**Architecture in Dialogue with an Activated Ground** Urs Bette, 2020-03-30 Architecture in Dialogue with an Activated Ground sets out to validate the role of the unreasonable in the design process Using case study projects architect Urs Bette gives an insight into the epistemological processes of his creative practice and unveils the strategies he deploys in order to facilitate the poetic aspects of architecture within a discourse whose evaluation parameters predominantly involve reason Themes discussed include the emergence of space from the staged opposition between the architectural object and the site and the relationship between emotive cognition and analytic synthesis in the design act In both cases there is a necessary engagement with forms of unreasonable thought action or behaviours By arguing for the usefulness and validity of the unreasonable in architecture and by investigating the performative relationship between object and ground Bette contributes to the discourse on extensions growth and urban densification that tap into local histories and voices including those of the seemingly inanimate the architecture itself and the ground it sits upon to inform the site related production of architectural

character and space In doing so he raises debates about the values pursued in design approval processes and the ways in which site relatedness is both produced and judged **Arts & Humanities Citation Index**, 1988 A multidisciplinary index covering the journal literature of the arts and humanities It fully covers 1 144 of the world s leading arts and humanities journals and it indexes individually selected relevant items from over 6 800 major science and social science journals

Architectural Drawings as Investigating Devices Marianna Charitonidou, 2023-07-10 Architectural Drawings as Investigating Devices explores how the changing modes of representation in architecture and urbanism relate to the transformation of how the addressees of architecture and urbanism are conceived The book diagnoses the dominant epistemological debates in architecture and urbanism during the 20th and 21st centuries It traces their transformations paying special attention to Le Corbusier and Ludwig Mies van der Rohe s preference for perspective representation to the diagrams of Team 10 architects to the critiques of functionalism and the upgrade of the artefactual value of architectural drawings in Aldo Rossi John Hejduk Peter Eisenman and Oswald Mathias Ungers and finally to the reinvention of architectural programme through the event in Bernard Tschumi and the Office for Metropolitan Architecture OMA Particular emphasis is placed on the spirit of truth and clarity in modernist architecture the relationship between the individual and the community in post war era architecture the decodification of design process as syntactic analogy and the paradigm of autonomy in the 1970s and 1980s architecture the concern about the dynamic character of urban conditions and the potentialities hidden in architectural programme in the post autonomy era This book is based on extensive archival research in Canada the USA and Europe and will be of interest to architects artists researchers and students in architecture architectural history theory cultural theory philosophy and aesthetics The Architecture of Hans Hollein Lawrence Von Bamford, 1994 *Furniture and Interiors of the 1970s* Anne Bony, Ivan Rakočević, 2005 The 1970s a revolutionary decade born out of the turbulent late 1960s during which militant outspokenness and cultural unrest shook up society with lasting effects Protest against cultural norms and a disillusionment in consumerism went hand in hand with a strong sense of social commitment that propelled radical creative and functional changes in design Furniture and Interiors of the 1970s bears witness to the fusion of influences both societal and individual that took hold during this explosive decade and catapulted design into its contemporary framework BOOK JACKET **Words & Works** Gerardo Brown-Manrique, 1989 **Hans Hollein, Design** Hans Hollein, 1989 Index to Craft Journals, 1984-1988: Personal subjects, corporate subjects Beth Hatton, 1990 Unidentified Flying Object for Contemporary Architecture Beatrice Lampariello, Andrea Anselmo, Boris Hamzeian, 2022-10-18 The first monographic publication focused on the Florentine UFO group 1968 1978 that conducts a historical analysis of its work reveals its close relationship with the contemporary artistic literary and architectural avant garde and finally investigates its legacy for the contemporary project The contemporary context is defined by a unique conjuncture On one hand we witness the revival of the Radical Architecture that from the avant garde experiments of the

origins recovers creative processes and iconographic fragments while nullifying the original ideological and political values. On the other hand we see social protests in defense of fundamental rights of democracy as in 1968. With these premises Architecture is now reinvestigating those ephemeral experiments that have endured half a century as new stone monuments capable of indicating new perspectives for both research and design. Placing UFO group one of the authors of those still poorly known monuments at the core of the contemporary debate means investigating their formal and seductive aspects but also the ideological, political and social values with which objects, installations and happenings have been innervated, transforming them into devices of an architecture nourished by literature, art and political commitment for the foundation of an eloquent and activist project even more radical than the well known Superstudio and Archizoom. The collaboration between Beatrice Lampariello, an architecture historian specialized in the 1960s and 1970s, and False Mirror Office, a group of historians and designers engaged in the rediscovery of UFO group, lead to a monograph focused on the UFO's work and an evaluation of their legacy relative to contemporary architecture. This monograph is composed of three sections: 1. History, a first ever study of UFO by False Mirror Office via analysis of all archival and bibliographic sources as well as a series of interviews with UFO members and a collection of its writings published and unpublished for the first time translated into English; 2. Context, composed of essays by historians and architectural theorists Beatrice Lampariello, Simon Sadler, Anna Rosellini, Giovanni Galli, Jacopo Galimberti, intended to place UFO's work in the context of the avant garde that influenced its work from the experience of Florentine Radical Architecture to Umberto Eco's theories on semiotics and the American experiences between Pop Art, Video Art and Happening; 3. Legacy, articulated through graphic contribution and essays by young designers as False Mirror Office, Parasite 20 Point, Supreme Jimenez Lai, Andrew Kovacs, Adam Nathaniel Furman, Traumnovelle, ab Normal and Peter Behrbohm to investigate UFO's legacy relative to the contemporary revival of the most distinguishing creative processes and obsessions that shaped the so called Radical Architecture. Contributions by Beatrice Lampariello, Boris Hamzeian and Andrea Anselmo, False Mirror Office, Gloria Castellini, False Mirror Office, Simon Sadler, Anna Rosellini, Giovanni Galli, Jacopo Galimberti, Filippo Fanciotti and Giovanni Glorialanza, False Mirror Office, Parasite 20 Point, Supreme Jimenez Lai, Bureau Spectacular, Andrew Kovacs, Adam Nathaniel Furman, Traumnovelle, ab Normal, Peter Behrbohm.
