Hard America Soft America:

Hard America, Soft America Michael Barone, 2005-05-24 A peculiar feature of our country today says Michael Barone is that we seem to produce incompetent eighteen year olds but remarkably competent thirty year olds Indeed American students lag behind their peers in other nations but America remains on the leading edge economically scientifically technologically and militarily

One Man's America George Will, 2009-11-17 In his provocative and compelling new book America's most widely read and most influential commentator casts his gimlet eye on our singular nation Moving far beyond the strict confines of politics George F Will offers a fascinating look at the people stories and events often unheralded that make the American drama so endlessly entertaining and instructive With Will's signature erudition and wry wit always on display One Man's America chronicles a spectacular eclectic procession of figures who have shaped our cultural landscape from Playboy founder Hugh Hefner to National Review founder William F Buckley Jr from Victorian poet Henry Wadsworth Longfellow to Beat poet Lawrence Ferlinghetti from cotton picker turned country singer Buck Owens to actor turned president Ronald Reagan Will crisscrosses the country to illuminate what it is that makes America distinctive He visits the USS Arizona memorial in Pearl Harbor and ponders its enduring links to the present He travels to Milwaukee to celebrate the hundredth anniversary of an iconic brand Harley Davidson In Los Angeles he finds the inspiring future of education while in New York he confronts the dispiriting didacticism of the avant garde He ventures to the Civil War battlefields of Virginia to explore what we risk when we efface our own history And on the outskirts of Chicago he investigates one of the darkest chapters in American history only to discover a shining example of resilience and grace the best the country has to offer Will's wide lens takes in much more as well everything from the most emblematic novel of the 1930s and no it is not about the Joads to the cult of ESPN to Brooks Brothers and Ben Jerry's And of course One Man's America would not be complete without the author's insights on the national pastime baseball the icons and the cheats the hapless and the greats Finally in a personal and reflective turn Will writes movingly of his thirty five year old son Jon born with Down syndrome and pays loving and poignant tribute to his mother who died at the age of ninety eight after a long struggle with dementia The essays in One Man's America even when critiquing American culture reflect Will's deep affection and regard for our nation After all he notes when America falls short it does so only as compared to the uniquely high standards it has set for itself In the end this brilliantly informative and entertaining book reminds us of the enduring value of the simple virtues and decencies that can make communities flourish and that have made America great and exemplary

From Athens to America Lewis D. Solomon, 2007-10-01 From Athens to America calls for the reversal of the character forming function from

the political domain arguing for public sector_federal state and local_involvement in character formation Solomon focuses on four specific virtues to serve as a guide to public policy formation self esteem joy and optimism equanimity and personal responsibility He calls for the public sector to move beyond the efforts of families faith communities and civic organizations and take a vital role in fostering character development and promoting these virtues Combining political science with philosophy the Judeo Christian tradition and medical research this book illustrates how we formulate public policies that enable people to grow and develop into healthy humans what each of us is fully capable of becoming **America: The Last Best Hope (Volume III)** William J. Bennett,2011-10-11 Author historian and educator William J Bennett examines America's last two decades Twenty years ago John McCain was serving his second year in the Senate and Colin Powell had just been promoted to chairman of the Joint Chiefs of Staff There was no Fox News Channel no American Idol Saddam Hussein and the Ayatollah Ruhollah Khomeini ruled Iraq and Iran respectively George W Bush was the fairly unnoticeable son of the then president If you asked someone to email me you would have received a blank stare and Amazon was a forest in South America Finally 20 years ago a young man named Barack Obama was elected the first black president of the Harvard Law Review The two decades from 1988 to 2008 have proved to be some of the most pivotal in America's history Based on a lifetime of experience in government and education William J Bennett defines the events that shaped American history during the final years of the century **Culture Shift** Dr. R. Albert Mohler,2011-08-16 Prepare to Engage Mass media and technology are exploding Popular entertainment relentlessly pushes the envelope Biomedicine stretches ethical boundaries Political issues shift with the polls Christian orthodoxy is questioned on every front The world in which you live is undergoing a major cultural transformation one leading to a widespread lack of faith an increase in moral relativism and a rejection of absolute truth In Culture Shift Dr R Albert Mohler one of today's leading Christian thinkers and spokespersons addresses these and other tough topics clearly biblically and passionately The effect of the digital deluge on individuals and families The truth about terrorism Christian parents and public schools The rise of an aggressive new atheism The abortion debate Here is trustworthy help for developing a comprehensive Christian worldview based on timeless truth **Class Degrees** Evan Watkins,2009-08-25 A current truism holds that the undergraduate degree today is equivalent to the high school diploma of yesterday But undergraduates at a research university would probably not recognize themselves in the historical mirror of high school vocational education Students in a vast range of institutions are encouraged to look up the educational social scale whereas earlier vocational education was designed to cool out expectations of social advancement by training a working class prepared for massive industrialization In Class Degrees Evan Watkins argues that reforms in vocational education in the 1980s and 1990s can explain a great deal about the changing directions of class formation in the United States as well as how postsecondary educational institutions are changing Responding to a demand for flexibility in job skills and reflecting a consequent aspiration to choice and perpetual job mobility those reforms aimed to eliminate the separate

academic status of vocational education They transformed it from a cooling out to a heating up of class expectations The result has been a culture of hyperindividualism The hyperindividual lives in a world permeated with against all odds plots from beat the odds of long supermarket checkout lines by using self checkout and buying FasTrak transponders to beat the odds of traffic jams to the endless superheroes on film and TV who daily save various sorts of planets and things against all odds Of course a few people can beat the odds only if most other people do not As choice begins to replace the selling of individual labor at the core of contemporary class formation the result is a sort of waste labor left behind by the competitive process Provocatively Watkins argues that in the twenty first century academic work in the humanities is assuming the management function of reclaiming this waste labor as a motor force for the future

Our First Revolution Michael Barone, 2008-06-24 Describes the influence of Britain's Glorious Revolution of 1688 and 1689 on America's founding fathers detailing the impact of the era on the evolution of representative government and the concept of individual liberty

Crisis of the Two Constitutions Charles R. Kesler, 2021-02-16 American politics grows embittered because it is increasingly torn between two rival constitutions two opposed cultures two contrary ways of life American conservatives rally around the founders Constitution as amended and as grounded in the natural and divine rights and duties of the Declaration of Independence American liberals herald their living Constitution a term that implies that the original is dead or superseded and that the fundamental political imperative is constant change or transformation as President Obama called it toward a more and more perfect social democracy ruled by a Woke elite Crisis of the Two Constitutions details how we got to and what is at stake in our increasingly divided America It takes controversial stands on matters political and scholarly describing the political genius of America's founders and their efforts to shape future generations through a constitutional culture that included immigration citizenship and educational policies Then it turns to the attempted progressive refounding of America tracing its accelerating radicalism from the New Deal to the 1960s New Left to today's unhappy campus nihilists Finally the volume appraises American conservatives efforts so far unavailing despite many famous victories to revive the founders Constitution and moral common sense From Ronald Reagan to Donald Trump what have conservatives learned and where should they go from here Along the way Charles R Kesler argues with critics on the left and right and refutes fashionable doctrines including relativism multiculturalism critical race theory and radical traditionalism providing in effect a one volume guide to the increasingly influential Claremont school of conservative thought by one of its most engaged and engaging thinkers

Life in the Market Ecosystem Stuart K. Hayashi, 2014-11-13 Life in the Market Ecosystem the second book in the Nature of Liberty trilogy confronts evolutionary psychology head on It describes the evolutionary psychologists theory of gene culture co evolution which states that although customs and culture are not predetermined by anyone's genetic makeup one's practice of a custom can influence the likelihood of that person having children and grandchildren Therefore according to the theory customs count as evolutionary adaptations Extending that theory further as entire systems of political economy

capitalism socialism and hunter gatherer subsistence consist of multiple customs and institutions it follows that an entire political economic system can likewise be classified as an evolutionary adaptation Considering that liberal republican capitalism has insofar as the system has been implemented done more to reduce the mortality rate and secure human fertility than other models of societal structure it stands to reason that liberal republican capitalism is itself a beneficent evolutionary adaptation Moreover as essential tenets of Rand's Objectivism individualism observation based rationality and peaceable self interest have been integral to the development of the capitalist ecosystem important aspects of the Objectivism are worthwhile adaptations as well This book shall uphold that position as well as combat critiques by evolutionary psychologists and environmentalists who denounce capitalism as self destructive Instead capitalism is the most sustainable and fairest political model This book argues that of all the philosophies Objectivism is the one that is most fit for humanity

North America's Soft Security Threats and Multilateral Governance I. Hussain,J. Transforming U.S. Intelligence Jennifer E. Sims,Burton Gerber,2005-08-24 The intelligence failures exposed by the events of 9 11 and the missing weapons of mass destruction in Iraq have made one thing perfectly clear change is needed in how the U S intelligence community operates Transforming U S Intelligence argues that transforming intelligence requires as much a look to the future as to the past and a focus more on the art and practice of intelligence rather than on its bureaucratic arrangements In fact while the recent restructuring including the creation of the Department of Homeland Security may solve some problems it has also created new ones The authors of this volume agree that transforming policies and practices will be the most effective way to tackle future challenges facing the nation's security This volume's contributors who have served in intelligence agencies the Departments of State or Defense and the staffs of congressional oversight committees bring their experience as insiders to bear in thoughtful and thought provoking essays that address what such an overhaul of the system will require In the first section contributors discuss twenty first century security challenges and how the intelligence community can successfully defend U S national interests The second section focuses on new technologies and modified policies that can increase the effectiveness of intelligence gathering and analysis Finally contributors consider management procedures that ensure the implementation of enhanced capabilities in practice Transforming U S Intelligence supports the mandate of the new director of national intelligence by offering both careful analysis of existing strengths and weaknesses in U S intelligence and specific recommendations on how to fix its problems without harming its strengths These recommendations based on intimate knowledge of the way U S intelligence actually works include suggestions for the creative mixing of technologies with new missions to bring about the transformation of U S intelligence without incurring unnecessary harm or expense The goal is the creation of an intelligence community that can rapidly respond to developments

in international politics such as the emergence of nimble terrorist networks while reconciling national security requirements with the rights and liberties of American citizens

America, War and Power A. James Fuller, Lawrence Sondhaus, 2007
 Written by leading historians and political scientists this collection of essays offers a broad and comprehensive coverage of the role of war in American history Addressing the role of the armed force and attitudes towards it in shaping and defining the United States the first four chapters reflect the perspectives of historians on this central question from the time of the American Revolution to the US wars in Vietnam and Iraq Chapters five and six offer the views of political scientists on the topic one in light of the global systems theory the other from the perspective of domestic opinion and governance The concluding essay is written by historians Fred Anderson and Andrew Cayton whose co authored book *The Dominion of War Empire and Liberty in North America 1500-2000* provided the common reading for the symposium which produced these essays *America War and Power* will be of much interest to students and scholars of US military history US politics and military history and strategy in general

Tough Liberal Richard D. Kahlenberg, 2007-08-30
 In Woody Allen's 1973 film *Sleeper* a character wakes up in the future to learn that civilization was destroyed when a man by the name of Albert Shanker got hold of a nuclear warhead Shanker was condemned by many when he shut down the New York City school system in the bitter strikes of 1967 and 1968 and he was denounced for stirring up animosity between black parents and Jewish teachers Later however he built alliances with blacks and at the time of his death in 1997 such figures as Bill Clinton celebrated Shanker for being an educational reformer a champion of equality and a promoter of democracy abroad Shanker lived the lives of several men bound into one In his early years he was the George Washington of the teaching profession helping to found modern teacher unionism During the 1980s as head of the American Federation of Teachers he became the nation's leading education reformer Shanker supported initiatives for high education standards and accountability teacher led charter schools and a system of peer review to weed out inadequate teachers Throughout his life Shanker also fought for tough liberalism an ideology favoring public education and trade unions but also colorblind policies and a robust anticommunism all of which Shanker believed were vital to a commitment to democracy Although he had a coherent worldview Shanker was a complex individual He began his career as a pacifist but evolved into a leading defense and foreign policy hawk He was an intellectual and a populist a gifted speaker who failed at small talk a liberal whose biggest enemies were often on the left a talented writer who had to pay to have his ideas published and a gruff unionist who enjoyed shopping and detested sports Richard D Kahlenberg's biography is the first to offer a complete narrative of one of the most important voices in public education and American politics in the last half century At a time when liberals are accused of not knowing what they stand for *Tough Liberal* illuminates an engaging figure who suggested an alternative liberal path

Flight Capital David A. Heenan, 2005
 For centuries the United States has been a magnet for human capital ambitious talented immigrants came to make their fortunes and stayed to pump wealth into the US economy Today America

relies more than ever on immigrant brainpower over half the PhDs working here are foreign born as are nearly half the physicists computer scientists and mathematicians and many of Silicon Valley s high tech leaders But David Heenan warns they may not be here long In *Flight Capital* Heenan describes how within the past decade America has gone from being the top importer of brainpower to a net exporter Empowered by the globalization of technology emerging economies from Iceland to India are using aggressive initiatives to attract top knowledge workers In a reverse brain drain hundreds of thousands of the best and brightest in America are returning to their native lands to pursue new opportunities Heenan recounts the stories of dozens of emigrating professionals in an engaging way to explore the various factors personal cultural economic and political that are fueling the exodus human capital and its consequences for America at a time when a shortage of talented labor is exacerbated by post 9 11 immigration restrictions The outflow of brainpower Heenan argues threatens U S technological and economic preeminence and even our security unless quick action is taken He proposes a dozen hard hitting measures to correct the situation both short and long term Timely and compelling *Flight Capital* focuses attention on whether America will continue as a world leader and on the new forces at play in the global economic community

Balancing Acts Henry G. Brinton, 2005-11 Henry Brinton identifies the social and political phenomenon of our time the increasing tendency of people to live and worship in like minded communities Not only does Brinton explain the theological basis for this ideological segregation but he shows in dozens of examples the way a polarized country can regain its balance Bill Bishop Staff Writer Austin American Statesman American congregations are more divided than ever over a broad range of theological and social issues and this book outlines an innovative way to understand and address these difficult conflicts *Balancing Acts* introduces readers to the two major spiritual themes that animate life in America today

obligation and liberation and discusses how most Christians align themselves with one of these attitudes One group focuses on the obligations of religious life and seeks moral clarity while the other tends to see religion as a liberation movement and stresses God's love for the oppressed of the earth The ability to strike a balance between these competing camps is the key to managing tension in the church and in the larger community and *Balancing Acts* provides readers with the tools to find and nurture Christian unity in the face of political cultural and theological diversity Whether the issue is women in ministry presidential politics immigration homosexuality or war this book demonstrates how common ground can be found by people of faith who are willing to perform a balancing act between obligation and liberation In *Balancing Acts* Henry Brinton draws on his own rich experience to offer a way of approaching hot button social issues with both pastoral and prophetic care It's a useful read for any pastor and should stimulate discussion in congregations everywhere Art Simon Founder and President Emeritus Bread for the World How are we to minister and serve in the church today Here is a healthy analysis of the challenge to faithful Christians in North American congregational life provided by a thoughtful and experienced pastor Brinton calls us to balance the obligation keeping necessary for life together with the liberation seeking call of the gospel The work deserves a careful reading by both pastors and lay leaders in congregations as well as by seminarians preparing to serve and lead the church Louis B Weeks President Union Theological Seminary Presbyterian School of Christian Education A clear and compelling model for individuals and congregations wrestling with issues that are increasingly dividing and polarizing the church and our society By grounding his work in the fundamental yet opposing biblical themes of obligation and liberation Brinton provides a means for us to move from the labels of left and right conservative and liberal toward a common ground where dialogue and understanding are possible Vanessa B Andrews Director National Cathedral Association Henry G Brinton is the senior pastor of Fairfax Presbyterian Church in Fairfax Virginia and senior writer for the preaching journal *Homiletics* He is also a frequent contributor to the Outlook section of the Washington Post writing on contemporary religious issues Brinton is a graduate of Duke University B A and Yale Divinity School M Div About the Author Henry G Brinton is the senior pastor of Fairfax Presbyterian Church in Fairfax Virginia and senior writer for the preaching journal *Homiletics* He is also a frequent contributor to the Outlook section of the Washington Post writing on contemporary religious issues Brinton is a graduate of Duke University B A and Yale Divinity School M Div [A Smarter, More Secure America](#) CSIS Commission on Smart Power, Richard L.
