerists and collectors, but Rudolf Zwirner's fascinating new memoir walks us through the decades it took to rebuild an art world shattered by World War II. In this dealer's charming telling, however, the work involved sounds more like play than labor. Blake Gopnik, author of *Warhol*: An art dealer of the ages. Rudolf Zwirner, father of the esteemed gallerist David Zwirner, reached many milestones in his career. From cofounding Art Cologne, the first fair for contemporary art in 1967, to showing works by Georg Baselitz, Gerhard Richter, and Andy Warhol, Zwirner transformed the contemporary art scene in Cologne. Born in 1933, he presented more than three hundred exhibitions from the early 1960s to 1992. In his autobiography, Zwirner reveals stories of artists, his gallery, and his most important collector, Peter Ludwig, whose collection forms the cornerstone of the Ludwig Museum in Cologne. First published in 2019 in German and translated and adapted here for the first time in English, the book explores the most significant moments of Zwirner's career and the fast-changing postwar art world. Also included in this edition is a new foreword by Lucas Zwirner, Rudolf's grandson, who reflects on his grandfather's role in bringing us to the global art landscape we find ourselves in now.

***Nuclear Threats, Nuclear Fear and the Cold War of the 1980s*** Eckart Conze, Martin Klimke, Jeremy Varon, 2017 The book brings together cutting-edge scholarship from the United States and Europe to address political and cultural responses to the arms race of the 1980s.

***Avant-Garde, Internationalism, and Politics*** Andrea Giunta, 2007-07-16 *DIVAn* exploration of the impact of the 1960s and the U.S. post-cold war moment on the reception of Latin American art and artists.

***Modern Art and the Death of a Culture*** Hendrik Roelof Rookmaaker, 1994 Uses popular and lesser-known paintings to show modern art's reflection of a dying culture and how Christian attitudes can create hope in today's society.

***Sounds*** Wassily Kandinsky, 2019-09-13 Now in an updated English edition with full-color illustrations, Kandinsky's fascinating and witty artist's book represents a crucial moment in the painter's move toward abstraction.

***Theatres of Architectural Imagination*** Lisa Landrum, Sam Ridgway, 2023-05-17 This volume explores connections between architecture and theatre and encourages imagination in the design of buildings and social spaces.

Imagination is arguably the architect's most crucial capacity underpinning memory invention and compassion. No simple power of the mind, architectural imagination is deeply embodied, social and situational. Its performative potential and holistic scope may be best understood through the model of theatre. *Theatres of Architectural Imagination* examines the fertile relationship between theatre and architecture with essays, interviews and entr'actes arranged in three sections: Bodies, Settings and Inter Actions. Contributions explore a global spectrum of examples and contexts from ancient Rome and Renaissance Italy to modern Europe, North America, India, Iran and Japan. Topics include the central role of the human body in design, the city as a place of political drama, protest and phenomenal play, and world making through language, gesture and myth. Chapters also consider sacred and magical functions of theatre in Balinese and Persian settings, eccentric experiments at the Bauhaus and 1970 Osaka World Expo, and ecological action and collective healing amid contemporary climate chaos. Inspired by architect and educator Marco Frascari, the book performs as a Janus-like memory theatre, recalling and projecting the architect's perennial task of reimagining a more meaningful world. This collection will delight and provoke thinkers and makers in theatrical arts and built environment disciplines, especially architecture, landscape and urban design.

Americanization and Anti-americanism Alexander Stephan, 2007-08-01. The ongoing discussions about globalization, American hegemony and September 11 and its aftermath have moved the debate about the export of American culture and cultural anti-Americanism to center stage of world politics. At such a time it is crucial to understand the process of culture transfer and its effects on local societies and their attitudes toward the United States. This volume presents Germany as a case study of the impact of American culture throughout a period characterized by a totalitarian system, two unusually destructive wars, massive ethnic cleansing and economic disaster. Drawing on examples from history, culture studies, film, radio and the arts, the authors explore the political and cultural parameters of Americanization and anti-Americanism as reflected in the reception and rejection of American popular culture and more generally in European-American relations in the American Century.
