Hard Lessons:

Hard Lessons Jonathan Schorr, 2002 A decade ago there were only two charter schools in the United States Today there are more than 2 400 serving more than half a million students Charter schools are public schools that are free from many of the regulations that have long governed public education Supporters include many of the country s most prominent educators and politicians among them President George W Bush who hope charter schools will reshape education especially where it proves most challenging in the inner city The fact that most charter schools promise smaller classes and more parental involvement makes them immensely appealing to the nation s most disadvantaged families Charter school detractors on the other hand fear that these alternative schools will irredeemably ruin public education drawing away the talented students and the most involved parents Clearly the stakes are high But few Americans understand what a charter school really is or what is involved in trying to create attend and teach in one Written by a renowned journalist and education writer and a former inner city school teacher himself Hard Lessons is the first book to capture the human drama of the entire experience For three years Jonathan Schorr was allowed complete access to the students teachers and parents of the E C Reems Academy in Oakland California making him uniquely qualified to tell their fascinating story But would the new school succeed in effectively teaching children from urban neighborhoods where success is rare Would it become a whole new bureaucracy or sabotage itself from within The answers are found in the moving stories of some deeply involved yet very different individuals Among them there is Nazim Casey Jr rescued from his crack addicted parents he s the last chance child who will put inner city charters to their ultimate test William Stewart a father whose fury at his daughter s failed public school propels him into activism Eugene Ruffin the entrepreneur who helped introduce the personal computer to America then collaborated with Wal Mart heir John Walton to invest in education and Valentin Del Rio a young teacher whose idealism turns to exhaustion and the search for a punctual paycheck Through successes and setbacks Hard Lessons reveals just how difficult it is even with the best of intentions to offer a quality education to every child in America The story of E C Reems Academy offers invaluable lessons for anyone interested in America s most pressing domestic concern At once harrowing and hopeful and in the finest tradition of modern nonfiction Hard Lessons is one of the most important books to come along in decades

A Vulcan's Tale Dov S. Zakheim, 2013-07-10 A firsthand account of how the Bush administration mismanaged its Afghan campaign A Vulcan s Tale shines new and important light on the events and people behind the headlines in the immediate years following the September 11 attacks The Vulcans so named by Condoleezza Rice were eight foreign policy experts who advised George W Bush during his 2000 presidential campaign After Bush assumed the presidency the Vulcans helped shape the administration s foreign policy following 9 11 including the military operations in Afghanistan and Iraq All were veterans of past administrations having served under either Ronald Reagan or George H W Bush and they included among their ranks Dov Zakheim Made comptroller and chief financial officer for the Department of Defense in 2001 Zakheim

was also named the DoD's coordinator for Afghan civilian reconstruction in 2002. In *A Vulcan's Tale*, Zakheim draws on his own participation and intimate knowledge to analyze how the United States missed critical opportunities while it struggled to manage two wars, particularly the seemingly endless endeavor in Afghanistan. In his view, the Bush administration's disappointing results in Afghanistan were partly attributable to the enormity of the challenges, certainly. But flawed leadership and deficiencies of management, understanding, and forethought all played their parts as well. The power of the purse proved to be especially damaging. The Office of Management and Budget was slow to fund Defense's efforts at the outset of the Afghan conflict and then inadequately funded the State Department and the U.S. Agency for International Development, casting the die for several additional years of conflict. The invasion of Iraq siphoned off critical resources for Afghanistan, thereby further complicating that country's reconstruction. Even with public policy of the highest order, the devil still lurked in the details, as the DoD's money man was soon to discover while he struggled to fund and manage the reconstruction of civilian Afghanistan. *A Vulcan's Tale* is an authoritative, candid but fair account of how a wise and admirable goal can be waylaid by insufficient funding and ineffective coordination, with the result of faulty or at best incomplete implementation.

Singlewide Sonya Salamon, Katherine MacTavish, 2017-10-15. In *Singlewide*, Sonya Salamon and Katherine MacTavish explore the role of the trailer park as a source of affordable housing. America's trailer parks, most in rural places, shelter an estimated 12 million people, and the authors show how these parks serve as a private solution to a pressing public need. *Singlewide* considers the circumstances of families with school-age children in trailer parks, serving whites in Illinois, Hispanics in New Mexico, and African Americans in North Carolina. By looking carefully at the daily lives of families who live side by side in rows of manufactured homes, Salamon and MacTavish draw conclusions about the importance of housing, community, and location in the families' dreams of opportunities and success, as signified by eventually owning land and a conventional home. Working-poor rural families who engage with what Salamon and MacTavish call the mobile-home industrial complex may become caught in an expensive trap, starting with their purchase of a mobile home. A family that must site its trailer in a land-lease trailer park struggles to realize any of the anticipated benefits of homeownership. Seeking to break down stereotypes, Salamon and MacTavish reveal the important place that trailer parks hold within the United States' national experience. In so doing, they attempt to integrate and normalize a way of life that many see as outside the mainstream, suggesting that families who live in trailer parks rather than being trailer trash culturally resemble the parks' neighbors who live in conventional homes.

Fifth-Dimensional Soul Psychology David K. Miller, 2014-08-18 Greetings I m Vywamus I m a soul psychologist In this series of lectures we will explore the meaning of soul psychology and how it relates to modern psychology More importantly we will show how soul psychology as a practice is becoming more popular and is an especially useful technique for starseeds and others who are awakening to the fact that there is reincarnation and that there are soul lessons that must be learned The basic essence of soul psychology rests with the idea that the soul is evolving and that part of this evolution is occurring through incarnations in the third dimension Now to even speak about the soul evolving is perhaps a controversial subject because we know that the soul is eternal We know that the soul has been in existence for infinity and we know that the soul is perfect So why would the soul have to evolve The answer to this question is complex and we may not be able to totally answer it using third dimensional terminology But it is an important question to answer because the nature of soul evolution is inherently connected to your experiences in the third dimension The soul in completing its evolutionary journey needs these experiences in the third dimension and it needs to complete the lessons here through David K Miller Chapters Include Soul Evolution The Nature of the Soul Enlightenment Soul Psychology and Planetary Healing Soul Group Psychology Restoring the Self Uncovering the Mystery of the Mental Body Negative Self Talk Altered States of Consciousness Cosmic Karma
