Paulson, Anders Skare Malvik, 2016-02-03 How does contemporary literature respond to the digitalized media culture in which it takes part And how do we study literature in order to shed light on these responses Under the subsections Technology Subjectivity and Aesthetics *Literature in Contemporary Media Culture* sets out to answer these questions The book shows how literature over the last decade has charted the impact of new technologies on human conduct It explores how changes in literary production distribution and consumption can be correlated to changes in social practices more generally And it examines how and if contemporary media culture affects our understanding of literary aesthetics Addressing Scandinavian and Anglo American poetry and fiction produced around the beginning of the present century *Literature in Contemporary Media Culture* highlights both well known and unfamiliar literary texts It offers cross disciplinary methodological tools and reading strategies for studying literary phenomena such as intermedial aesthetics the autobiographical novel conceptual literature and digital poetry all of which are prevalent across national borders at the outset of the twenty first century This book will be of interest to students and established scholars in the fields of literature film and media studies and visual studies as well as to members of the general reading public

**Terrorism and Modern Literature** Alex Houen, 2002-09-12 Is terrorism s violence essentially symbolic Does it impact on culture primarily through the media What kinds of performative effect do the various discourses surrounding terrorism have Such questions have not only become increasingly important in terrorism studies they have also been concerns for many literary writers This book is the first extensive study of modern literature s engagement with terrorism Ranging from the 1880s to the 1980s the terrorism examined is as diverse as the literary writings on it chapters include discussions of Joseph Conrad s novels on Anarchism and Russian Nihilism Wyndham Lewis s avant garde responses to Syndicalism and the militant Suffragettes Ezra Pound s poetic entanglement with Segregationist violence Walter Abish s fictions about West German urban guerrillas and Seamus Heaney s and Ciaran Carson s poems on the Troubles in Northern Ireland In each instance Alex Houen explores how the literary writer figures clashes or collusions between terrorist violence and discursive performativity What is revealed is that writing on terrorism has frequently involved refiguring the force of literature itself In terrorism studies the cultural impact of terrorism has often been accounted for with rigid structural theories of its discursive roots But what about the performative effects of violence on discourse Addressing the issue of this mutual contagion *Terrorism and Modern Literature* shows that the mediation and effects of terrorism have been historically variable Referring to a variety of sources in addition to the literature newspaper and journal articles legislation letters manifestos the book shows how terrorism and the literature on it have been embroiled in wider cultural fields The result is not just a timely intervention in debates about terrorism s performativity Drawing on literary critical

theory and philosophy it is also a major contribution to debates about the historical and political dimensions of modernist and postmodernist literary practices

*Art and Street Politics in the Global 1960s* William Marotti, 2023-04-28 Anarchic street performances in late 1950s Japan inauguration of the first Happenings in Antwerp and charging of the magic circle in Amsterdam Bauhaus Situationiste and anti national art exchanges networks and communes As Happener and Art Missionary Yoshio Nakajima's storied career traverses an astounding range of locations scenes movements media and performance modes in the global 1960s and 1970s in ways that challenge our notions of the possibilities of art Nakajima repeatedly plays a role in jump starting spaces of possibility from Tokyo to Ubbesbodavägen from Spui Square and the Dutch Provos to Antwerp and Sweden Despite this Nakajima's work has paradoxically been largely excluded from accounts where it might have justifiably featured The present volume represents an international collaboration of researchers working to remedy this oversight Nakajima's work demands a reconceptualization of narratives of this art and politics and their specific interrelation to consider his exemplary nonconformity and its exemplary exclusion This history demonstrates the inadequacy of notions of specificity that would oppose an authentic local or national frame to an inauthentic transnational one Conversely Nakajima manifests a key dimension of the 1960s as a global event in the interrelation between eventfulness itself and the redrawing of categories of practice and understanding

essential introduction to a fascinating and rapidly expanding new field of media studies      *Psychoanalysis and Performance* Patrick Campbell, Adrian Kear, 2002-09-11 In this volume some of the most distinguished thinkers in the field make an exciting new connection based on the dual principle that psychoanalysis can provide a productive framework for understanding the work of performance and that performance itself can help to investigate the problem of identity      *Data Made Flesh* Robert Mitchell, Phillip Thurtle, 2013-02-01 In an age of cloning cyborgs and biotechnology the line between bodies and bytes seems to be disappearing DataMade Flesh is the first collection to address the increasingly important links between information and embodiment at a moment when we are routinely tempted in the words of Donna Haraway to be raptured out of the bodies that matter in the lust for information whether in the rush to complete the Human Genome Project or in the race to clone a human being      **Pragmatics and the Flexibility of Word Meaning** Eniko Nemeth, Károly Bibok, 2022-02-22 Recently the investigation of word meaning in utterances has connected two different fields lexical semantics and pragmatics A new linguistic discipline namely lexical pragmatics is emerging The eleven papers of the present book constitute a unit in the sense that they have a common aim to explore the interaction between lexical semantics and pragmatics The authors examine phenomena such as productive sense extension regular polysemy multifunctionality implicit arguments and predicates and non typical anaphoric pronouns on the basis of linguistic data for instance from English Norwegian Russian and Hungarian as well as using a great variety of frameworks optimality framework two level semantics the theory of generative lexicon cognitive grammar Gricean theory and relevance theory      **State of New York Supreme Court Appellate Division Fourth Department ,      Mobile Theater** Fernando Quesada, 2021-07-13 Taking as a starting point a design for a mobile theater made at the Architectural Association of London between 1970 and 1971 by Spanish architect Javier Navarro de Zuñiga born 1942 this book traces the architectural counterculture of that time and the relations with the alternative performing arts Architect Javier Navarro de Zuñiga 1942 graduated in 1968 at Madrid School of Architecture During the academic year 1970 1971 he travelled from Madrid to London thanks to a grant of the British Council to complete his postgraduate training at the Architectural Association There he designed a building called Mobile Theater It was a theatrical device composed of several 8 x 2.5 meters trucks carefully designed which contained all the building elements needed to shape a space for the performing arts or other collective uses The assembly time estimated for four workers was six and a half hours This project was internationally showed and published between 1971 and 1975 but was never built This book intends to release this project largely ignored by canonical historiography and to culturally place it in time and space the agitated city of London in 1971 After the convulsions of May 1968 architectural counterculture rearmed on very different fronts from the disciplinary rally to the guerilla positions This architectural design accounts for these events since it had a temporal development that goes beyond its mere conception as an artifact The long and frustrated process for construction 1969 to 1976 calls for a particular intra history which this books will tell      Encyclopedia of Global Justice

**Ethics** Ronnie Littlejohn, 1993 Iran's heritage is as varied as it is complex and the archaeological, philological, and linguistic scholarship of the region has not been the focus of a synoptic study for many decades. Thus The Oxford Handbook of Ancient Iran fills a longstanding gap in the literature of the ancient Near East providing up-to-date authoritative essays by leading specialists based both inside and outside of Iran on a wide range of topics extending from the earliest Paleolithic settlements in the Pleistocene era to the Islamic conquest in the 7th century AD. The volume is divided into sections covering prehistory, the Chalcolithic, the Bronze Age, the Iron Age, the Achaemenid period, the Seleucid and Arsacid periods, and the Sasanian period, concluding with the Arab conquest of Iran. In addition, more specialized chapters are included that treat numismatics, Elymaean, Arsacid, Persian, and Sasanian religion, the Avesta, and Zoroastrianism, languages, proto-Elamite, Elamite, Akkadian, Old Persian, Greek, Aramaic, Parthian, and Middle Persian, political ideology, calendars, textiles, administrative seals and sealing, Sasanian silver and reliefs, and political relations with Rome and Byzantium. No other single volume covers as much of Iran's archaeology and history with the same degree of authority. This work will be of vast interest to a wide range of students and scholars from archaeologists and art historians to philologists, Classicists, ancient historians, religious historians, and numismatists.
