introduction outlining the key themes of the period a detailed timeline and suggestions for further reading and relevant internet resources this is the ideal companion for all students of the nineteenth century *Wealth and Welfare* Martin Daunton,2007-04-26 Martin Daunton provides a clear and balanced view of the continuities and changes that occurred in the economic history of Britain from the Great Exhibition of 1851 to the Festival of Britain in 1951 In 1851 Britain was the dominant economic power in an increasingly global economy The First World War marked a turning point as globalisation went into reverse and Britain shifted to insular capitalism Rather than emphasizing the decline of the British economy this book stresses modernity and the growth of new patterns of consumption in areas such as the service sector and the leisure industry Reforming the Constitution Peter Catterall,Wolfram Kaiser,Ulrike Walton-Jordan,2014-05-12 This collection takes as its subject how and why the British constitution developed during the course of the 20th century In chapters that analyse in detail the evolution of various aspects of the constitution this work explores debates about how the constitution ought to operate and the political goods it ought to secure among politicians jurists and academics In addition it looks at the influence of political parties nationalism social and economic change European integration and the contests in over particular reforms in Parliament courts media and on the hustings **Secret Gardens, Satanic Mills** Mary Jo Maynes,Birgitte S land,Christina Benninghaus,2005 Essays on the history of girlhood in modern Europe **Philanthropy and the Construction of Victorian Women's Citizenship** Andrea Geddes Poole,2014-02-05 British social reformers Emma Cons 1838 1911 and Lucy Cavendish 1841 1924 broke new ground in their efforts to better the lot of the working poor in London they hoped to transform these people s lives through great art music high culture and elite knowledge Although they did not recognize it as such their work was in many ways an affirmation and display of citizenship This book uses Cons s and Cavendish s partnership and work as an illuminating point of departure for exploring the larger topic of women s philanthropic campaigns in late Victorian and Edwardian society Andrea Geddes Poole demonstrates that beginning in the late 1860s a shift was occurring from an emphasis on charity as a private personal act of women s virtuous duty to public philanthropy as evidence of citizenly civic participation She shows that through philanthropic works women were able to construct a separate public sphere through which they could speak directly to each other about how to affect matters of significant public policy decades before women were finally granted the right to vote **Women and the Anglican Church Congress 1861-1938** Sue Anderson-Faithful,Catherine Holloway,2023-05-18 This book covers new ground in its focus on the Anglican Church congresses 1861 1938 as a public space in which the views of notable women were widely disseminated It celebrates the contribution made by women to public life and discourse on womanhood as platform speakers and commemorates the presence of the large numbers of women who joined congresses as audience members Original research draws on extensive primary sources from official records diaries and the press to capture women s views and voices and to evoke congress as a communicative social space and a window into topical affairs Women and the Anglican Church Congress

1861 1938 examines the roles of women in the Church and reflects on how women with a sense of vocation negotiated contemporary attitudes to their positions and spirituality The book also explores how women's secular aspirations towards citizenship in the context of poverty work temperance eugenics class and suffrage played out at congress

**The Broadview Anthology of Victorian Prose, 1832-1901** Mary Elizabeth Leighton, Lisa Surridge, 2012-08-20 The Victorian era witnessed dramatic transformations in print culture and this new anthology covers the exciting intellectual and social debates of the period From first person accounts of the lives of factory workers to Oscar Wilde's aesthetic theory and from narratives of British travelers in Africa and Asia to Havelock Ellis's theories of sexual inversion the surprising diversity of nineteenth century nonfiction writing is represented Illustrations from Victorian periodicals provide a vivid sense of the original reading experience The book's thematic organization emphasizes the social and historical contexts of prose writings as well as the way in which these writings address each other In addition to a general critical introduction the anthology features new thematic introductions by experts in the field

**The Churches and the Working Classes** Patricia Midgley, 2012-12-21 Contrary to our perception of the centrality of the churches in English life in the nineteenth century the disappointing results of the 1851 Religious Census led religious leaders to seek a variety of ways to increase religious allegiance as the century progressed The apparent apathy and lack of interest in formal religion on the part of the working classes was particularly galling and the various denominations tried hard to attract them through evangelical missions as well as social and charitable ventures which sometimes competed with religious concerns to the latter's detriment This book traces the motivations concerns and efforts of the churches particularly in the period between 1870 and 1920 and the ambivalent responses of ordinary people The Education Act of 1870 led to the churches losing their hold on the education of the young a consequence foreseen by many church leaders but unable to be prevented By 1920 it was apparent that the churches' optimism regarding an increased role with a war weary population would not be fulfilled The focus is on the city of Leeds representative of the industrialised urban areas with burgeoning populations which proved to be such a challenge to the churches at the same time stimulating them to ever greater efforts

**Reading Victorian Schoolrooms** Elizabeth Gargano, 2013-10-31 Reading Victorian Schoolrooms examines the numerous schoolroom scenes in nineteenth century novels during the fraught era of the Victorian education debates As Gargano argues the fiction of mainstream and children's writers such as Dickens Bront and Carroll reflected widespread Victorian anxieties about the rapid institutionalization of education and the shrinking realm of domestic instruction As schools increasingly mapped out a schema of time schedules standardized grades or forms separate disciplines and hierarchical architectural spaces childhood development also came to be seen as regularized and standardized according to clear developmental categories Yet Dickens Bront and others did not simply critique or satirize the standardization of school experience Instead most portrayed the schoolroom as an unstable site incorporating both institutional and domestic space Drawing on the bildungsroman's traditional celebration of an

individualized experiential education numerous novels of school life strove to present the novel itself as a form of domestic education in contrast to the rigors of institutional instruction By positioning the novel as a form of domestic education currently under attack these novelists sought to affirm its value as a form of protest within an increasingly institutionalized society The figure of the child as an emblem of beleaguered innocence thus became central to the Victorian fictive project

**Women in Victorian Society** Anne Louise Booth, 2024-06-15 In this highly readable and illuminating book Anne Louise Booth looks at the status of society women during the Victorian period the expectations and limitations they faced and the ways in which these norms were challenged and boundaries were pushed
