Hard Thinking The Reintroduction Of Logic To Everyday Life:

Hard Thinking John D. Mullen, 1995 Ideally a logic text should encourage not only criticism of thinking but critical thinking itself To its great credit *Hard Thinking* does both s Nicholas Rescher University of Pittsburgh Mullen effectively combines logic epistemology and good old fashioned common sense The dialogues and examples are telling the explanations clear and to the point The book articulates defends and exemplifies all the important features of hard thinking Many texts purport to aid in the teaching of thinking this one will clearly succeed s Harvey Siegel University of Miami Not only does Mullen s text challenge students to do some hard thinking but it explains why they should and it shows them how T he text includes strong chapters on both traditional and modern formal logic As a result this book should prove suitable for a wide variety of courses s Bruce Umbaugh Webster University *Higher Ground* Sally Kitch, 2000-07 Many feminists love a utopia the idea of restarting humanity from scratch or transforming human nature in order to achieve a prescribed future based on feminist visions Some scholars argue that feminist utopian fiction can be used as a template for creating such a future However Sally L Kitch argues that associating feminist thought with utopianism is a mistake Drawing on the history of utopian thought as well as on her own research on utopian communities Kitch defines utopian thinking explores the pitfalls of pursuing social change based on utopian ideas and argues for a higher ground a contrasting approach she calls realism Replacing utopianism with realism helps to eliminate self defeating notions in feminist theory such as false generalization idealization and unnecessary dichotomies Realistic thought however allows feminist theory to respond to changing circumstances acknowledge sameness as well as difference value the past and the present and respect ideological give and take An important critique of feminist thought Kitch concludes with a clear exciting vision for a feminist future without utopia

Patient Safety Alexander Gungov, 2018-10-30 In our time of well publicized health care travails in the USA and the UK and elsewhere matters of financing too often subsume the dimension of patient care In his latest book Alexander L Gungov studies a vital but neglected aspect of patient safety Of the thousands of medical errors committed on a daily basis in the bulk of unfortunate clinical decisions a significant share pertains to various logical flaws and epistemological fallacies By focusing on the logical dimensions of clinical medicine Gungov promotes awareness of the logical and epistemological traps that lie in the day to day care of patients Such a focus not only allows us to avoid falling into them but demonstrates the practical value of looking at medicine from a new philosophical perspective That perspective involves a broad and unusual collection of philosophers The discussion takes its starting point from J S Mill s inductive methods and Giambattista Vico s *verum factum* principle but then sets out a unique combination of Charles Sanders Peirce s abductive reasoning Immanuel Kant s reflective judgment as well as G W F Hegel s and D P Verene s speculative thinking all marshalled to present a novel philosophical account of clinical diagnostics Interpretation of practical examples elucidate the logical aspect of medical errors and suggests strategies of overcoming them The book as a whole demonstrates the value of Hans Georg Gadamer s

hermeneutical insights into the enigmatic character of health This much needed book will be of interest to medical practitioners health policy makers patients and their families and to advanced students and scholars in medicine the medical humanities medical epistemology and the philosophy of medicine in general *The Philosopher's Index* ,1995 Vols for 1969 include a section of abstracts **Proceedings and Addresses of the American Philosophical Association** American Philosophical Association,1995 List of members in v 1 *The Review of Metaphysics* ,1995 *The Journal of Philosophy* ,1996 *International Philosophical Quarterly* ,1961 The British National Bibliography Arthur James Wells,1998 **The New Scholasticism** ,1995 Includes section Book Reviews **Ethics and Technology** Herman T.
