Hard Shining Corn:

Hard Shining Corn David Toulmin, 1972-01-01 **Prizing Scottish Literature** Stevie Marsden, 2021-02-15 This cultural history of the Saltire Society Literary Awards demonstrates the significance the awards have had within Scottish literary and cultural life. It is one piece of the wider cultural award puzzle and illustrates how far from being parochial or niche lesser known awards whose histories may be yet untold play their own role in the circulation of cultural value through the consecration of literary value. The study of the Society's Book of the Year and First Book of the Year Awards not only highlights how important connections between literary awards and national culture and identity are within prize culture and how literary awards and their founding institutions can be products of the socio political and cultural milieu in which they form but this study also illustrates how existing literary award scholarship has only begun to scratch the surface of the complexities of the phenomenon. This book promotes a new approach to considering literary prizes proposing that the concept of the literary awards hierarchy can contribute to emerging and developing discourses pertaining to literary and indeed cultural prizes more broadly.

The Cornkister Days David Kerr Cameron, 2016-02-19 A detailed look at the lives of the Scottish tenant farmers and laborers who worked the land from the late 1700s to the early 1900s. With a knowledge and a skill that reveals his passion for the land and its people, David Kerr Cameron picks his way through the rural upheavals and developments of the late eighteenth and early nineteenth centuries towards the landscape we recognize today. In doing so he provides a wide sweeping and unforgettable view of our rural history and completes his great rural trilogy portraying the old farming landscapes of Scotland's North East Lowlands. Both nostalgia and great understanding are revealed as the author recalls a society based on the plough, a society that moved against the tapestry of the year. This was the backcloth against which the farmtoun folk lived out their days; its seasons and rituals governed their lives and ultimately their destinies. Here now is that story, the story of a landscape all but lost before the onward march of agri business and agri technology. The days recalled are the days of the Clydesdale horse and the hired man, the cottar and crofter, the farmtoun tenant and his laird. Praise for *The Cornkister Days*. Here you can smell the tang of the soil and hear the jingle of the harness. Cameron takes his place among the great Scottish writers of the last century. Jack Webster

Bulletin, 1922 **The Long Horizon** Iain R. Thomson, 2013-08-08 *The Long Horizon* is an extraordinary book. Much more than simply the chronicle of a life spent farming in the Scottish Highlands, it is also a wonderful collection of stories, both factual and fictional, which reflect the changes that have revolutionised Highland life and dramatically affected the natural environment over the centuries. Using the colourful background to the Fraser clan chiefs as a central theme, from the cunning Red Fox through to the sudden death of the Master of Lovat, which set in train the sale of the Fraser empire around Beaufort Castle, Iain Thomson weaves an entertaining narrative that shows how historical events have such a profound effect on what happens today. Throughout the book shines the writer's deep love of the countryside and a respect for the generations before him who have carved their living from the

harsh environment of the Highlands It is a marvellous celebration both of the farming way of life and one of the most beautiful parts of Scotland The Elements of Agriculture George E.
