Happy Days Are Here Again A Short Interpretive History Of The New Deal:

Sounds of the New Deal Peter Gough, 2015-02-28 At its peak the Federal Music Project FMP employed nearly 16 000 people who reached millions of Americans through performances composing teaching and folksong collection and transcription In *Sounds of the New Deal* Peter Gough explores how the FMP's activities in the West shaped a new national appreciation for the diversity of American musical expression From the onset administrators and artists debated whether to represent highbrow popular or folk music in FMP activities Though the administration privileged using good music to educate the public in the West local preferences regularly trumped national priorities and allowed diverse vernacular musics to be heard African American and Hispanic music found unprecedented popularity while the cultural mosaic illuminated by American folksong exemplified the spirit of the Popular Front movement These new musical expressions combined the radical sensibilities of an invigorated Left with nationalistic impulses At the same time they blended traditional patriotic themes with an awareness of the country's varied ethnic musical heritage and vast but endangered store of grassroots music

The Great Depression David F. Burg, 2009 Presents a history of the Great Depression including the events that led up to it and the New Deal that followed with chronologies personal narratives and documents

Bound for Freedom Douglas Flamming, 2005-01-24 Paul Bontemps decided to move his family to Los Angeles from Louisiana in 1906 on the day he finally submitted to a strictly enforced Southern custom he stepped off the sidewalk to allow white men who had just insulted him to pass by Friends of the Bontemps family like many others beckoning their loved ones West had written that Los Angeles was a city called heaven for people of color But just how free was Southern California for African Americans This splendid history at once sweeping in its historical reach and intimate in its evocation of everyday life is the first full account of Los Angeles's black community in the half century before World War II Filled with moving human drama it brings alive a time and place largely ignored by historians until now detailing African American community life and political activism during the city's transformation from small town to sprawling metropolis Writing with a novelist's sensitivity to language and drawing from fresh historical research Douglas Flamming takes us from Reconstruction to the Jim Crow era through the Great Migration the Roaring Twenties the Great Depression and the build up to World War II Along the way he offers rich descriptions of the community and its middle class leadership the women who were front and center with men in the battle against racism in the American West In addition to drawing a vivid portrait of a little known era Flamming shows that the history of race in Los Angeles is crucial for our understanding of race in America The civil rights activism in Los Angeles laid the foundation for critical developments in the second half of the century that continue to influence us to this day *Catalog of Copyright Entries. Whose America? Jonathan Zimmerman, 2005-11-30 What do America's children learn about American history American values and human decency Who decides In this absorbing book Jonathan Zimmerman tells the dramatic story of conflict compromise and more conflict over the teaching of

history and morality in twentieth century America In history whose stories are told and how As Zimmerman reveals multiculturalism began long ago Starting in the 1920s various immigrant groups the Irish the Germans the Italians even the newly arrived Eastern European Jews urged school systems and textbook publishers to include their stories in the teaching of American history The civil rights movement of the 1960s and 70s brought similar criticism of the white version of American history and in the end textbooks and curricula have offered a more inclusive account of American progress in freedom and justice But moral and religious education Zimmerman argues will remain on much thornier ground In battles over school prayer or sex education each side argues from such deeply held beliefs that they rarely understand one another s reasoning let alone find a middle ground for compromise Here there have been no resolutions to calm the teaching of history All the same Zimmerman argues the strong American tradition of pluralism has softened the edges of the most rigorous moral and religious absolutism

Telecommunications, Mass Media, and Democracy Robert W. McChesney, 1995-01-26 This work shows in detail the emergence and consolidation of U S commercial broadcasting economically politically and ideologically This process was met by organized opposition and a general level of public antipathy that has been almost entirely overlooked by previous scholarship McChesney highlights the activities and arguments of this early broadcast reform movement of the 1930s The reformers argued that commercial broadcasting was inimical to the communication requirements of a democratic society and that the only solution was to have a dominant role for nonprofit and noncommercial broadcasting Although the movement failed McChesney argues that it provides important lessons not only for communication historians and policymakers but for those concerned with media and how they are used
