LaSasso, Kelly Lamar Crain, Jacqueline Levbaert, 2010-02-01 Hard Traveling Carlos Arnaldo Schwantes, 1999-11-01 The nearly two hundred rare and dramatic photographs in this work depict life at work in Oregon Washington Idaho and Montana in the late nineteenth and early twentieth centuries Work often arduous low paid and dangerous defined the region during its period of supercharged development from the 1880s to the 1920s A final section records work during the depression and war years in the 1930s and 1940s Complementing the photographs are statements by workers themselves government analysts and later observers The author's essays and commentary on the photographs demonstrate that from the beginning of U S control wage labor was crucial to integrating the Pacific Northwest into national and international networks of trade commerce and industry The development of lumber mining fishing railroad and service industries in the New Northwest marked the transformation of the region from an isolated periphery to a functioning component of the world economy and culture Schwantes also deals with the tension between the supposed freedom and individualism of the frontier West on the one hand and the constraints of wage labor as practiced in the late nineteenth and early twentieth centuries on the other This tension gave rise to an often militant trade unionism and political radicalism that was particularly marked in the Northwest Mag ,1998-02-24 PCMag com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get PC Mag, 2003-10-28 PCMag com is a leading authority on technology delivering Labs based more from technology independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology Encyclopedia of the Atlantic World, 1400–1900 David Head, 2017-11-16 A first of its kind reference resource traces the interactions among four Atlantic facing continents Europe Africa and the Americas including the Caribbean between 1400 and 1900 Until recently the age of exploration and empire building was researched and taught within imperial and national boundaries The histories of Europe Africa North America and South America were told largely as independent stories with the development of individual places within each continent further separated from each other The indigenous populations of places colonized by Europeans fit into the history even more uneasily often mentioned only in passing Encyclopedia of the Atlantic World 1400 1900 synthesizes a generation of historical scholarship on the events on four continents providing readers an invaluable introduction to the major people places events movements objects concepts and commodities of the Atlantic world as it developed during a key period in history when the world first started to shrink The entries discuss specific topics with an eye toward showing how individual items people and events were connected to the larger Atlantic world This accessibly written reference book brings together topics usually treated separately and discretely alleviating the need for extra legwork when researching and it draws from the latest
